Submission for OMB Review; Comment Request

Upon Written Request, Copies Available
From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549

Revision:

Regulation S-X—SEC File No. 270-
3—OMB Control No. 3235-0009
Regulation S-K—SEC File No. 270-
2—OMB Control No. 3235-0071

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget proposed amendments to Rule 4-08 of Regulation S-X (17 CFR 210.4-08) and proposed Item 305 of Regulation S-K (17 CFR 229.305) to clarify certain disclosure requirements related to derivative and other financial and commodity instruments, to include additional instruments within existing disclosure requirements, and to provide alternative quantitative disclosures regarding the market risk inherent in those instruments.

Amendments to Rule 4-08 of Regulation S-X would clarify the current requirements under generally accepted accounting principles

("GAAP") for registrants' disclosures of accounting policies related to derivative and other financial and commodity instruments, and include additional instruments within the existing accounting policy disclosures. This is considered necessary due to the general and uninformative disclosures currently being received by the Commission about such policies. Likely respondents are those registrants filing financial statements under the Securities Act of 1933, the Securities Exchange Act of 1934, the Public Utility Holding Company Act of 1935, and the Investment Company Act of 1940. Reporting should occur annually, with material modifications to the annual information disclosed in quarterly reports. It is estimated that the proposed amendments, if adopted, may result in an aggregate additional reporting burden of 11,000 hours.

Proposed Item 305 of Regulation S-K would require, to the extent material, quantitative and qualitative disclosures about market risks associated with derivative and other financial and commodity instruments. These disclosures are considered necessary to provide transparency into registrants' use of derivative and other financial and commodity instruments and the market risks inherent in those instruments, in order to reduce the number of instances where losses from such transactions "surprise" the securities markets. Likely respondents are those registrants filing documents under the Securities Act of 1933, the Securities Exchange Act of 1934, and the Public Utility Holding Company Act of 1935, for whom the proposed disclosures would be material to an understanding of their businesses taken as a whole. Reporting should occur annually, with material modifications to the annual information disclosed in quarterly reports. It is estimated that the proposed amendments, if adopted, may result in an aggregate additional reporting burden of 200,000 hours.

The estimated burden hours would remain unchanged for compliance with Regulation S-X [OMB Number 3235-0009] and Regulation S-K [OMB Number 3235-0071]. Instead, the estimated burden hours for Commission forms that require the filing of financial statements prepared in accordance with Regulation S-X and the information required by the standard disclosure items in Regulation S-K, would be amended to note any increase in such burdens. These forms would include Form 10-K [OMB Number 3235-0063] and Form S-1 [OMB Number 3235-0065].

General comments regarding the estimated burden hours should be directed to the Desk Officer for the Securities and Exchange Commission at the address below. Any comments concerning the accuracy of the estimated average burden hours for compliance with Commission rules and forms should be directed to Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549 and Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 3208, New Executive Office Building, Washington, D.C. 20503.

Dated: March 20, 1996.

Jonathan G. Katz,
Secretary.

[File No. 1-10668]

Issuer Delisting; Notice of Application to Withdraw From Listing and Registration; (Air-Cure Technologies, Inc., Common Stock, \$0.001, Par Value)

March 22, 1996.

Air-Cure Technologies, Inc. ("Company") has filed an application with the Securities and Exchange Commission ("Commission"), pursuant to Section 12(d) of the Securities Exchange Act of 1934 ("Act") and Rule 12d2-2(d) promulgated thereunder, to withdraw the above specified security ("Security") from listing and registration on the American Stock Exchange, Inc. ("Amex").

The reasons alleged in the application for withdrawing the Security from listing and registration include the following:

According to the Company, it has listed the Security with the New York Stock Exchange, Inc. ("NYSE"). In making the decision to withdraw the Security from listing on the Amex, the Company considered the direct and indirect costs and expenses attendant on maintaining the dual listing of the Security on the Nasdaq National Market System and on the Amex. The Company does not see any particular advantage in the dual trading of the Security and believes that dual listing would fragment the market for its Security.

Any interested person may, on or before April 12, 1996, submit by letter to the Secretary of the Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549, facts

bearing upon whether the application has been made in accordance with the rules of the exchanges and what terms, if any, should be imposed by the Commission for the protection of investors. The Commission, based on the information submitted to it, will issue an order granting the application after the date mentioned above, unless the Commission determines to order a hearing on the matter.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.

Jonathan G. Katz,

Secretary.
