Notice is hereby given that the United States Nuclear Regulatory Commission (Commission) is considering approval under 10 CFR 50.80 and 10 CFR 72.50 of the transfer of control of the licenses for the Monticello Nuclear Generating Plant, the Prairie Island Units 1 and 2 Nuclear Generating Plants, and the Prairie Island Independent Spent Fuel Storage Installation facility, held by Northern States Power Company (NSP). The merged NSP will continue to operate the same facilities above in the same locations.

Pursuant to 10 CFR 50.80 and 10 CFR 72.50 the Commission may approve the transfer of control of a license, after notice to interested persons, upon the Commission's determination that the holder of the license following the transfer of control is qualified to hold the license and the transfer of the control is otherwise consistent with applicable provisions of law, regulations, and orders of the Commission.

POSTAL SERVICE

Privacy Act of 1974, System of Records

AGENCY: Postal Service.

ACTION: Notice of new system of records.

SUMMARY: This document publishes notice of a new Privacy Act system of records, USPS 050.050, Finance Records—International Money Transfer Transaction and Inquiry Records. The new system contains the names and addresses of purchasers and payees of international money transfer services and transaction information such as identifying numbers and amounts.

DATES: Any interested party may submit written comments on the proposed new system of records. This proposal will

become effective without further notice on June 17, 1996, unless comments received on or before that date result in a contrary determination.

ADDRESSES: Written comments on this proposal should be mailed or delivered to Payroll Accounting and Records, United States Postal Service, 475 L'Enfant Plaza SW, Room 8650, Washington, DC 20260-5243. Copies of all written comments will be available at the above address for public inspection and photocopying between 8 a.m. and 4:45 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Betty E. Sheriff, (202) 268-2608.

SUPPLEMENTARY INFORMATION: The Postal Service enters into agreements with some Foreign Postal Administrations to exchange postal money orders. Money orders are transmitted under these reciprocal agreements through payment lists, money order authorizations, or both, on behalf of the purchaser in the country of origin. A list number and international number are assigned to and used to track each money order. Because those numbers are used for internal tracking, they are generally not known by a customer (either the purchaser or the payee inquiring about the status of a money order). However, by cross-referencing a transaction dataset or reference number with a customer name dataset, the Postal Service is able to retrieve status information. For that reason, the Postal Service is establishing this grouping of records as a system of records subject to the Privacy Act.

The Postal Service also maintains purchaser, payee, and transaction information relating to international money transfers. The transfer is completed through payment to the payee in the foreign country. As with money order inquiries, information about a transaction may be retrieved in response to a status inquiry. Consequently, the Postal Service deems it appropriate to include money transfer records in this system of records.

Maintenance of these records is not expected to have a significant effect on individual privacy rights. Information kept is limited to the name and address of the purchaser and/or payee and information about the transaction, such as amount, money order serial number or other identifying number, and payment status. The information will be kept in a secured environment, with automated data processing (ADP) physical and administrative security and technical software applied to information on computer media. Computers and hard copy records are

maintained in a secured computer complex with access granted by guards. Access to areas within the complex is restricted with card keys. Access within the area is further restricted to authorized personnel with an official need. To the extent information is exchanged with a foreign administration or institution, it is exchanged under the terms of an agreement that requires confidentiality and limitations on use. Security controls are applied to information electronically transmitted.

Pursuant to 5 U.S.C. 552a(e)(11), interested persons are invited to submit written data, views, or arguments on this proposal. A report of the following proposed system has been sent to Congress and to the Office of Management and Budget for their evaluation.
