FEDERAL EMERGENCY MANAGEMENT AGENCY

Agency Information Collection Activities: Proposed Collection; Comment Request

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed new, revised, or continuing information collections. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3506(c)(2)(A)), this notice seeks comments concerning the proposed extension to a currently approved information collection, which is assigned OMB Control Number 3067-0077. The current approval expires May 31, 1996.

Background

The National Flood Insurance Program regulations require the elevation or floodproofing of newly constructed structures in designated special flood hazard areas. As part of the agreement for making flood insurance available in a community, the NFIP requires the community to adopt a floodplain management ordinance containing certain minimum requirements intended to reduce future flood losses. One such requirement is that the community obtain the elevation of the lowest flood (including basement) of all new and substantially improved structures, and maintain a record of all such information. These data may be

generated and retained as part of the communities permit issuance and building inspection processes. The Elevation Certificate is one convenient way for a community to comply with this requirement. The Floodproofing Certificate may similarly be used to establish the required record in those instances when floodproofing for non-residential structures is a permitted practice.

Collection of Information

Title. Post Construction Elevation Certificate/Floodproofing Certificate.

Type of Review. Extension.

Form Numbers. FEMA Form 81-31, Elevation Certificate, FEMA Form 81-65, Floodproofing Certificate for Non-Residential Structures.

Abstract. The Elevation Certificate and Floodproofing Certificate are adjuncts to the application for flood insurance. The certificates are required for proper rating of post-Flood Insurance Rate Map (FIRM) structures, which are buildings constructed after publication of the FIRM, for flood insurance in Special Flood Hazard Areas. In addition, the Elevation Certificate is also needed for pre-FIRM structures being rated under post-FIRM flood insurance rules. The certificates provide community officials and others standardized documents to readily record needed information.

The certificates are supplied to insurance agents, community officials, surveyors, engineers, architects, and NFIP policyholders/applicants. The community officials or other professionals provide the elevation data required to document conformance with floodplain management regulations and for the applicants so that actuarial insurance rates can be charged. The elevation data is transmitted to the NFIP by the insurance applicant or agent with the appropriate NFIP policy forms.

The data is also used to assist FEMA in measuring the effectiveness of the NFIP regulations in eliminating or decreasing damage caused by flooding and the appropriateness of the NFIP premium charges for insuring property against the flood hazard.

Affected Public: Individuals and households, Businesses or other for-profit, Not-for-profit institutions, Farms, and State, local or tribal governments.

FEMA forms	No. of respondents	Hours per response	Annual burden hours
81-31	14,800	2.25	33,300
81-65	240	3.25	780

Based on comments from respondents, the burden estimates for

each of the FEMA forms have been reestimated.

Estimated Total Annual Burden Hours. 34,080.

Comments: Written comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. Comments should be received within 60 days of the date of this notice.

ADDRESSES: Direct all comments to Muriel B. Anderson, FEMA Information Collections Officer, Federal Emergency Management Agency, 500 C Street, SW, Room 311, Washington, DC 20472. Telephone number (202) 646-2625. FAX number (202) 646-3524.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection can be obtained by contacting the person listed in the **ADDRESSES** section of this notice.
