opportunity to identify their: (1) expectations on relicensing, (2) environmental and development issues, (3) reasonable alternatives to NYPA's relicensing proposal, and (4) a list of necessary studies. Most of the work regarding necessary studies will be done

through resource subcommittees of the CCP Team beginning in September 1996. At this time, there are four resource subcommittees: Ecological Resources, Land & Recreation, Socio-Economics, and Engineering & Operations.

The following is a list of the presently scheduled major meetings/workshops of the Scoping Process along with *tentative* dates of the CCP Team's activities. All meetings are in Massena, NY, unless noted. Major meetings are in bold face.

May 16, 1996.

May 21-22, 1996.

1. CCP Team members develop and send to NYPA initial Expectations for the Project Relicensing as well as known May 16, 1996. and potential resource management goals including relative significance of resources, if possible.

2. CCP Team members develop individual lists describing potential resource issues and send to NYPA

4. NYPA compiles a combined preliminary list of resource issues from all team members and distributes to CCP Team.

5. CCP Team meets to discuss Initial Expectations for the Project Relicensing and the preliminary combined list June 5–6, 1996. describing resource issues. The CCP Team jointly edits the list to eliminate duplication, misunderstandings, etc. Initiate discussion on level of information needs, if possible.

6. NYPA distributes revised combined list of issues to the CCP Team. For each resource issue, NYPA prepares draft of information needed to determine the magnitude of the issue and the potential effects of the project on the resource. NYPA distributes this draft to the CCP Team.

7. CCP Team Meeting to edit information needed and potential effects of project operation. The CCP Team will initiate discussions regarding general level of effort for resource analysis. The combined list describing resource issues will be edited as appropriate.

8. NYPA will distribute the initial complete draft of Issue Identification Section of SDI to the CCP Team based on July 31, 1996. input received from July 15–16, 1996 meeting. This distribution will include minority reports and a concise statement of issues in dispute as appropriate.

9. The CCP Team will meet to finalize the Draft Issue Identification Section of SDI (including minority reports and statements of disputes), and to make initial assignment of issues to subcommittees. CCP Team members volunteer for subcommittees.

10. The CCP Team will submit statements of disputes to FERC/NYS DEC, if necessary

11. The CCP Team presents FERC/DEC with the Draft SD I

12. Subcommittees have initial meetings

13. FERC/DEC issue SDI and resolution of disputes, as appropriate

14. August 21, 1996.

15. August 30, 1996.

16. Sept. 10–11, 1996.

17. Sept. 30, 1996.

Linwood A. Watson, Jr., *Acting Secretary.*

BILLING CODE 0717-01-W

ENVIRONMENTAL PROTECTION AGENCY

[FRL-5501-8]

Agency Information Collection Activities: Proposed Collection; Comment Request; Information Collection Request for the National Pollutant Discharge Elimination System (NPDES)/Compliance Assessment Information

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Correction.

SUMMARY: This notice contains corrections to the title of the Information Collection Request (ICR) and to figures contained in the burden statement of the the ICR published on April 9, 1996. The title of the ICR should be corrected to read "Information Collection Request for the National Pollutant Discharge Elimination System (NPDES/Compliance Assessment/Certification Information." This is due to the integration of the 1993 ICR entitled "Information Collection Request For the

National Pollutant Discharge Elimination System (NPDES)/ Compliance Assessment Information'' (OMB Control No. 2040–0110) and the 1993 ICR entitled ''Information Collection Request for Exemption from Monitoring and Notification of Process Changes in Effluent Guidelines (OMB Control No. 2040–0033). The OMB Control No. for the integrated renewal is OMB Control No. 2040–0110.

The first paragraph in the Burden Statement on page 15802 should be corrected to read: "The information collection for compliance assessment and certification activities will involve an estimated 23,673 respondents and 205,896 record keepers. The annual costs to respondents and record keepers is estimated to be \$22,607,191. The total annual cost to respondents, recordkeepers, and government (excluding Federal government) is estimated to be \$23,363,792. There will be approximately 27,398 annual responses submitted by the 23,673 respondents resulting in 1.16 responses per respondent. The time required for a response ranges from 15 minutes to 41 hours, with an average response time of 2.40 hours per response. The average annual record keeping burden per recordkeeper is estimated to be 3.17 hours. The compliance assessment and certification activities will entail an annual burden of 652,873 hours for

record keeping and 65,712 hours for reporting for a total of 718,585 burden hours. These activities will also entail 26,280 burden hours for State governments as users of data." For the convenience of the reader, it should be noted that the date for submission of comments remains the same.

Endocrine Disruption by Chemicals: Next Steps in Chemical Screening and Testing; Open Meeting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of open meeting.

