Approval and Promulgation of Implementation Plans; Ohio

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The EPA proposes to approve the Particulate Matter contingency measures State Implementation Plan (SIP) revisions submitted by the State of Ohio on July 17, 1995. This submittal addresses the Federal Clean Air Act requirement to submit contingency measures for particulate matter with an aerodynamic diameter less than or equal to a nominal 10 micrometers (PM) for the areas designated as nonattainment for the PM National Ambient Air Quality Standards (NAAQS). Contingency measures are emission reductions which are to be implemented, with no further action, in the event that an area fails to meet air quality standards. In the final rules section of this Federal Register, the EPA is approving this action as a direct final rule without prior proposal because EPA views this as a noncontroversial action and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated

in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on the proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this document should do so at this time.

Approval and Promulgation of Air Quality Implementation Plans; Utah; Emission Statement Regulation, Ozone Nonattainment Area Designation, Definitions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing approval of the revision to the Utah State Implementation Plan (SIP) that was submitted by the Governor of Utah on November 12, 1993, for the purpose of implementing an emission statement program for stationary sources within the Salt Lake and Davis Counties (SLDC) ozone nonattainment area. The emission statement inventory regulation, Utah Air

Conservation Regulation (UACR) R307-1-3.5.4., was submitted by the State to satisfy the Clean Air Act (CAA), as amended in 1990, requirements for an emission statement program to be part of the SIP for Utah. EPA's approval will serve to make the emission statement inventory regulation federally enforceable. In addition, EPA is proposing to approve other minor changes involving definitions in UACR R307-1-1. and the ozone nonattainment area designation definition in UACR R307-1-3.3.3.

In the Rules Section of this Federal Register, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.
