

Specifically, EPA approved California's listing of waters except for waters listed in the Santa Ana Region of California. Today, EPA is proposing to:

(1) approve California's 303(d) submission of waters in the Santa Ana Region,

(2) disapprove California's decisions not to list Ten Mile River for sediment and Navarro River, which is already listed for sediment, for temperature,

(3) add the Ten Mile River for sediment and the Navarro River for temperature to California's 1996 303(d) list, and

(4) approve Hawaii's 303(d) submission.

EPA is providing the public the opportunity to review these proposed decisions as required by Public Participation regulations [40 CFR Part 25]. EPA will consider public comments in reaching its final decisions on California and Hawaii's final lists.

DATES: Comments must be submitted to EPA on or before August 8, 1996.

ADDRESSES: Comments on the proposed decisions should be sent to David Smith, TMDL Coordinator, Water Division, U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105, telephone (415) 744-2012, facsimile (415) 744-1078. Copies of the proposed decisions concerning California and Hawaii which explain the rationale for EPA's proposed decisions can be obtained by writing or calling Mr. Smith at the above address. Underlying documentation comprising the record for this decision is available for public inspection at the above address.

FOR FURTHER INFORMATION CONTACT: David Smith at (415) 744-2012.

SUPPLEMENTARY INFORMATION: Section 303(d) of the Clean Water Act (CWA) requires that each state identify those waters for which existing technology-based pollution controls are not stringent enough to attain or maintain state water quality standards. For those waters, states are required to establish TMDLs according to a priority ranking.

On January 11, 1985, EPA published the Water Quality Planning and Management regulations [50 FR 1775]. These regulations included requirements related to the implementation of Section 303(d) of the CWA [40 CFR 130.7]. The regulations did not specify dates for state compliance with the Section 303(d) requirements, but reiterated the statutory provisions calling for submissions from time to time. On July 24, 1992, EPA published a final rule [57 FR 143] that amended 40 CFR 130.7 to establish that, for the purposes of

identifying water quality-limited waters still requiring TMDLs, "from time to time" means once every two years. The list of waters still needing TMDLs must also include a priority ranking and must identify the waters targeted for TMDL development during the next two years [40 CFR 130.7].

Consistent with EPA's revised regulations, California submitted to EPA for its approval its listing decisions under Section 303(d)(2). EPA today proposes to:

(1) decline to make a final decision to approve the listings and priority rankings for the Santa Ana RWQCB (Region 8) because that Regional Board provided insufficient opportunity for public participation, and instead propose to approve the listings and priority rankings, with EPA's final decision to approve or disapprove to be issued after consideration of public comment, (2) propose disapproval of the State's decision not to list Ten Mile River for sediment and Navarro River for temperature, and (3) propose a final decision to add Ten Mile River for sediment and Navarro River for temperature to the State's 1996 list and establish appropriate priority rankings.

EPA solicits public comment on California's list of waters in the Santa Ana Region and EPA's proposed decision to approve these listings, EPA's proposed decision to disapprove California's decisions concerning Ten Mile River and Navarro River, and EPA's proposed decision to add the Ten Mile River for sediment and the Navarro River for temperature to California's final 1996 Section 303(d) list.

Hawaii also submitted to EPA for its approval its listing decisions under Section 303(d)(2). EPA today proposes to fully approve Hawaii's list of waters needing TMDLs, priority rankings, and list of waters targeted for TMDL development during the next two years. EPA solicits public comment on Hawaii's lists and EPA's proposed approval decision.

EPA notes that it does not normally solicit public comment on its decisions to approve state Section 303(d) lists. Pursuant to the public participation requirements of 40 CFR 25, EPA is providing this opportunity for public review and comment on its proposed approval decisions because California provided inadequate opportunity for public comment during development of its lists for the Santa Ana Region, and Hawaii provided no opportunity for public comment during the development of its lists. In the future, EPA expects that states will provide adequate opportunities for public

comment during development of the state lists.

Dated: June 14, 1996.

Acting Director, Water Management Division.

Formations of, Acquisitions by, and Mergers of Bank Holding Companies

The companies listed in this notice have applied to the Board for approval, pursuant to the Bank Holding Company Act of 1956 (12 U.S.C. 1841 *et seq.*) (BHC Act), Regulation Y (12 CFR Part 225), and all other applicable statutes and regulations to become a bank holding company and/or to acquire the assets or the ownership of, control of, or the power to vote shares of a bank or bank holding company and all of the banks and nonbanking companies owned by the bank holding company, including the companies listed below.

The applications listed below, as well as other related filings required by the Board, are available for immediate inspection at the Federal Reserve Bank indicated. Once the application has been accepted for processing, it will also be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the standards enumerated in the BHC Act (12 U.S.C. 1842(c)). If the proposal also involves the acquisition of a nonbanking company, the review also includes whether the acquisition of the nonbanking company complies with the standards in section 4 of the BHC Act, including whether the acquisition of the nonbanking company can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices"

(12 U.S.C. 1843). Any request for a hearing must be accompanied by a statement of the reasons a written presentation would not suffice in lieu of a hearing, identifying specifically any questions of fact that are in dispute, summarizing the evidence that would be presented at a hearing, and indicating how the party commenting would be aggrieved by approval of the proposal. Unless otherwise noted, nonbanking activities will be conducted throughout the United States.

Unless otherwise noted, comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than August 1, 1996.
