#### De Minimis Settlement Under Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act; In the Matter of Conservation Chemical Company of Illinois, Gary, IN

AGENCY: Environmental Protection Agency.

ACTION: *De Minimis* Settlement.

**SUMMARY:** EPA is proposing to settle claims with certain *de minimis* potentially responsible parties (PRPs) regarding past and estimated future response costs at the Conservation Chemical Company of Illinois Site in Gary, Indiana. EPA is authorized under Section 122(i)(1) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA") to enter into this settlement. The U.S. Department of Justice has approved this *de minimis* settlement, consistent with Section 122(g)(4) of CERCLA. Through July 31, 1995, response costs totalling approximately \$5,140,059.38 were incurred by EPA and certain PRPs in connection with the Site. It is estimated that future costs of \$10,806,165 will be required to complete cleanup of the Site. The settling PRPs will pay approximately \$2,800,000 in settlement payments for response costs related to the Conservation Chemical Company of Illinois Site. EPA is proposing to approve this *de minimis* settlement because it reimburses EPA, in part, for costs incurred during EPA's response activities at this Site.

On February 8, 1996, U.S. EPA sent a *de minimis* settlement offer and Administrative Order by Consent to 171 *de minimis* PRPs. Approximately 153 of these PRPs executed binding certifications of their consent to participate in the *de minimis* settlement. The Administrative Order by Consent provides for settlement with certain parties who are, individually, responsible for less than 1% of the total volume of hazardous substances sent to the Site. Settling *de minimis* PRPs will be required to pay their fair share of the past and estimated future response costs at the Site, based on \$1.01 per gallon of hazardous substances that the PRP contributed to the Site; there is a minimum settlement payment amount of \$50.00. The *de minimis* settlement includes a premium of 100% assessed against estimated future response costs to account for potential cost overruns, the potential for failure of the selected response action to clean up the Site, and other risks. The *de minimis* settlement

also provides for the settling *de minimis* PRPs to receive credits against their base *de minimis* settlement amounts, for any properly documented prior payments made by the *de minimis* PRPs to the group of major PRPs who previously did work at the Site. Pursuant to the Agency's *de minimis* settlement offer, numerous settling *de minimis* PRPs have appropriately documented their prior payments and applied for credits. Subsequently, EPA has amended Appendix D to the Consent Order to reflect the amount of all credits approved by EPA, and the final revised individual *de minimis* settlement amounts.

**DATES:** Comments on this *de minimis* settlement must be received within 30 days from publication of this notice.

**ADDRESSES:** Written comments relating to this *de minimis* settlement, Docket Number V-W-96-C-337, should be sent to Cynthia N. Kawakami, Associate Regional Counsel, U.S. Environmental Protection Agency, Region 5, Mail Code: CM-29A, 77 West Jackson Boulevard, Chicago, Illinois 60604-3590.

**ADDITIONAL INFORMATION:** Copies of the Administrative Order by Consent and the Administrative Record for this Site are available at the following address for review. It is strongly recommended that you telephone Ms. Beth Guria at (312) 886-5892 before visiting the Region 5 Office. U.S. Environmental Protection Agency, Region 5, Superfund Division, Emergency Response Branch, 77 West Jackson Boulevard, Chicago, Illinois 60604-3590.