SUMMARY: Recent research indicates that environmental endocrine disruptors need more attention by chemical and pesticide regulators. The EPA will hold a meeting on May 15 and May 16, 1996 in the Washington, DC metropolitan area to discuss how EPA can work cooperatively with industry, the environmental community, academia and others to develop a screening and

testing strategy to identify chemicals that may pose significant risks through endocrine disruption. This notice announces the location and times for the meeting and sets forth tentative agenda topics. EPA has invited 20 representatives of industry, the environmental community, academia, and government to this meeting. The meeting is open to the public, but space for observers is limited. The meeting is structured to allow the invited participants to discuss items on a predetermined agenda. However, at the end of the first day, there will be thirty minutes of open discussion.

DATES: The meeting will be held from 2 p.m. to 6 p.m. on May 15, 1996, and 8:30 a.m. to 12:00 p.m. on May 16, 1996. ADDRESSES: The meeting will be held at the Sheraton Crystal City Hotel, 1800 Jefferson Davis Highway, Arlington, Virginia 22202. A meeting room will be announced in the hotel.

FOR FURTHER INFORMATION CONTACT:

Observers can register by calling Donald Walker, TASCON Corporation, at (301) 907-3844, ext. 251. To obtain general information about the meeting, contact Sheryl K. Reilly, Office of Pesticide Programs, Environmental Protection Agency, by phone (703) 308-4774. Persons who cannot attend the meeting, but wish to comment, should send comments to Sheryl K. Reilly, Office of Pesticide Programs (7501C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office Location: Rm. 1119, Crystal Mall #2, 1921 Jefferson Davis Highway, Arlington, VA; e-mail: reilly.sheryl@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: As an indication of the public's concern about endocrine disruptors, the Senate recently passed a bill by a vote of 99 to 1 that would amend the Safe Drinking Water Act to require EPA to initiate a screening and testing program for environmental estrogens within two years of its effective date, with discretionary authority to expand this effort to other kinds of endocrine disruptors. Although EPA has recently proposed new test guidelines for reproductive and developmental toxicity, subjecting all 600 pesticides and 80,000 existing chemicals would be an enormous challenge. How to develop a screening and testing program for environmental estrogens and other hormone-like substances is the focus of

this meeting. EPA expects that approximately twenty invited representatives from various organizations will participate in the two-day program. Ongoing activities to address endocrine disruption at the EPA will be reviewed, and key issues, identified by the invited participants, will be discussed. EPA's objective in convening this meeting is to obtain the input of key stakeholders on the prospect of forming a multi-stakeholder scientific/technical taskforce to develop a chemical screening and testing strategy.

The tentative agenda of the meeting includes the following:

- 1. Overview of EPA's Office of Research and Development (ORD) activities related to endocrine disruptors and discussion of the draft ORD research strategy.
- 2. Identification and discussion of key issues.
- a. How should we begin the development of a screening and testing strategy?
- b. What would be the objectives of the screening and testing strategy?
- c. Should we focus initially on the reproductive hormone system?
- d. What role should structure-activity/SAR-like screens play?
- 3. Discussion of the taskforce concept.

List of Subjects

Environmental protection.

Certain Companies; Applications to Register Pesticide Products

AGENCY: Environmental Protection Agency (EPA). **ACTION:** Notice.

SUMMARY: This notice announces receipt of applications to register pesticide products containing active ingredients not included in any previously registered products pursuant to the provisions of section 3(c)(4) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended.

DATES: Written comments must be submitted by June 7, 1996.

ADDRESSES: By mail, submit written comments identified by the document control number [OPP–30406] and the file symbol to: Public Response and Program Resources Branch, Field Operations Divisions (7506C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. In person, bring comments to: Environmental Protection Agency, Rm. 1132, CM #2, 1921 Jefferson Davis Hwy., Arlington, VA.

Comments and data may also be submitted electronically by sending electronic mail (e-mail) to: oppdocket@epamail.epa.gov. Electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption. Comments and data will be accepted on disks in Wordperfect in 5.1 file format or ASCII file format. All comments and data in electronic form must be identified by the docket number [OPP-30406]. No "Confidential Business Information" (CBI) should be submitted through e-mail. Electronic comments on this notice may be filed online at many Federal Depository Libraries. Additional information on electronic submission can be found below in this document.

Information submitted as a comment concerning this notice may be claimed confidential by marking any part or all of that information as "Confidential Business Information" (CBI). Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. A copy of the comment that does not contain CBI must be submitted for inclusion in the public record. Information not marked confidential may be disclosed publicly by EPA without prior notice. All written comments will be available for public inspection in Rm. 1132 at the address given above, from 8 a.m. to 4:30 p.m., Monday through Friday, excluding holidays.

FOR FURTHER INFORMATION CONTACT: By mail: Registration Division (7505C), Attn: (Product Manager (PM) named in each registration), Office of Pesticide Programs, 401 M St., SW., Washington, DC 20460.

In person: Contact the PM named in each registration at the following office location/telephone number:

Product Manager	Office location/telephone number	Address
PM 23 Joanne I. Miller,		Environmental Protection Agency 1921 Jefferson Davis Hwy Arlington, VA 22202
