

Trade Zone, Inc., grantee of FTZ 70, requesting special-purpose subzone status for the oil refinery complex of Marathon Oil Company, located in Wayne County (Detroit area), Michigan. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on May 28, 1996.

The refinery complex (246 acres, 365 employees) consists of 4 sites and connecting pipelines in Wayne County (Detroit area), Michigan: *Site 1* (183 acres)—main refinery complex (70,000 BPD) located at 1300 South Fort Street on the Detroit River, Detroit and Melvindale; *Site 2* (15 acres)—asphalt storage facility located at 301 South Fort Street on the Rouge River, 1 mile east of the refinery, Detroit; *Site 3* (4 acres)—finished product storage facility, located on Fordson Island in the Rouge River, 2 miles northeast of the refinery, Dearborn; *Site 4* (44 acres)—underground LPG storage cavern, located at 24400 Allen Road, 12 miles south of the refinery, Woodhaven.

The refinery complex is used to produce fuels and petrochemical feedstocks. Fuels produced include gasoline, jet fuel, naphthas, distillates, and residual fuels. Petrochemical feedstocks and refinery by-products include methane, ethane, butane, propane, propylene, sulfur, asphalt, carbon black oil and petroleum coke. About 48 percent of the crude oil (91 percent of inputs) and some feedstocks and motor fuel blendstocks used in producing fuel products are sourced abroad.

Zone procedures would exempt the operations involved from Customs duty payments on the foreign products used in its exports. On domestic sales, the company would be able to choose the finished product duty rate (nonprivileged foreign status—NPF) on certain petrochemical feedstocks and refinery by-products (duty-free) instead of the duty rates that would otherwise apply to the foreign-sourced inputs (e.g., crude oil). The duty rates on crude oil range from 5.25¢/barrel to 10.5¢/barrel. The application indicates that the savings from zone procedures would help improve the refinery's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff

has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 5, 1996. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to August 20, 1996).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations:

In accordance with sections 353.22(a) and 355.22(a) of the regulations, an interested party as defined by section 353.2(k) may request in writing that the Secretary conduct an administrative review. The Department has changed its requirements for requesting reviews for countervailing duty orders. Pursuant to 19 C.F.R. 355.22(a) of the Department's Interim Regulations (60 FR 25137 (May 11, 1995)), an interested party must specify the individual producers or exporters covered by the order for which they are requesting a review. Therefore, for both antidumping and countervailing duty reviews, the interested party must specify for which individual producers or exporters covered by an antidumping finding or an antidumping or countervailing duty order it is requesting a review, and the requesting party must state why it desires the Secretary to review those particular producers or exporters. If the interested party intends for the Secretary to review sales of merchandise by an exporter (or a producer if that producer also exports merchandise from other suppliers) which were produced in more than one country of origin, and each country of origin is subject to a

separate order, then the interested party must state specifically, on an order-by-order basis, which exporter(s) the request is intended to cover.

Seven copies of the request should be submitted to the Assistant Secretary for Import Administration, International Trade Administration, Room B-099, U.S. Department of Commerce, 14th Street & Constitution Avenue, N.W., Washington, D.C. 20230. The Department also asks parties to serve a copy of their requests to the Office of Antidumping Compliance, Attention: Pamela Woods, in room 3065 of the main Commerce Building. Further, in accordance with section 353.31(g) or 355.31(g) of the regulations, a copy of each request must be served on every party on the Department's service list.

The Department will publish in the Federal Register a notice of "Initiation of Antidumping (Countervailing) Duty Administrative Review," for requests received by the last day of June 1996. If the Department does not receive, by the last day of June 1996, a request for review of entries covered by an order or finding listed in this notice and for the period identified above, the Department will instruct the Customs Service to

assess antidumping or countervailing duties on those entries at a rate equal to the cash deposit of (or bond for) estimated antidumping or countervailing duties required on those entries at the time of entry, or withdrawal from warehouse, for consumption and to continue to collect the cash deposit previously ordered.

This notice is not required by statute, but is published as a service to the international trading community.

Dated: May 30, 1996.

Joseph A. Spetrini,  
Deputy Assistant Secretary for Compliance.
