The Defense Authorization Act for Fiscal Year 1995 authorizes the Secretary of the Navy to convey the property directly to the Community Development Agency of the Town of Riverhead, New York. The conveyance is subject to the condition that the town use the property for economic redevelopment to replace all or part of the economic activity being lost at the facility. Any part of the facility not conveyed to the Town would be disposed of by the General Services Administration (GSA) in accordance with the Federal Property and Administrative Services Act of 1944.

The Grumman Aerospace Corporation operated a Government Owned/ Contractor operated (GOCO) facility on approximately 2,900 acres of the 6,050-acre site until February 1996 when operations ceased. The objective of the EIS is to evaluate the environmental impacts associated with the various reuse alternatives. Environmental issues that will be addressed in the EIS include air quality, water quality, wetland impacts, endangered species impacts, cultural resource impacts, and socioeconomic impacts.

The proposed action to be analyzed in the EIS involves the disposal of land, buildings, and infrastructure for subsequent reuse by the Town of Riverhead. The 6,050-acre site has two aircraft landing runways (7,000 ft and 10,000 ft in length) and buildings with more than 1 million sq. ft of space.

The reuse of NWIRP Calverton has

recently been studied by the Town of Riverhead's Joint Planning and Redevelopment Commission and its consultants. The redevelopment/reuse plan, developed by the town's consultants and to be approved by the Riverhead Town Board, will be the basis for the EIS. The proposed reuse, known as the Calverton Business Park, comprises the following uses: theme attraction park(s), hotel/conference center, service retail, golf course, industrial center (2.5 million sq. ft), community park(s), open space, natural areas, aviation use/aircraft maintenance, event grounds, and a commercial/ recreation area including a stadium. Two additional alternatives will also be evaluated in the EIS. One reuse alternative will include the construction of a permanent automobile race course incorporating use of one existing runway. Industrial, recreational, and other land uses would be included in this alternative. A third alternative reuse plan will include only residential development on the site limited to residents of 50 years or older. The No Action alternative will also be addressed in the EIS. It is defined as

closing NWIRP, cessation of all GOCO activities, and retention of the land as U.S. Government property. The EIS to be prepared by the Navy will address the following known areas of concern: effects of developed at the facility on the natural and socioeconomic environment, effects of future growth on infrastructure and transportation systems, and the effects of reuse on the facility's historic properties. The EIS will also serve as technical support for the National Historic Preservation Act Section 106 consultation process.

The Navy will hold a scoping meeting to receive comment on significant issues that should be addressed in the EIS. The meeting will be held on Wednesday, April 10, 1996, beginning at 7:00 P.M. at the Ramada Inn located at 1830 Route 25 (at exit 72 of the Long Island Expressway) in Riverhead, NY 11901. Navy representatives will make a brief presentation, then members of the public will be provided an opportunity for comments. It is important that federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed in the EIS. In the interest of time, speakers will be asked to limit their comments to five minutes.

ADDRESSES: Agencies and the public are encouraged to provide written comments in addition to, or in lieu of, oral comments at the scoping meeting. To be most helpful, comments should clearly describe specific issues or topics which the EIS should address. Written comments must be postmarked by May 1, 1996, and should be mailed to: Commanding Officer, Northern Division, Naval Facilities Engineering Commend, 10 Industrial Highway, Lester, Pennsylvania 19113 (Attn: Mr. Robert Ostermueller, Code 202), telephone (610) 595–0759.

Dated: March 21, 1996.

M.D. Schetzsle,

LT, JAGC, USNR, Alternate Federal Register Liaison Officer.

DEPARTMENT OF ENERGY

Notice of Reestablishment of The Secretary of Energy Advisory Board

Pursuant to section 9(a)(2) of the Federal Advisory Committee Act and in accordance with title 41 of the Code of Federal Regulations, section 101–6.1015, and following consultation with the Committee Management Secretariat of the General Services Administration,

notice is hereby given that the Secretary of Energy Advisory Board (the Board) has been reestablished for an additional two years.

The Board will continue to provide advice to the Secretary of Energy on the management reforms, research, development, energy, and national security responsibilities, activities, and operations of the Department of Energy.

The Board members are selected to assure well-balanced, geographical representation and on the basis of their professional expertise and diverse experiences. Membership and representation of the Board will continue to be determined in accordance with the requirements of the Federal Advisory Committee Act, section 624(b) of the Department of Energy Organization Act (Pub. L. 95–91), and implementing regulations.

The reestablishment of the Board has been determined to be in the public interest, important and vital to the conduct of the Department's business in connection with the performance of duties established by statute for the Department of Energy. The Board will operate in accordance with the provisions of the Federal Advisory Committee Act (Pub. L. 92-463), the Department of Energy Organization Act (Pub. L. 95–91), the General Services Administration Final Rule on Federal Advisory Committee Management, and other directives and instructions issued in implementation of those acts.

Further information regarding this advisory committee can be obtained from Ms. Rachel M. Samuel at (202) 586–3279.

Issued in Washington, D.C. on March 20, 1996.

Rachel M. Samuel,

Deputy Advisory Committee, Management Officer.

Metal Casting Industrial Advisory Board, Meeting

AGENCY: Department of Energy. **ACTION:** Notice of public meeting.

SUMMARY: Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92–463, 86 Stat. 770) notice is hereby given of the Metal Casting Industrial Advisory Board meeting. **DATES:** Friday, April 19, 1996 8:00 am–5:30 pm.

ADDRESSES: Clarion Suites, 1010 Race Street, Philadelphia, PA 19107.
FOR FURTHER INFORMATION CONTACT:

Douglas E. Kaempf, Program Manager,

Department of Energy, Office of Industrial Technologies (EE–23), 1000 Independence Ave. S.W., Washington, D.C. 20585, (202) 586–5264, Fax: (202) 586–3180.

