SUPPLEMENTARY INFORMATION:

PP 9F3714. EPA has received a request to amend pesticide petition (PP)

9F3714 to extend the interim tolerances under the regulation 40 CFR 180.430(b) from April 12, 1996 to November 1, 1997. The request was made by AgrEvo USA Company, Little Falls Centre One, 2711 Centerville Road, Wilmington, DE 19808. The extension of the interim (time-limited) tolerances is based on the need to coordinate these tolerances with an extension of time granted by EPA for submitting a required repeat mouse oncogenicity study, the data gap that triggered the tolerance to being time-limited. The new date granted for submitting the repeat mouse oncogenicity study is November 1, 1996. In order to allow the shipping of fenoxypop-ethyl pesticide products for the use-site involving raw agricultural commodities used for domestic animal food, these time-limited tolerances are needed for conditional registration under the Federal Insecticide, Fungicide and Rodenticide Act as amended.

A record has been established for this notice of filing under docket number [PF-647] (including comments and data submitted electronically as described below). Withdrawal of Feed Additive Petition for Dacthal W75

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA is withdrawing a feed additive petition from ISK Biotech Corp., 5966 Heisley Rd., P.O. Box 8000, Mentor, OH 44061-8000 for residues of (Dacthal W75) in or on bean cannery waste, tomato pomace and potato peels.

FOR FURTHER INFORMATION CONTACT: By mail: Joanne Miller, Product Manager (23) Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St. SW., Washington, DC 20460. Office location and telephone number: Rm. 237, CM #2, 1921 Jefferson Davis Highway, Arlington, VA 22202, 703-305-6224.

SUPPLEMENTARY INFORMATION:

Withdrawn Petition

FAP 4H5688. Notice of the petition requested by ISK Biotech Corp., 5966 Heisley Rd., P.O. Box 8000, Mentor, OH 44061-8000 was filed by EPA November 2, 1994 (59 FR 54907). The Notice stated that ISK Biotech Corp. had proposed to amend 40 CFR part 186 by establishing a feed additive regulation to permit the residues of DCPA (Dacthal W75) in or on bean cannery waste, tomato pomace and potato peels. The Agency's Subdivision O Guidelines were revised June, 1994. Bean cannery waste was removed from Table II of that guideline, therefore a feed additive tolerance is no longer required. Tomato pomace is no longer considered to be a significant animal feed, therefore a feed additive tolerance is no longer required. The need for feed additive tolerances on processed potato waste is based on the maximum concentration factor observed for residues in or on wet peel. Concentration was only observed in the dry peel fraction, therefore a feed additive tolerance for dried potato waste is not required. The Agency has withdrawn the subject FAP.
