Background

These regulations were subsequently duplicated at 7 CFR part 1427.25 but were not removed from their original location. Similarly, the regulations at 7 CFR part 26, subpart B, were originally issued to establish the formula for calculating the world price for rice. These regulations were duplicated at 7 CFR part 1421.25 but also were not removed from their original location. There being no need for such duplication, this rule removes the needless regulations under 7 CFR part 26.

List of Subjects in 7 CFR Part 26

Accordingly, under the authority at 7 U.S.C. 1441-2, 7 CFR part 26 is removed and reserved.

[Docket No. FV96-928-1 FIR]

Papayas Grown in Hawaii; Assessment Rate

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Department of Agriculture (Department) is adopting as a final rule, without change, the provisions of an interim final rule establishing an assessment rate for the Papaya Administrative Committee (Committee) under Marketing Order No. 928 for the 1996-97 and subsequent fiscal periods. The Committee is responsible for local administration of the marketing order which regulates the handling of papayas grown in Hawaii. Authorization to assess papaya handlers enables the Committee to incur expenses that are reasonable and necessary to administer the program.

EFFECTIVE DATE: July 1, 1996.

SUPPLEMENTARY INFORMATION: This rule is issued under Marketing Agreement No. 928 and Order No. 928, both as amended (7 CFR part 928), regulating the handling of papayas grown in Hawaii, hereinafter referred to as the "order." The marketing agreement and order are effective under the Agricultural Marketing Agreement Act

of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. Under the marketing order now in effect, handlers of papayas grown in Hawaii are subject to assessments. Funds to administer the order are derived from such assessments. It is intended that the assessment rate as issued herein will be applicable to all assessable papayas beginning July 1, 1996, and continuing until amended, suspended, or terminated. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 400 producers of papayas in the production area and approximately 60 handlers subject to regulation under the marketing order. Small agricultural producers have been defined by the Small Business Administration (13 CFR

121.601) as those having annual receipts less than \$500,000, and small agricultural service firms are defined as those whose annual receipts are less than \$5,000,000. The majority of papaya producers and handlers may be classified as small entities.

The papaya marketing order provides authority for the Committee, with the approval of the Department, to formulate an annual budget of expenses and collect assessments from handlers to administer the program. The members of the Committee are producers and handlers of papayas grown in Hawaii. They are familiar with the Committee's needs and with the costs for goods and services in their local area and are thus in a position to formulate an appropriate budget and assessment rate. The assessment rate is formulated and discussed in a public meeting. Thus, all directly affected persons have an opportunity to participate and provide input.

The Committee met on April 26, 1996, and unanimously recommended 1996-97 expenditures of \$485,300 and an assessment rate of \$0.0059 per pound of papayas. In comparison, last year's budgeted expenditures were \$435,800. The assessment rate of \$0.0059 is the same as last year's established rate. Major expenditures recommended by the Committee for the 1996-97 year include \$160,000 for marketing and promotion activities, \$130,000 for research and development, and \$67,000 for salaries. Budgeted expenses for these items in 1995-96 were \$165,500, \$115,000, and \$67,000 respectively.

The assessment rate recommended by the Committee was derived by dividing anticipated expenses by expected shipments of papayas grown in Hawaii. Papaya shipments for the year are estimated at 30 million pounds which should provide \$177,000 in assessment income. Income derived from handler assessments, the Hawaii Department of Agriculture, the USDA's Foreign Agricultural Service, the County of Hawaii, and the Japanese Inspection program, along with interest income and funds from the Committee's authorized reserve, will be adequate to cover budgeted expenses. Funds in the reserve will be kept within the maximum permitted by the order.

An interim final rule regarding this action was published in the June 4, 1996, issue of the Federal Register (61 FR 28000). That rule provided for a 30-day comment period. No comments were received.

While this rule will impose some costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the costs may be
