NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-254 and 50-265]

Commonwealth Edison Company and MidAmerican Energy Company, (Quad Cities Nuclear Power Station, Units 1 and 2); Order Approving the Indirect Transfer of Licenses as Part of the Corporate Restructuring of MidAmerican Energy Company by Establishment of a Holding Company

I

MidAmerican Energy Company (MEC) holds a 25-percent ownership interest in

Quad Cities Nuclear Power Station, Units 1 and 2. Commonwealth Edison Company (ComEd) owns the remaining 75-percent share of the facility. MEC and ComEd are governed by Facility Operating License Nos. DPR-29 and DPR-30 issued by the U.S. Atomic Energy Commission pursuant to Part 50 of Title 10 of the Code of Federal Regulations (10 CFR Part 50) on December 14, 1972. Under these licenses, ComEd, acting as agent and representative of the two owners listed on the licenses, has the authority to operate the Quad Cities Nuclear Power Station, Units 1 and 2. Quad Cities is located in Rock Island County, Illinois.

II

By letter dated April 4, 1996, MEC informed the Commission that it was in the process of implementing a corporate restructuring. MEC proposes to restructure itself by establishing a holding company, MidAmerican Energy Holdings Company (MEHC), which would become the parent corporation to, and sole owner of, MEC. MEC would continue to remain a 25-percent minority owner and possession-only licensee of the Quad Cities Nuclear Power Station, Units 1 and 2. MEC would remain an "electric utility" as defined in 10 CFR 50.2, engaged in the generation, transmission, and distribution of electric energy for wholesale and retail sale. Upon consummation of the restructuring, common stockholders of MEC would receive one share of stock in MEHC in exchange for each share of MEC stock held. MEC requested the Commission's approval of the indirect license transfers to the extent affected by the proposed corporate restructuring, pursuant to 10 CFR 50.80. Notice of this request for approval was published in the Federal Register on June 14, 1996 (61 FR 30263).

Upon review of the information submitted in MEC's letter of April 4, 1996, and other information before the Commission, the NRC staff has determined that the restructuring, subject to the conditions set forth herein, will not affect the qualifications of MEC as a holder of the license, and is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission. These findings are supported by a Safety Evaluation dated July 29, 1996.

III

By September 3, 1996, any person adversely affected by this Order may file a request for a hearing with respect to issuance of the Order. Any person requesting a hearing shall set forth with particularity how that interest is
