SUPPLEMENTARY INFORMATION: EPA received applications as follows to register pesticide products containing active ingredients not included in any previously registered products pursuant to the provisions of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

Products Containing Active Ingredients Not Included In Any Previously Registered Products

1. File Symbol: 65331-E. Applicant: Rhone Merieux, Incorporation, 115 Transtech Drive, Athen, GA 30601. Product name: Frontline Top Spot. Insecticide. Active ingredient: Fipronil at 9.7 percent. Proposed classification/Use: None. Used as spot treatment for flea and tick control on dogs and cats. (PM 10)

2. File Symbol: 64240-GN. Applicant: Clorox Company P.O. Box 493, Pleasant, CA 94566-0803. Product name: Combat Ant Bait F1. Insecticide. Active ingredient: Fipronil [5-amino-1-(2,6-dichloro-4-(trifluoromethyl)phenyl)-4-(1*R,S*)-trifluoromethyl)sulfinyl]-1*H*-pyrazole-3-carbonitrile] at 0.01 percent. Proposed classification/Use: None. For indoor/outdoor use to kill ants most commonly found in households. (PM 10)

3. File Symbol: 64248-RN. Applicant: Clorox Co. Product name: Maxforce Ant Bait F1. Insecticide. Active ingredient: Fipronil [5-amino-1-(2,6-dichloro-4-(trifluoromethyl)phenyl)-4-(1*R,S*)-trifluoromethyl)sulfinyl]-1*H*-pyrazole-3-carbonitrile] at 0.01 percent. Proposed classification/Use: None. For indoor/outdoor use to control ants most commonly found in institutions. (PM 10)

4. File Symbol: 64240-GR. Applicant: Clorox Co. Product name: Combat Roach Bait F1. Insecticide. Active ingredient: Fipronil at 0.1 percent. Proposed classification/Use: None. For use to control roaches, waterbugs, and palmetto bugs in households. (PM 10)

5. File Symbol: 64248-I. Applicant: Clorox Co. Product name: Maxforce Roach Bait F1. Insecticide. Active ingredient: Fipronil 0.1 percent. Proposed classification/Use: None. For use to control large and small cockroaches in institutions. (PM 10)

6. File Symbol: 264-LAA. Applicant: Rhone-Poulenc Ag Company, P.O. Box 12014, 2 T.W. Alexander Drive, Research Triangle Park, NC 27709. Product name: Technical Isoxaflutole. Herbicide. Active ingredient: Isoxaflutole [5-cyclopropyl-4-(2-methylsulfonyl-4-trifluoromethylbenzoyl) isoxazole at 98 percent. Proposed classification/Use: None. For manufacturing use only. (PM 23)

7. File Symbol: 264-LAT. Applicant: Rhone-Poulenc Co. Product name: Balance WDG Herbicide. Herbicide. Active ingredient: Isoxaflutole [5-cyclopropyl-4-(2-methylsulfonyl-4-trifluoromethylbenzoyl) isoxazole at 76.5 percent. Proposed classification/Use: None. For weed control in field corn. (PM 23)

Notice of approval or denial of an application to register a pesticide product will be announced in the Federal Register. The procedure for requesting data will be given in the Federal Register if an application is approved.

Comments received within the specified time period will be considered before a final decision is made; comments received after the time specified will be considered only to the extent possible without delaying processing of the application.

A record has been established for this notice under docket number [OPP-30408] (including comments and data submitted electronically as described below). A public version of this record, including printed, paper versions of electronic comments, which does not include any information claimed as CBI, is available for inspection from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The public record is located in Rm. 1132 of the Public Response and Program Resources Branch, Field Operations Division (7506C), Office of Pesticide Programs, Environmental Protection Agency, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA.

Electronic comments can be sent directly to EPA at: opp-docket@epamail.epa.gov
Electronic comments must be submitted as an ASCII file avoiding the

use of special characters and any form of encryption.

The official record for this notice, as well as the public version, as described above will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into printed, paper form as they are received and will place the paper copies in the official record which will also include all comments submitted directly in writing. The official record is the paper record maintained at the address in "ADDRESSES" at the beginning of this document.

Written comments filed pursuant to this notice, will be available in the Public Response and Program Resources Branch, Field Operations Division at the address provided from 8 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. It is suggested that persons interested in reviewing the application file, telephone this office at (703-305-5805), to ensure that the file is available on the date of intended visit.

Authority: 7 U.S.C. 136.

Waste Isolation Pilot Plant Compliance Application Guidance (CAG) Document

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability.

SUMMARY: Pursuant to the Waste Isolation Pilot Plant Land Withdrawal Act, Pub. L. No. 102-579, EPA issued final criteria for certifying whether the Department of Energy's (DOE) Waste Isolation Pilot Plant (WIPP) complies with EPA's radioactive waste disposal standards set forth at 40 CFR part 191 ("Environmental Radiation Protection Standards for Management and Disposal

of Spent Nuclear Fuel, High-Level and Transuranic Radioactive Wastes") published on February 9, 1996. The EPA has developed a WIPP compliance application guidance document that is intended to be a companion to and based upon the WIPP compliance criteria. The EPA hereby announces that the WIPP compliance application guidance document is available to the public. The guidance document summarizes and, in some instances, provides non-binding interpretations of the final WIPP compliance criteria. In developing the guidance document, the EPA considered public comments on the draft compliance application guidance document that was announced on October 18, 1995.

