SUPPLEMENTARY INFORMATION:

I. Background

DOL proposes to conduct a customer survey of customers' opinions about the employment and training services received through Migrant and Seasonal Farm Worker (MSFW) programs—how helpful services were to MSFW customers, both overall and for specific services. This information is critical for improving the quality of services and making them more responsive to the needs of MSFW clients. Furthermore, it is important to determine whether and how different types of customers viewed the helpfulness of services they received and whether the differences in customers' views on the helpfulness of the program are related to their subsequent program outcomes and

employment. While some agencies have instituted some form of customer feedback, no other national effort to measure customer satisfaction in the MSFW program is underway.

II. Current Actions

A national survey will be conducted of 2,100 current and past participants in employment and training services. They will be asked about their experiences with the local service providers referred to as "grantees" who were awarded funds through the JTPA Title IV § 402 MSFW program. The questions asked in the survey will allow the examination of the important relationships between services and customer satisfaction. The questionnaire will ask about how satisfied customers were with the services overall and with specific services, including supportive services.

A nationally representative sample of participants will be drawn from a representative sample of 25 grantees. From each selected grantee, a sample of trainees and/or current participants will be selected over a period of several months. In this way, the sample will reflect the seasonal differences in the types of customers served in the program. About one-third of the sample will be individuals still participating in the program, who will be interviewed in person at the grantees' offices. The remaining two-thirds of the sample will be interviewed about 30 days after they leave the program so that they can report about how helpful services were in helping them find or keep a job. These individuals will be interviewed by phone, through a mail survey, or in person if necessary. The results of this survey will be used to suggest ways to improve programs to better meet the needs of the MSFW population.

Type of Review: New.

Agency: Employment and Training Administration.
