Agency Information Collection Activities Under OMB Review; New Source Performance Standards (NSPS) for Municipal Waste Combustors (Subpart Ea) Reporting and Recordkeeping OMB No. 2060-0210 and EPA No. 1506.07

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: New Source Performance Standards for Municipal Waste Combustors (MWC) Subpart Ea—Reporting and Recordkeeping Requirements (EPA ICR No. 1506.07; OMB No. 2060-0210), with expiration date of May 31, 1996. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before April 15, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to EPA ICR No. 1506.07.

SUPPLEMENTARY INFORMATION:

Title: NSPS for Municipal Waste Combustors Subpart Ea (OMB Control No. 2060-0210; EPA ICR No. 1506.07); Expiring May 31, 1969. This is a request for renewal of a currently approved information collection request.

Abstract: These standards apply to municipal waste combustors (MWC) units with a capacity greater than 225 megagrams per day (250 tons per day) of municipal solid waste or refuse-derived fuel, for which construction, modification, or reconstruction commenced after December 20, 1989 and until September 20, 1994. Owners or operators of such units must provide EPA, or the delegated State regulatory authority, with the one-time notifications and reports, and must keep records, as required of all facilities subject to the general NSPS requirements. In addition, facilities subject to this subpart must install

continuous monitoring systems (CMS) to monitor specified operating parameters to ensure that good combustion practices are implemented on a continuous basis. Owners and operators must submit quarterly and annual compliance reports. The notification and reports enable EPA or the delegated State regulatory authority to determine the best demonstrated technology is installed and properly operated and maintained, and to schedule inspections. The responses to this information collection are mandatory under Clean Air Act section 111 and 40 CFR Part 60, Subpart Ea. The responses are not anticipated to be kept confidential due to the nature of the information collected; however, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in 40 CFR Part 2.

In terms of capital costs, the reporting and recordkeeping cost burden in #14 of the OMB Form 83-1 is stated as zero. First, there are no anticipated capital/startup costs for NSPS Subpart Ea during the startup of a new MWC for the installation of equipment for monitoring and recordkeeping and other related costs. No additional MWCs will be subject to the NSPS Subpart Ea, since all MWCs commencing construction, modification or reconstruction after September 20, 1994 will be subject to the NSPS Subpart Eb.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.
