## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Proposed Collection of Job Corps Health Questionnaire Comment Request

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Job Corps is soliciting comments concerning the proposed revision of the Health Questionnaire, Form ETA 6-53, a copy of which is attached to this notice.

**DATES:** Written comments must be submitted to the office listed in the addressee section below on or before September 9, 1996. The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collection; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

**ADDRESSEE:** Charles R. Hayman, MD, National Medical Director, Job Corps, Room N4507, 200 Constitution Avenue, NW, Washington, DC 20210, 202-219-5556, ext. 122 (this is not a toll-free number), 202-219-5183 (fax).

#### SUPPLEMENTARY INFORMATION:

##### I. Background

The Job Corps program is described in its enabling legislation under Public Law 97-300, Job Training Partnership Act. Section 423(4) states the health eligibility criteria and Section 424 of the Act outlines the screening and selection process for entry into Job Corps. The Department of Labor's regulation at 20 CFR 638.400 (K, L, M) further details the recruitment and screening of applicants, with specific guidance regarding health screening.

Young people wishing to enroll in Job Corps must first be screened to determine their suitability for the program. This initial screening of applicants is carried out by screening agencies, including State employment services, contracted to recruit young people for Job Corps. Screening ensures that applicants meet all admissions criteria as defined in *Performance Requirements Handbook (PRH) Chapter 1, Outreach and Screening, July 1995*.

Nonmedical personnel in the screening agencies (admissions counselors) conduct the screening interview and complete all required application forms included in *PRH-1 and its appendices*. From 1980 through 1986, the Job Corps Health Questionnaire (ETA 6-53) was administered during the screening interview only to those applicants whose medical eligibility was in doubt (as determined by positive response to questions 25 a, b, or c on the Job Corps Data Sheet, ETA 6-52).

A survey of Regional Directors for Job Corps and their staffs in 1982 and 1984 affirmed that the limited use of the Health Questionnaire in effect since 1980 had a significant adverse effect on the program. All regions responding recommended use of the Health Questionnaire during the initial screening interview for all applicants. It was noted that given the guidance and structure of the Health Questionnaire, screeners would ask more questions

about applicants' health problems than the four general questions on the Data Sheet, and that responses to these questions would be very likely to uncover health problems (especially mental health problems). In 1987, initial use of the Health Questionnaire for all applicants was reinstituted.

##### II. Current Actions

The application folders of all applicants for the Job Corps showing questionable medical or behavioral status are transferred to the appropriate Regional Office for review. Regional Office personnel give any records showing potential health problems to the regional nurse consultant.

The nurse consultant reviews the applicant's medical history as contained in the Health Questionnaire. If necessary the consultant supplements' information from the applicant's health care providers to determine whether the individual has health problems that might prevent him or her from benefiting from the Job Corps program or that might unduly tax a center's health care budget.

In Regions II and IV, screening has been delegated to selected staff of each center. Center staff review all applications and make the decision to accept. The Regional Office staff and consultants are called upon for technical assistance as needed and for review and final decision on all applications provisionally rejected by the center.

Persons having significant physical disabilities are accepted into designated centers for the mobility impaired, vision or hearing impaired, or learning disabled. (Applicants with conditions requiring extensive treatment are not accepted).

While most health screening at the Regional level is done by the nurse consultant through review of the applicant's health record, in some instances the nurse will request the assistance of the regional medical, dental or mental health consultant to ensure that the evaluation of the applicant's suitability for Job Corps is correct.

In the case of an applicant with an acceptable health condition requiring special attention, the nurse consultant will advise the Job Corps Regional Director concerning appropriate center placement. For all accepted applicants, the Regional Office sends the Health Questionnaire and all other health information sealed in the student's Health Record Envelope to the center of assignment.

In general, the Regional Directors feel that Job Corps deals with a population
