#### Approval and Promulgation of Implementation Plans; North Carolina: Approval of Revisions to the North Carolina State Implementation Plan

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** On August 15, 1994, the State of North Carolina, through the North Carolina Department of Environment, Health and Natural Resources, submitted revisions to the North Carolina State Implementation Plan (SIP). These revisions are the adoption of new air quality rules, amendments to existing air quality rules and repeals of existing air quality rules that were the subject of public hearings held on March 21 and 30, 1994. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a

noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to that direct final rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by March 4, 1996.

**ADDRESSES:** Written comments on this action should be addressed to Mr. Randy Terry at the EPA Regional Office listed below.

Copies of the documents relative to this action are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

#### Approval and Promulgation of Implementation Plans; North Carolina: Approval of Revisions to the North Carolina State Implementation Plan

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** On March 7, 1995, the Forsyth County Environmental Affairs Department, through the North Carolina Department of Environment, Health and Natural Resources, submitted recodifications to the Forsyth County Air Quality Control Ordinance and Technical Code. These recodifications make the Forsyth County Air Quality Control Ordinance and Technical Code more directly comparable to the North Carolina Air Quality Regulations. These recodifications were the subject of a public hearing held on September 20, 1994. In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by March 4, 1996.

**ADDRESSES:** Written comments on this action should be addressed to Mr. Scott M. Martin at the EPA Regional Office listed below.

Copies of the documents relative to this action are available for public inspection during normal business hours at the following locations. The interested persons wanting to examine these documents should make an appointment with the appropriate office at least 24 hours before the visiting day.

#### Approval and Promulgation of Implementation Plans, North Carolina: Approval of Revisions to the North Carolina State Implementation Plan

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** On March 3, 1995, the State of North Carolina, through the North Carolina Department of Environment, Health and Natural Resources, submitted revisions to the North Carolina State Implementation Plan (SIP). These revisions include the adoption of three source-specific volatile organic compound rules; 15A NCAC 2D .0955, Thread Bonding Manufacturing, .0956, Glass Christmas Ornament Manufacturing, and .0957 Commercial Bakeries.

On May 24, 1995, North Carolina submitted additional revisions to their SIP. These revisions delete textile coating, Christmas ornament manufacturing, and bakeries from the list of sources that must follow interim standards, define di-acetone alcohol as a non-photochemically reactive solvent, and place statutory requirements for adoption by reference for referenced ASTM methods into a single rule rather than each individual rule that references ASTM methods. Revisions to 15A NCAC 2D .0902 Applicability; .0907 Compliance Schedules For Sources In

Nonattainment Areas; .0910 Alternative Compliance Schedules; .0911 Exception From Compliance Schedules; .0952 Petition For Alternative Controls; .0954 Stage II Vapor Recovery; 1401-.1415; Reasonably Available Control Technology for Sources of Nitrogen Oxides (Nox RACT); .1501-.1504 Transportation Conformity; and .1601-.1603; General Conformity are being addressed in separate Federal Register Notices.

In the final rules section of this Federal Register, the EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision amendment and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this proposed rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.

**DATES:** To be considered, comments must be received by March 4, 1996.
