## Employment and Training Administration

### Proposed Information Collection Request Submitted for Public Comment and Recommendations; Extension of the Unemployment Insurance (UI) Revenue Quality Control Program (RQC); Notice

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed revision and extension of the UI RQC Program. A copy of the proposed information collection request can be obtained by contacting the employee listed below in the contact section of this notice.

**DATES:** Written comments must be submitted on or before July 8, 1996.

Written comments should:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

—Minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

### SUPPLEMENTARY INFORMATION:

#### I. Background

Since 1987, all State Employment Security Agencies (SESAs) except the Virgin Islands have been required by regulation at 20 CFR 602 to operate a Quality Control program to assess their Unemployment Insurance tax and benefit programs. Revenue Quality Control (RQC) developed new measures for tax performance to replace those previously gathered under the Quality Appraisal (QA) system. RQC is designed to assess the major internal UI tax functions by utilizing three methodologies: (1) Computed Measures are indicators of timeliness and completeness based on data automatically generated via the existing ET 581 automated report. (2) Program Reviews assess accuracy through a two-fold examination: (a) "Systems Reviews" examine tax systems for the existence of internal controls; (b) small "Acceptance Samples" of those systems' transactions are then examined to verify the effectiveness of those controls. (3) Through the use of non-evaluative surveys, RQC documents the methods and procedures the SESA uses to manage its tax operation. Best practices are identified and this information is shared with other SESAs.

The last tax function to be covered by RQC, Cashiering, has recently been developed and transmitted to all States. As with the other sections of RQC, the Cashiering section will include a Systems Review. Since the quality of payment applications will be evident through the Acceptance Samples of other sections of RQC, there will be no Acceptance Sample specific to Cashiering. Instead, a measure is in place to identify timeliness of deposit of employer payments into the clearing account. Deposit activities dictate that the measurement be conducted manually; therefore, an Estimation Sample (ES) review, similar in form to
