Disaster Unemployment Assistance (DUA), Disaster Payment Activities Under the "Stafford Disaster Relief Act"

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and State agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program

helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration (ETA) is soliciting comments concerning the proposed one year extension of previous approval by OMB of the attached ETA Form 90-2, Disaster Payment Activities Under the "Stafford Disaster Relief Act." A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee section below on or before August 20, 1996.

The Department of Labor is particularly interested in comments which:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
 - evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
 - enhance the quality, utility, and clarity of the information to be collected; and
 - minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION:

I. Background

The monthly report on Disaster Payment Activities under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (the "act") provides vital information on the nature and scope of activities performed in administering provisions of sections 410 and 423 of the act. Its workload items and final

disaster reports are also used with fiscal reports to estimate the cost of administering the act. (Previously cleared for use thru OMB by ETA under OMB No. 1205-0234.)

The President is directed by the act to provide Disaster Unemployment Assistance through agreements with States, which in his judgement, have an adequate system for administering such assistance through existing State agencies. Without the data obtained from the report, the Employment and Training Administration would have no grasp on the program, as its is administered by the States.

II. Current Actions

The data obtained from the reports are used by at least three organizational units within the Employment and Training Administration (ETA). The Unemployment Insurance Service uses the data for evaluation of State agency performance on making payments and providing claimant services and for making required reports. The Employment Services uses the data to project funding needs in the areas of counseling, referrals to suitable work opportunities and suitable training. The Office of Financial and Administrative Management (OFAM) uses the data in accounting for the financial management of the program funds and fund transfers. In addition, the data are also used by the Federal Emergency Management Agency (FEMA), to whom the President has delegated the responsibility by Executive Order No. 12148, for administering the act. As previously indicated, without the data obtained from the report, the Department would have no grasp on the program, as it is administered by the States.
