SUPPLEMENTARY INFORMATION:**I. Introduction**

The Pesticide Data Submitters List is a compilation of names and addresses of registrants who wish to be notified and offered compensation for use of their data. It was developed to assist pesticide applicants in fulfilling their obligation as required by sections 3(c)(1)(f) and 3(c)(2)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and 40 CFR part 152 subpart E regarding ownership of data used to support registration. This notice announces the availability of an updated version of the Pesticide Data Submitters List which supersedes and replaces all previous versions.

II. Ordering Information

Microfiche copies of the document are available from the National Technical Information Service (NTIS) ATTN: Order Desk 5285 Port Royal Road Springfield, VA 22161. Telephone: (703) 487-4650. When requesting a document from NTIS, please provide its name and NTIS Publication Number (PB). The NTIS Publication for this version of the Pesticide Data Submitters List is PB96-153200.

III. Electronic Access

The Pesticide Data Submitters List is available on EPA's gopher server and two other pathways on the Internet. The Internet address of EPA's gopher server is gopher://gopher.epa.gov. This information also is available using file transfer protocol (ftp) on ftp.epa.gov or using the world wide web (www) Internet address on http://www.epa.gov.

The Pesticide Data Submitters List is also available on the Pesticides Special Review and Reregistration Information System Bulletin Board System. This Bulletin Board System (BBS) is a computer set up to accept calls from over a telephone line and allow callers to use the computer. Anyone with a computer or terminal connected to a phone line or networked to one can dial into the BBS and perform the functions it is set up to allow.

The telephone number of this bulletin board is (703) 308-7224. To connect to this or any other BBS, several parameters in your communication software must be set appropriately. The settings for this BBS are the standard settings for most: 8 data bits, no parity, and 1 stop bit (abbreviated as 8N1). Communication speeds from 2400 bps to 28.8K bps are available, accommodating almost all speeds available in modems on the market today. The system displays color ANSI graphics as well as ASCII text.

IV. From the Internet

The Pesticide Special Review and Reregistration Information System can be accessed via GSA's Fedworld system.

Telnet or ftp to fedworld.gov and follow the onscreen instructions to get to the gateway.

V. From a LAN

Many Local Area Networks (LANs) are connected to the telephone network. While it is not possible to address the multitude of possible configurations here, your network administrator will be able to tell you if you are able to dial out to other systems from your LAN and what specific software you have available to do this.

SUPPLEMENTARY INFORMATION: The Agency has issued Reregistration Eligibility Decision (RED) documents for the pesticidal active ingredients listed above. Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of each of the chemicals listed above is substantially complete. All registrants of products containing one or more of the above listed active ingredients have been sent the appropriate RED documents and must respond to labeling requirements and product specific data requirements (if applicable) within 8 months of receipt. Products containing other active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing these REDs as final documents with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to

the RED. All comments will be carefully considered by the Agency. If any comment significantly affects a RED, EPA will amend the RED by publishing the amendment in the Federal Register.

To request a copy of any of the above listed RED documents, or a RED Fact Sheet, contact the OPP Pesticide Docket, Public Response and Program Resources Branch, in Rm. 1132 at the address given above or call (703) 305-5805.

Electronic copies of the REDs and RED fact sheets can be downloaded from the Pesticide Special Review and Reregistration Information System at 703-308-7224, and also can be reached on the Internet via fedworld.gov and EPA's gopher server, gopher.epa.gov.

Electronic comments can be sent directly to EPA at: opp-docket@epamail.epa.gov

Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record of this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in

"ADDRESSES" at the beginning of this document.
