AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is approving revisions to the Kentucky State Implementation Plan (SIP) submitted on June 15, 1983, by the Commonwealth of Kentucky through the Natural Resources and Environmental Protection Cabinet (Cabinet). The revisions pertain to Kentucky regulations 401 KAR 50:025, Classification of counties, and 401 KAR 61:015, Existing indirect heat exchangers. The purpose of these revisions is to reclassify McCracken County from a Class I area to a Class IA area, with respect to sulfur dioxide, and to allow a relaxation of the sulfur dioxide emission limit in McCracken County.

In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA

will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

DATES: To be considered, comments must be received by May 2, 1996.

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes: State of Michigan

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve Michigan's request to redesignate the Grand Rapids (Kent and Ottawa Counties) moderate ozone nonattainment area to attainment for ozone. In addition, the EPA proposes to approve the associated section 175A maintenance plan as part of the Michigan State Implementation Plan (SIP) for attainment and maintenance of

the National Ambient Air Quality Standard (NAAQS) for ozone.

DATES: Comments on this proposed action must be received in writing by May 2, 1996.

ADDRESSES: Written comments should be sent to Carlton T. Nash, Chief, Regulation Development Section, Air Programs Branch (AR-18J), United States Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604. Copies of this SIP revision and EPA's analysis are available for inspection at the above address.

FOR FURTHER INFORMATION CONTACT: Jacqueline Nwia, Environmental Engineer, Regulation Development Section, Air Programs Branch (AR-18J), United States Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886-6081. Anyone wishing to come to Region 5 offices should contact Jacqueline Nwia first.

SUPPLEMENTARY INFORMATION: Under the Clean Air Act, as amended in 1990 (Act), nonattainment areas can be redesignated to attainment if sufficient data are available to warrant such changes and the area satisfies other criteria contained in section 107(d)(3) of the Act. On March 9, 1995, Michigan submitted a redesignation request and section 175A maintenance plan for the Grand Rapids and Muskegon moderate ozone nonattainment areas. On May 1, 1995, Michigan submitted a supplement to the March 9, 1995, request which included documentation of public comment and hearing which was held on April 10, 1995. Further, on January 24, 1996, the State submitted a letter advising EPA of its intent to revise the section 175A maintenance plan for Grand Rapids to add control measures to the list of contingency measures in the contingency plan. Specifically, the State will include as contingency measures reasonably available control technology (RACT) for volatile organic compounds (VOC) sources in the wood furniture coating, plastic parts coating, and industrial clean-up solvents source categories. In the event one or more of these measures is selected to be implemented as contingency measures, the State will adopt rules and submit them as a revision to the SIP. The State must submit this maintenance plan SIP revision before the EPA could take final action to approve its redesignation request. If approved, the section 175A maintenance plan would become a federally enforceable part of the SIP for this area. On March 15, 1996, the State submitted a supplement to the redesignation request qualifying that the