ADDRESSES: Copies of the compliance application guidance document are available to the public at EPA Docket No. A-93-02 (Category II-B) maintained at the following addresses: (1) room 1500 (first floor in the Waterside Mall near the Washington Information Center), U.S. Environmental Protection Agency, Air Docket, 401 M Street, S.W., Washington, D.C. 20460 (open from 8:00 a.m. to 4:00 p.m. on weekdays); (2) EPA's docket in the Government Publications Department of the Zimmerman Library of the University of New Mexico located in Albuquerque, New Mexico (open from 8:00 a.m. to 9:00 p.m. on Monday through Thursday, 8:00 a.m. to 5:00 p.m. on Friday, 9:00 a.m. to 5:00 p.m. on Saturday, and 1:00 p.m. to 9:00 p.m. on Sunday); (3) EPA's docket in the Fogelson Library of the College of Santa Fe, located at 1600 St. Michaels Drive, Santa Fe, New Mexico (open from 8:00 a.m. to 12:00 midnight on Monday through Thursday, 8:00 a.m. to 5:00 p.m. on Friday, 9:00 a.m. to 5:00 p.m. on Saturday and 1:00 p.m. to 9:00 p.m. on Sunday); and (4) EPA's docket in the Municipal Library of Carlsbad, New Mexico, located at 101 South Halegueno (open from 10:00 a.m. to 9:00 p.m. on Monday through Thursday, 10:00 a.m. to 6:00 p.m. on Friday and Saturday, and 1:00 p.m. to 5:00 p.m. on Sunday). As provided in 40 CFR Part 2, a reasonable fee may be charged for photocopying docket materials.

FOR FURTHER INFORMATION CONTACT: Agnes Ortiz, U.S. Environmental Protection Agency, Office of Radiation and Indoor Air (6602J), 401 M Street, S.W., Washington, D.C. 20460; (202)233-9310.

SUPPLEMENTARY INFORMATION: The Department of Energy is proposing to use the Waste Isolation Pilot Plant (WIPP), located in Eddy County, New Mexico, as a deep geologic repository for the disposal of transuranic

radioactive waste generated by nuclear defense activities. The 1992 Waste Isolation Pilot Plant Land Withdrawal Act (Pub. L. No. 102-579) calls for EPA to perform several regulatory activities for the WIPP, including: (1) issuing radioactive waste disposal standards; (2) establishing criteria for EPA to determine whether the WIPP complies with the radioactive waste disposal standards; and (3) certifying whether DOE's WIPP facility complies with the disposal standards, based on a DOE submitted compliance certification application. See section 8 of the WIPP Land Withdrawal Act. The WIPP Land Withdrawal Act prohibits DOE from commencing the emplacement of transuranic waste for underground disposal at the WIPP until EPA certifies that the facility will comply with EPA's radioactive waste disposal standards. See section 7(b) of the WIPP Land Withdrawal Act.

EPA issued final radioactive waste disposal standards, which are codified at 40 CFR part 191. See 58 FR 66398 (Dec. 20, 1993). EPA also issued final criteria, to be codified at 40 CFR part 194, for certifying whether the WIPP facility will comply with EPA's radioactive waste disposal standards. See 61 FR 5224 (Feb. 9, 1996) "Criteria for the Certification and Recertification of the Waste Isolation Pilot Plant's Compliance with the 40 CFR Part 191 Disposal Regulations". The public is referred to the Federal Register notices of December 20, 1993, and February 9, 1996, for more detailed information about the EPA's regulatory activities at the WIPP.

The compliance application guidance (CAG), the subject of this notice, is a guidance document for the final compliance criteria 40 CFR part 194. The final compliance criteria provide that EPA's evaluation for certifying, by rule, whether WIPP is in compliance with the radioactive waste disposal standards will be initiated after EPA determines that DOE has submitted a complete compliance certification application. See, e.g., 61 FR 5238. The CAG summarizes and interprets the final criteria related to the contents of the compliance certification application and is intended to guide EPA's assessment of whether the DOE compliance application is complete. Because it is a non-binding, interpretive document, the CAG is not subject to the notice-and-comment rulemaking requirements of the Administrative Procedure Act, 5 U.S.C. 553.

As noted, the CAG will guide EPA's assessment of whether DOE's compliance certification application is complete. If the compliance certification

application is found to be complete, EPA will subsequently determine, by rule, whether the WIPP facility is in compliance with the EPA's radioactive waste disposal standards. See section 8 (d) of the WIPP Land Withdrawal Act. EPA's certification decision will be made only after EPA reviews DOE's compliance certification application based on the final compliance criteria, and conducts a WIPP certification proceeding in accordance with the Administrative Procedure Act rulemaking requirements at 5 U.S.C. 553. Thus, before the Administrator of EPA makes any final WIPP certification decision, EPA will issue a proposed decision in the Federal Register and provide an opportunity for public comment on the proposal. The subsequent final certification decision by the Administrator will consider the comments received in response to the proposal and be accompanied with a reply to significant public comments.

Dated: April 23, 1996.

Richard Wilson,

Acting Assistant Administrator, Office of Air and Radiation.

National Pollutant Discharge Elimination System (NPDES); Preparation of Final General Permit for the States of Maine, Massachusetts, and New Hampshire

AGENCY: Environmental Protection Agency.

ACTION: Notice; Preparation of Final NPDES General Permits—MAG070000, MEG070000, and NHG070000.

SUMMARY: The Regional Administrator of the six states of New England is issuing Notice of a Final National Pollutant Discharge Elimination System (NPDES) General Permit for construction dewatering facilities in certain waters of the States of Maine, Massachusetts, and New Hampshire. This General Final NPDES Permit establishes notice of intent (NOI) requirements, effluent limitations, standards, prohibitions and management practices for the construction dewatering discharges.

Owners and/or operators of facilities discharging effluent from construction dewatering facilities will be required to submit to EPA, Region I, a notice of intent (NOI) to be covered by the appropriate general permit and will receive a written notification from EPA
