SUPPLEMENTARY INFORMATION:

Background

Standards developed by the technical committees of the National Fire Protection Association (NFPA) have been used by various Federal Agencies as the basis for Federal regulations

concerning fire safety. The NFPA standards are known collectively as the National Fire Codes. Often, the Office of the Federal Register approves the incorporation by reference of these standards under 5 U.S.C. 552(a) and 1 CFR Part 51.

Revisions of existing standards and adoption of new standards are reported by the technical committees at the NFPA's Fall Meeting in November or at the Annual Meeting in May each year. The NFPA invites public comment on its Report on Proposals.

Request for Comments

Interested persons may participate in revision of these technical reports by submitting written data, views, or arguments to Arthur E. Cote, P.E., Secretary, Standards Council, NFPA, 1 Batterymarch Park, P.O. 9101, Quincy, Massachusetts 02269-9101. Commenters may use the forms provided for comments in the Report on Proposals. Each person submitting a comment should include his or her

name and address, identify the notice, and give reasons for any recommendations. Comments received on or before October 11, 1996 for the 1997 Annual Meeting Report on Proposals, will be considered by the NFPA before final action is taken on the proposals.

Copies of all written comments received and the disposition of those comments by the NFPA committees will be published as the 1997 Annual Meeting Report on Comments by March 28, 1997, prior to the Annual Meeting.

A copy of the Report on Comments will be sent automatically to each commenter. Action on the reports of the Technical Committees (adoption or rejection) will be taken at the Annual Meeting, May 19-22, in Los Angeles, California, by NFPA members.
