Company and Northern Border Pipeline Company.

Any person desiring to be heard or to make any protest with reference to said application should on or before July 1, 1996, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the NGA and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for MidAmerican to appear or be represented at the hearing. Linwood A. Watson, Jr.,

Acting Secretary.

Agency Information Collection Activities Under OMB Review; Standards of Performance for Industrial-Commercial-Institutional Steam Generating Units/Information Collection Request Burden Analysis; OMB No. 2060–0072 EPA No. 1088.08

AGENCY: Environmental Protection

Agency (EPA). **ACTION:** Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the Information Collection Request (ICR) for NSPS Subpart Db: Standards of Performance for Industrial-Commercial-Institutional Steam Generating Units described below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 15, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: SANDY FARMER AT EPA, (202) 260–2740, AND REFER TO EPA ICR NO. 1088.08 AND OMB NO. 2060–0072.

SUPPLEMENTARY INFORMATION:

Title: NSPS Subpart Db: Standards of Performance for Industrial-Commercial-Institutional Steam Generating Units (OMB number 2060–0072; EPA ICR No. 1088.08). This is a request for extension of a currently approved collection.

Abstract: Owners/Operators of Steam Generating Units subject to Subpart Db must notify EPA of construction, modification, start-up, shut-downs, malfunctions, dates and results of initial performance tests. Owners/Operators of these Steam Generating Units would be required to keep records of design and operating specifications of all equipment installed to comply with the standards. This information is necessary to ensure that equipment design and operating specifications are met. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on December 8, 1995 (FR 63035); one written and two verbal comments were received concerning this information collection.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 414,257 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of

collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 696. Estimated Number of Respondents: 696.

Frequency of Response: Quarterly and Annually.

Estimated Total Annual Hour Burden: 414,257 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1088.08 and OMB Control No. 2060–0072 in any correspondence.

Agency Information Collection Activities: Extension for Application Requirements for the Approval and Delegation of Federal Air Toxics Programs to State and Local Agencies (OMB No. 2060–0264, EPA ICR No. 1643.02)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507(a)(1)(D)), this notice announces that the continuing Information Collection Request (ICR) has been sent to the Office of Management and Budget (OMB) for review and comment: Extension for Application Requirements

for the Approval and Delegation of Federal Air Toxics Programs to State and Local Agencies, OMB No. 2060– 0264 (EPA ICR No. 1643.02). (The current EPA ICR No. 1643.01 expires on July 31, 1996). The ICR describes the nature of the information collection and its expected burden.

DATES: Comments must be submitted on or before July 15, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260–2740, and refer to EPA ICR No. 1643.02.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are State, local, or tribal governments that voluntarily participate. No industries are included among the applicants.

Title: Extension for Application Requirements for the Approval and Delegation of Federal Air Toxics Programs to State and Local Agencies, OMB No. 2060–0264 (EPA ICR No. 1643 02)

Abstract: This collection is a voluntary application from State, local, or tribal governments that voluntarily request delegation of Federal air toxics programs or approval of State, local, or tribal air toxics programs that meet the objectives of the relevant Federal programs. Affected entities have requested such delegations and approvals in order to gain approval of their programs which they can implement at lower costs, thus providing them with a net decrease in overall program expenditures. Because the participation of the affected entities is voluntary, EPA believes there will be a net reduction in burden and costs to the affected entities.

The procedures and requirements for these delegations and approvals were codified as Subpart E of 40 CFR 63 in accordance with section 112(l)(2) of the Clean Air Act (Act), as amended in 1990. The Act calls for EPA to "publish guidance that would be useful to the States in developing programs * * * allowing for delegation of the Administrator's authorities and responsibilities to implement and enforce emissions standards and prevention requirements."

The approval process includes options that allow the affected entities to adjust or substitute for a Federal rule or program. The options vary in the types of changes allowed and in the level of demonstrations required for approval. Affected entities interested in utilizing this program are required to submit an application package to the reviewing agency.

All submissions are voluntary on the part of the affected entities. Therefore,

the information collection requirements apply only to those entities that voluntarily submit applications. All application packages are submitted to the Administrator for approval. The information is needed to determine if the entity submitting a request has met the criteria established in the 40 CFR Part 63, Subpart E rule. The collection of information is authorized under 42 U.S.C. 7401-7671q. Information obtained by EPA is safeguarded according to the Agency policies set forth in Title 40, Chapter 1, Part 2, Subpart B, Confidentiality of Business Information. See 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 39999, September 8, 1978; 43 FR 42251, September 28, 1978; 44 FR 17674, March 23, 1979.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information, was published on March 22, 1996 (61 FR 11832–11833). There were no comments in response to the notice.

Burden Statement: The Agency has estimated the annual public reporting and recordkeeping burden for this voluntary collection of information to average less than 2000 hours per affected entity, using reasonable upper bound estimates. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency, including the time to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Estimated Number of Respondents:

Estimated Frequency: 3 times over a 3-year period.

Estimated Total Annual Hour Burden: 80,000 hours.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses: Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, S.W., Washington, D.C. 20503; and Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, N.W., Washington, D.C. 20503. Please refer to EPA ICR No. 1643.02 and OMB Control No. 2060-0264 in any correspondence.
