Antifriction Bearings (Other Than Tapered Roller Bearings) and Parts Thereof from Thailand; Final Results of Antidumping Duty Administrative Review and Revocation of Antidumping Duty Order

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Antidumping Duty Administrative Review and Revocation of Antidumping Duty Order.

SUMMARY: On December 7, 1995, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on antifriction bearings (other than tapered roller bearings) and parts thereof from Thailand. The class or kind of merchandise covered by this order is ball bearings. This review covers one producer and/or exporter of antifriction bearings to the United States for the period May 1, 1993, through April 30, 1994.

We gave interested parties an opportunity to comment on the preliminary results. Based on our analysis of the comments received, we have made certain changes for the final results. We have determined the margins for NMB Thai Ltd., Pelmec Thai Ltd., NMB Hi-Tech Bearings Ltd., and NMB Corporation (collectively, NMB/Pelmec) to be *de minimis*. We have also determined that NMB/Pelmec has met the requirements for revocation.

EFFECTIVE DATE: June 28, 1996.

FOR FURTHER INFORMATION CONTACT: Lyn Johnson or Rich Rimlinger, Office of Antidumping Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-4733.

SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute and to the Department's regulations are references to the provisions as they existed on December 31, 1994.

Background

On May 15, 1989, the Department published in the Federal Register (54 FR 20909) the antidumping duty order

on ball bearings and parts thereof from Thailand. On June 22, 1994, in accordance with 19 C.F.R. 353.22(c), we initiated an administrative review of this order for the period May 1, 1993, through April 30, 1994 (59 FR 32180). The Department conducted a verification of NMB/Pelmec's response for this period of review.

On May 31, 1994, NMB/Pelmec submitted a request, in accordance with 19 C.F.R. 353.25(b), to revoke the order with respect to NMB/Pelmec's sales of this merchandise. In accordance with 19 C.F.R. 353.25(a)(2)(iii), this request was accompanied by certifications from the firm that it had not sold the relevant class or kind of merchandise at less than foreign market value (FMV) for a three-year period, including this review period, and would not do so in the future. NMB/Pelmec also agreed to its immediate reinstatement in the relevant antidumping order, as long as any firm is subject to this order, if the Department concludes under 19 C.F.R. 353.22(f) that, subsequent to revocation, it sold the subject merchandise at less than FMV.

On December 7, 1995, we published in the Federal Register the preliminary results of our administrative reviews of the antidumping duty orders on antifriction bearings (other than tapered roller bearings) and parts thereof (AFBs) from France, Germany, Japan, Singapore, Sweden, and Thailand (60 FR 62817) wherein we gave notice of our intent to revoke the order on Thailand and invited interested parties to comment. On January 31, 1996, and February 8, 1996, parties to the Thailand proceeding submitted their case and rebuttal briefs, respectively. At the request of interested parties, we held a public hearing for the Thailand proceeding on February 14, 1996.

The Department is conducting this administrative review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act).

Scope of Review

The products covered by this order, antifriction bearings (other than tapered roller bearings), mounted or unmounted, and parts thereof (AFBs) from Thailand, fall within the following class or kind of merchandise:

Ball Bearings and Parts Thereof: These products include all AFBs that employ balls as the roller element. Imports of these products are classified under the following categories: antifriction balls, ball bearings with integral shafts, ball bearings (including radial ball bearings) and parts thereof, and housed or mounted ball bearing units and parts thereof. Imports of these
