

governments to perform certain actions and also require the private sector to perform certain duties. To the extent that the rules being approved today will impose any mandate upon the State, local, or tribal governments either as the owner or operator of a source or as a regulator, or would impose any mandate upon the private sector, EPA's action will impose no new requirements; such sources are already subject to these requirements under State law. Similarly, EPA's withdrawal of the FIP contingency process will not impose any new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action. EPA has also determined that this action does not include a mandate that may result in estimated costs of \$100 million or more to State, local, or tribal governments in the aggregate or to the private sector.

#### Approval of Volatile Organic Compound Regulations for Oklahoma

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the State of Oklahoma for the purpose of removing equivalent test method and alternative standard language from the Oklahoma volatile organic compound regulations. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If the EPA receives adverse comments, the direct final rule will be withdrawn, and all public comments received will be

addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

If USEPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. BILLING CODE 6560-50-P

**40 CFR Part 52****[AZ 063-0001b; FRL-5452-3]****Clean Air Act Approval and Promulgation of Prevention of Significant Deterioration (PSD) and General Permitting Provisions Implementation Plan for Arizona State Pinal County Air Quality Control District****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing approval of portions of a requested State Implementation Plan (SIP) revision submitted by the State of Arizona for the purpose of meeting requirements of the Clean Air Act, as amended in 1990 (CAA or Act) with regard to general permitting programs and prevention of significant deterioration (PSD) in areas of Pinal County that are in attainment of the national ambient air quality standards (NAAQS). The requested revision was submitted by the State to satisfy certain Federal requirements for an approvable SIP.

EPA is taking this action to approve the portions of Pinal's rules identified below into the SIP for the purpose of meeting the PSD and preconstruction permitting requirements of 40 CFR 51.160 through 51.164 and 51.166, under the authority granted by 40 CFR 51.105. Approval of Pinal's rules for the purposes of meeting the nonattainment preconstruction permitting requirements of 40 CFR 51.165 will take place under a separate action. This action does *not* in any way imply that Pinal's nonattainment permitting provisions meet the requirements of sections 171, 172, 173, 181, 182, 187, or 189 of the CAA. Failure on Pinal's part to submit rules which meet the requirements of 40 CFR 51.165 may trigger sanctions as provided for under section 179 of the Clean Air Act.

In the final rules section of this Federal Register, EPA is promulgating approval of Pinal's PSD and general permitting rules as a direct final rule without prior proposal because EPA views this submittal as noncontroversial and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rulemaking. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA

will not institute a second comment period on this document. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments on this proposed rule must be received in writing by May 9, 1996.

**ADDRESSES:** Written comments on this action should be addressed to: Jessica Gaylord, New Source Section (A-5-1), Air and Toxics Division, U.S. Environmental Protection Agency, Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

Copies of the County's submittal, EPA's Technical Support Document, and other supporting information used in developing the proposed approval are available for public inspection at EPA's Region IX office during normal business hours.

**FOR FURTHER INFORMATION CONTACT:** Jessica Gaylord (telephone: 415-744-1290), or Steve Ringer (telephone: 415-744-1260), New Source Section, Air & Toxics Division (A-5-1), EPA Region 9, 75 Hawthorne Street, San Francisco, CA 94105.
