

questionnaire or believe they were not counted).

The two simple forms are identical in content, except for the household rostering questions. Another component of this test will be to evaluate two alternative approaches to household rostering. One roster design, called the "rosterless" version, does not require the respondent to create a traditional roster list. It includes an abbreviated set of instructions on who should be included and not included, and asks the respondent to provide the number of persons in the household. The second roster design, called the "extended" roster, includes a sequential set of reminders about whom to include, such as non-relatives as well as related persons, mobile persons who may have more than one residence, and persons with no usual residence.

Enumerator-administered questionnaires also will be used in this test to conduct nonresponse followup operations for housing units that do not return their questionnaires by mail. These questionnaires will be addressed in a separate OMB submission.

II. Method of Collection

We will conduct a complete census in the three test sites. In the rural sites, census enumerators will deliver the questionnaires to the households. Respondents will be asked to complete the questionnaires and return them by mail in the postage-paid envelopes. In the urban site, census questionnaires will be mailed to the housing units and returned in postage-paid envelopes.

III. Data

OMB Number: Not available.

Form Number: DT-1A, DT-1B, DT-10 (Be Counted), and DT-20A (Individual Census Report).

Type of Review: Regular.

Affected Public: Individuals and households.

Estimated Number of Respondents: 10,000 Housing Units.

Estimated Time Per Response: 9 minutes (DT-1A and DT-10), 10 minutes (DT-1B), and 2 minutes (DT-20A).

Estimated Total Annual Burden Hours: Total = 494 hours.

The estimated burden assumes an anticipated mail-back response rate of 35 percent, and a vacancy rate of 11 percent on average for the three sites. Although total burden normally is calculated assuming a 100 percent response rate, the burden for this test does not include the time taken by field enumerators to complete the enumerator-administered census questionnaires during nonresponse

followup for the remaining 65 percent of households that we expect will not respond by mail. The burden for the enumerator forms, including the portion of the form that is completed for vacant units, will be reported in a separate OMB submission.

DT-1A = 233.6 hours [9 minutes \times 4,450 occupied housing units \times .35 (mail return rate)]; DT-1B = 260.1 hours [10 minutes \times 4,450 occupied housing units \times .35 (mail return rate)].

Estimated Total Annual Cost: \$1.7 Million (FY96), and \$0.3 Million (FY97).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

International Trade Administration [A-428-814]

Certain Cold-Rolled Carbon Steel Flat Products From Germany; Termination of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Termination of Administrative Review of Antidumping Duty Order; Certain Cold-Rolled Carbon Steel Flat Products From Germany (A-428-814).

SUMMARY: On September 8, 1995, in response to a request from petitioners, the Department of Commerce ("the

Department") initiated an administrative review of Thyssen Stahl AG ("TSAG") and Thyssen, Inc. ("TINC"), covering the period August 1, 1994, through July 31, 1995. The Department received a request for withdrawal on December 14, 1995, from petitioners. Because the request for review was withdrawn, and there were no other requests from any interested parties for review of these or other companies under this antidumping duty order, the Department is now terminating this review.

EFFECTIVE DATE: February 2, 1996.

FOR FURTHER INFORMATION CONTACT:

Steve Bezirgianian or Robin Gray; Office of Agreements Compliance, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Ave., NW, Washington, DC 20230; telephone (202) 482-1395 or (202) 482-0196, respectively.

SUPPLEMENTARY INFORMATION: On August 31, 1995, the Department received a request from petitioners for review of the antidumping duty order on certain cold-rolled carbon steel flat products from Germany for the period August 1, 1994, through July 31, 1995.

On September 8, 1995, the Department published in the Federal Register (60 FR 46817) a notice of initiation of an administrative review of the order with respect to TSAG and TINC and the period August 1, 1994, through July 31, 1995.

On December 14, 1995, petitioners withdrew their request for this administrative review, pursuant to 19 CFR 353.22(a)(5). Ordinarily, parties have 90 days in which to withdraw a request for review.

Given that the review has not progressed substantially and there would be no undue burden on the parties or the Department, the Department has determined that it would be reasonable to grant the withdrawal at this time. Therefore, in accordance with section 353.22(a)(5) of the Department's regulations, the Department has terminated this administrative review. Further, we note that respondent has not objected to petitioners' request to withdraw.

This notice serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning disposition of proprietary information disclosed under APO in accordance with section 353.34(d) of the Department's regulations. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested.

Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This notice is published in accordance with section 751 of the Tariff Act of 1930, as amended (19 U.S.C. 1675) and 19 CFR 353.22.

Dated: January 26, 1996.
