#### [Docket 79-95]

#### Foreign-Trade Zone 84, Houston, Texas, Proposed Foreign-Trade Subzone, Exxon Corporation (Oil Refinery Complex) Harris County, Texas

An application has been submitted to the Foreign-Trade Zones Board (the

Board) by the Port of Houston Authority, grantee of FTZ 84, requesting special-purpose subzone status for the oil refinery complex of Exxon Corporation, located in Harris County, Texas. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on December 12, 1995.

The refinery and petrochemical complex (3,500 acres) is located on the Houston Ship Channel at 2800 Decker Drive, Harris County (Baytown area), Texas, some 25 miles east of Houston. The refinery (400,000 barrels per day; 4,000 employees) is used to produce fuels and petrochemical feedstocks. Fuels produced include gasoline, jet fuel, distillates, residual fuels, and naphthas. Petrochemicals include resins, epichlorohydrin, methyl ethyl ketone, allyl chloride, secondary butyl alcohol, polypropylene, methane, ethane, propane, butane, butylene, ethylene, propylene and butadiene. Refinery by-products include sulfur and petroleum coke. Some 60 percent of the crude oil (85 percent of inputs), and some feedstocks and motor fuel blendstocks used in producing fuel products are sourced abroad.

Zone procedures would exempt the refinery from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on certain petrochemical feedstocks and refinery by-products (duty-free). The duty on crude oil ranges from 5.25¢ to 10.5¢/barrel. Foreign merchandise would also be exempt from state and local *ad valorem* taxes. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is March 19, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to April 3, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:
