#### I. Information Collection Request

EPA is seeking comments on the following Information Collection Request (ICR).

Title: Trade Secret Clearance Justification. OMB No. 2070-0053. EPA ICR No. 0613.06. Expiration date: December 31, 1996.

Affected entities: Registrants of pesticide products subject to Freedom of Information Act (FOIA) requests.

**Abstract:** The purpose of the collection is to determine the confidentiality of information submitted to the Agency under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The collection is usually prompted by a request under the Freedom of Information Act (FOIA) for a record which may be entitled to confidential treatment. The collection instrument consists of nine questions codified under 40 CFR part 2, subpart B. A final determination on the releasability of the requested record is issued by EPA upon evaluation of the business's response.

EPA may not disclose information which is described by FIFRA section 10(d)(1)(A), (B), or (C). Under 40 CFR 2.204(a), EPA may take action to determine whether business information is entitled to confidential treatment when a request for disclosure is received under FOIA, when the Agency anticipates receiving a request under FOIA, or when the Agency wishes to determine if information in its possession is confidential. When determining whether information is entitled to confidential treatment, EPA is required by 40 CFR 2.204(e) to notify the affected business and provide an opportunity for comment.

**Burden Statement:** The annual respondent burden for this program is estimated to average 21 hours per response, including time for: Reading collection request; conferring with EPA; gathering resources and coordinating actions; reviewing information to identify potential confidential portions; processing, compiling, and reviewing claims of confidentiality for accuracy and appropriateness; reporting and substantiating findings; and storing, filing, or maintaining the information.

The total number of registrants impacted by this ICR is estimated to be 90 per year. Total cost per respondent to comply with this ICR, including capital costs, labor costs, and other operating and maintenance costs is estimated at approximately \$1,708 per response. The total hours and respondents to comply with this ICR has remained the same as the previous ICR, but the total cost has increased due to updated labor costs provided by the Bureau of Labor Statistics. There is no third party notification associated with this activity.

Any Agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control

numbers for EPA's regulations are contained in 40 CFR part 9.

## II. Request for Comments

EPA solicits comments to:

(i) Evaluate whether the proposed collections of information described above are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

(ii) Evaluate the accuracy of the agency's estimates of the burdens of the proposed collections of information.

(iii) Enhance the quality, utility, and clarity of the information to be collected.

(iv) Minimize the burden of the collections of information on those who are to respond, including through the use of appropriate automated or electronic collection technologies or other forms of information technology, e.g., permitting electronic submission of responses.

Send comments regarding these matters, or any other aspect of these information collections, including suggestions for reducing the burdens, to the docket under ADDRESSES listed above.

## III. Public Record
