SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 et seq.), this notice announces that EPA is planning to submit the following proposed and/or continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Construction Grants Delegation to States, EPA No. 0909.04; OMB No. 2040-0095; approved for use through 12/31/96. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before October 7, 1996.

ADDRESSES: U.S. Environmental Protection Agency, Office of Wastewater Management (4201), 401 M Street, S.W., Washington, D.C. 20460. A copy of the ICR may be obtained, without charge, from the program official shown below.

FOR FURTHER INFORMATION CONTACT: Arnold Speiser, U.S.E.P.A., Municipal Assistance Branch (4204), 401 M Street, S.W., Washington, D.C. 20460; telephone 202-260-7377; facsimile 202-260-1827; E-Mail Speiser.Arnold@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are States which administer elements of the construction grants program under a delegation agreement with EPA and municipalities which received construction grants from EPA.

Title: Construction Grants Delegation to States; OMB No. 2040-0095; approved for use through 12/31/96.

Abstract: The purpose of this ICR is to revise and extend the current clearance for the collection of information under the Construction Grants Program Delegation to States, 40 CFR Part 35 Subpart J, and Title II of the Clean Water Act (CWA). While the Construction Grants Program is being phased out and replaced by the State Revolving Loan Fund (SRF) program, collection activities for the Construction Grants Program must continue until program completion. The program includes reporting, monitoring and program requirements for municipalities and delegated States.

The information collection activities described in this ICR are authorized under Sections 205(g) and 518(e) of the Clean Water Act as amended, 33 USC 1251 et seq. and under 40 CFR Part 35 Subpart J. The requested information provides the minimum data necessary for the Federal government to maintain appropriate fiscal accountability for use of Section 205(g) construction grant funds. The information is also needed to assure adequate management overview of those State project review activities that are most important to fiscal and project integrity, design performance, Federal budget control, and attainment of national goals.

Managers at the State and Federal levels both rely on the information described in this ICR. State managers rely on the information for their own program and project administration. Federal managers rely on this information to assess, control, and predict the impacts of the construction grants program on the Federal Treasury and future budget requirements. Federal managers also use this information to respond to OMB and Congressional requests and to maintain fiscal accountability.

In addition, builders of wastewater treatment plants use the information discussed in this ICR. The builders of these plants assess and use the information in the Innovative/ Alternative Technology Data Base File to obtain technical information on innovative or alternative wastewater treatment systems.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submission of responses.

Burden Statement

Respondents: States and municipalities.

Estimated Number of Respondents: 44.

Title: Compliance Requirement for the Child-Resistant Packaging Act.

Abstract: Section 25 (c)(3) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) establishes standards for the packaging of pesticides or devices to protect children and adults from serious illness or injury resulting from accidental ingestion or contact with these pesticides or devices. These standards are designed to be consistent with those under the Poison Prevention Packaging Act, administered by the Consumer Product Safety Commission (CPSC). The Poison Prevention Packaging Act previously included the packaging of pesticides, but was amended in 1976 to exclude them and that responsibility now rests with EPA.

EPA's child-resistant packaging (CRP) regulations reference the CPSC packaging standards and protocol testing procedures for CRP to avoid duplicative testing of packages for pesticidal and nonpesticidal purposes.

To ensure that all pesticide registrants are in compliance with the revised effectiveness standards and protocol test procedures, by January 21, 1998 all registrants subject to CRP (unless exempted under 40 CFR 157.24) must submit (1) a new certification and (2) a description of the type of package used and its designation using the American Society for Testing and Materials (ASTM) Standard D3475-95 "Standard Classification of Child-Resistant Packages". The ASTM Standard D3475-95 provides uniform terminology and universal descriptions of various types of CRPs. The statements "I certify that the packaging used for this product meets the standards of 40 CFR 157.32, including the revised effectiveness standards in 16 CFR 1700.15(b), when tested by the revised testing procedures in 16 CFR 1700.20, as published in 60 FR 37710 (July 21, 1995)," and "the type of package is a (*describe closure*) with (*describe method of using closure*), ASTM Type ____ with a (*describe bottle*)," will suffice for this purpose.

After January 21, 1998 CRP certification will usually be conducted only when a registrant notifies EPA by application of their intention to either change packaging, enter the residential market, or otherwise become subject to CRP regulations.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.7 hours per response. This estimate includes the

time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search existing data sources; complete and review the collection of information; and transmit or otherwise disclose the information. No person is required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are displayed in 40 CFR Part 9.

Respondents/Affected Entities:

Registrants of household pesticides.

Estimated No. of Respondents: 449 registrants.

Estimated Total Annual Burden on Respondents: 763 hours.

Frequency of Collection: On occasion.

Dated: August 1, 1996.

Director, Regulatory Information Division.