SUPPLEMENTARY INFORMATION:

Purpose of the Committee

The Metal Casting Industrial Advisory Board (MCIAB) serves to provide guidance and oversight of research programs provided under the Metal Casting Competitiveness Research Program and to recommend to the Secretary of Energy new or revised program activities and Metal Casting Research Priorities.

Tentative Agenda

8:00 Sign-In 8:15-9:00 Welcome & Instructions— Douglas Kaempf 9:00-10:00 Cast Metals Coalition Formulation and Structure—Dennis Allen 10:00-10:15 Break 10:15-12:00 New Role of the Metal Casting Industrial Advisory Board How the Board Wishes To Proceed—Douglas Kaempf 12:00–1:00 Lunch (On your own) 1:00-2:00 Changes in Board Membership—Douglas Kaempf 2:00-3:00 Election of New Chairman of the MCIAB-Co-Chairs 3:00-3:15 Break 3:15-5:00 FY 96 Projects Selected by the Cast Metals Coalition—Kaempf/ Allen 5:00-5:30 Public Comment and Meeting Adjourned

Public Participation

The meeting is open to the public. The Chairperson of the Board is empowered to conduct the meeting to facilitate the orderly conduct of business. Any member of the public who wishes to make oral statements pertaining to the agenda items should contact Douglas E. Kaempf at the address or telephone number listed above. Requests must be received at least 5 days prior to the meeting and reasonable provisions will be made to include the presentation on the agenda. Written statements may be filed with the Committee either before or after the meeting.

Transcript

Available for public review and copying at the Freedom of Information Public Reading Room, Room 1E–190, Forrestal Building, 1000 Independence Avenue, S.W., Washington, D.C. between 9:00 AM and 4:00 PM, Monday through Friday, except Federal holidays.

Issued at Washington, D.C. on March 19, 1996.

Rachel Murphy Samuel,

Acting Deputy Advisory Committee Management Officer.

Bonneville Power Administration

Notice of Intent To Prepare an Environmental Impact Statement and Notice of Floodplain and Wetlands Involvement for the Watershed Management Program

AGENCY: Bonneville Power Administration (BPA), Department of Energy (DOE).

ACTION: Notice of Intent to Prepare an Environmental Impact Statement (EIS), and Notice of Floodplain and Wetlands Involvement.

SUMMARY: This notice announces BPA's intention to prepare an EIS on proposed funding of the planning and implementation of watershed conservation and rehabilitation projects throughout the Columbia River Basin (Basin). This action proposes to mitigate the loss of anadromous and resident fish habitat caused by the construction and operation of Federal hydroelectric projects in the Basin. In accordance with the Pacific Northwest Electric Power Planning and Conservation Act (Northwest Power Act, 16 U.S.C. 839), specific fish mitigation activities that BPA would implement under the program are developed through Pacific Northwest Power Planning Council (Council) procedures and proposed in the Council's Fish and Wildlife Program. Although BPA decisions on these specific actions are often independent of one another, preparation of this EIS recognizes their similarity of impacts, methods of implementation, and subject matter. This action involves land resources planning that may affect floodplains and wetlands throughout the Basin, including various parts of Oregon, Idaho, Montana and Washington. A floodplain/wetland assessment will be included in the EIS being prepared for the proposed project in accordance with the National Environmental Policy Act (NEPA).

BPA invites public comment on the range of actions, alternatives, and impacts to be addressed in the Watershed Conservation Program EIS.

DATES: BPA has established a scoping period during which affected landowners, concerned citizens, special interest groups, local governments, and any other interested parties are invited

to comment on the scope of the proposed EIS. Scoping will help BPA ensure that a full range of issues related to this proposal is addressed in the EIS, and also will identify significant or potentially significant impacts that may result from the proposed project. Please send written comments to the address below by May 31, 1996.

When completed, the Draft EIS will be circulated for review and comment, and BPA will hold a public comment meeting for the Draft EIS. BPA will consider and respond to comments received on the Draft EIS in the Final EIS.

ADDRESSES: BPA invites comments and suggestions on the proposed scope of the Draft EIS. Send comment letters and requests to be placed on the project mailing list to the Public Involvement and Information Manager, Bonneville Power Administration—CKP, P.O. Box 12999, Portland, Oregon, 97212. The phone number of the Public Involvement and Information Office is 503–230–3478 in Portland; toll-free 1800–622–4519 outside of Portland. Comment at our internet address at: comment@bpa.gov.

FOR FURTHER INFORMATION, CONTACT: Eric N. Powers—ECN at (503) 230–5823 or Mark Shaw—EWP at (503) 230–5239, Bonneville Power Administration, P.O. Box 3621, Portland, Oregon, 97208–3621.

SUPPLEMENTARY INFORMATION:

Proposed Action

BPA proposes to establish standards and guidelines for funding the planning and implementation of watershed conservation and rehabilitation projects throughout the Basin. This action is proposed to mitigate the loss of anadromous and resident fish habitat based on four elements: (1) increase salmon survival in the rivers; (2) improve harvest management; (3) improving hatcheries and production practices; and (4) protect and improve habitat. A primary objective of this action is to implement principles that will be the most cost-effective and efficient means of obtaining fish mitigation goals. General issues the socioeconomic impacts, fish and wildlife management, vegetation management, threatened and endangered species management, cultural resources management, recreation management, and water quality management. Identification of additional issues may result from the public scoping process, and scoping may also eliminate some issues from indepth analysis. The proposed program standards and guidelines may establish
