**Environmental Impact Statements and Regulations; Availability of EPA Comments**

Availability of EPA comments prepared July 22, 1996 Through July 26, 1996 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 05, 1996 (61 FR 15251).

Draft EISs

*ERP No. D-COE-G85180-LA Rating EC2, Estelle Plantation Partnership Municipal Golf Course and Housing Development, Implementation, Jefferson Parish, LA.*

*Summary:* EPA expressed environmental objections to the proposal and requested additional information in the final EIS. Additional information needed in the FEIS include: (1) the need for expanded alternative analysis, (2) development of purpose and need to support practicable alternative, (3) minimization of direct and secondary impacts, (4) lack of a mitigation plan to offset unavoidable impacts, (5) water quality management, and (6) lack of consideration of Executive Order 11990 (Wetlands Protection) and Executive Order 11988 (Floodplain Management).

*ERP No. D-NOA-C90016-NJ Rating EC2, Mullica River—Great Bay National Estuarine Research Reserve Establishment, Site Designation and Plan Implementation, Ocean, Atlantic and Burlington Counties, NJ.*

*Summary:* EPA expressed environmental concerns about the impacts that may be caused by construction and operation of the proposed facilities. Additional information to address this issue is requested in the final EIS.

*ERP No. D-USA-C11012-NJ Rating EC2, Evans Subpost Disposal and Reuse, Implementation, Fort Monmouth, Ocean and Monmouth Counties, NJ.*

*Summary:* EPA expressed environmental concerns about the

project's potential impacts to ground water and has requested additional information to address this issue in the final EIS.

*ERP No. D-USN-E11037-FL Rating EC2, Programmatic EIS—Mayport Naval Station, To Evaluate Facilities Development Necessary to Support Potential Aircraft Carrier Homporting, Duval County, FL.*

*Summary:* EPA expressed environmental concerns about ODMDS capacity and mounding effects, and impacts to the ozone maintenance area. EPA requested that these issue be addressed in the final document.

Final EISs

*ERP No. F-AFS-E65046-SC, Francis Marion National Forest Land and Resource Management Plan, Implementation, Charleston and Berkeley Counties, SC.*

*Summary:*

EPA's review found that the document adequately addressed impacts associated with the selected forest plan. No major objections to the selected plan were found.

*ERP No. F-FRC-C02000-PR, Eco Ele'ctrica Liquefied Natural Gas (LNG) Import Terminal and Electric Cogeneration Project Construction and Operation, Permits and Approvals, Guayanilla Bay, PR.*

*Summary:* EPA expressed environmental concerns involving site contamination. Accordingly, EPA requested that this issue be addressed in the project's authorization order.

*ERP No. F-TVA-E32075-TN, Upper Tennessee River Navigation Improvement Project, Rehabilitation and/or Construction, Chickamauga Dam—Navigation Lock Structural Improvement Alternative, Funding, NPDES Permit, Coast Guard Bridge Permit and COE Section 404 Permits, Tennessee River, Hamilton County, TN.*

*Summary:* EPA continued to express environmental concerns about the proposed project's potential for industrial development, comparison of water quality information to standards, NEPA discussion of proposed bridges, cumulative impact speculations, and noise level documentation.

Dated: August 5, 1996.

William D. Dickerson,  
Director, NEPA Compliance Division, Office  
of Federal Activities.

**Open Meeting of the Industrial Non-Hazardous Waste Stakeholders Focus Group**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of open meeting of the Industrial Non-Hazardous Waste Stakeholders Focus Group.

**SUMMARY:** As required by section 10 (a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), EPA is giving notice of the second meeting of the Industrial Non-Hazardous Waste Policy Dialogue Committee, also known as the Industrial Non-Hazardous Waste Stakeholders Focus Group. The purpose of this committee is to advise EPA and ASTSWMO (the Association of State and Territorial Solid Waste Management Officials) in developing voluntary guidance for the management of industrial nonhazardous waste in land-based disposal units. The Focus Group will facilitate the exchange of information and ideas among the interested parties relating to the development of such guidance. The purpose of the second meeting will be to continue discussion of issues related to development of such guidance. The agenda will include a discussion of tailoring management practices to risk, liner system designs, groundwater monitoring, location considerations, waste minimization, and public involvement. There will be an opportunity for limited public comment at the end of each day of the meeting.

**DATES:** The committee will meet on September 11-12, 1996, from 9:00 A.M. to 5:00 p.m. on September 11, and from 8:30 a.m. to 3:00 p.m. on September 12.

**ADDRESSES:** The location of the meeting is the Quality Hotel Arlington, 1200 Courthouse Road, Arlington, VA. The seating capacity of the room is approximately 60 people, and seating will be on a first-come basis. Supporting materials are available for viewing at Docket # F-96-INHA-FFFFF in the RCRA Information Center (RIC), located at Crystal Gateway One, 1235 Jefferson Davis Highway, First Floor, Arlington, VA. The RIC is open from 9:00 a.m. to 4:00 p.m., Monday through Friday, excluding federal holidays. To review docket materials, the public must make an appointment by calling (703) 603-9230. The public may copy a maximum of 100 pages from any regulatory docket at no charge. Additional copies cost \$.15/page. For general information, contact the RCRA Hotline at 1-800-424-9346 or TDD 1-800-553-7672 (hearing impaired). In the Washington

metropolitan area, call 703-412-9610 or TDD 703-412-3323.

**FOR FURTHER INFORMATION, CONTACT:**

Persons needing further information on the committee should contact Paul Cassidy, Municipal and Industrial Solid Waste Division, Office of Solid Waste, at (703) 308-7281.

**SUPPLEMENTARY INFORMATION:**

**Background**

EPA and ASTSWMO have formed a State/EPA Steering Committee to jointly develop voluntary facility guidance for the management of industrial nonhazardous waste in land-based disposal units. The purpose of the guidance is to recommend management practices that are environmentally sound, that are protective of public health, and that recognize opportunities for pollution prevention and waste minimization. The guidance will address such topics as appropriate groundwater monitoring and corrective action requirements, liner designs, daily operating requirements, and closure and post-closure practices.

The State/EPA Steering Committee has convened this Stakeholders Focus Group to obtain recommendations from individuals who are members of a broad spectrum of public interest groups and affected industries. All recommendations from Focus Group participants will be forwarded to the State/EPA Steering Committee for consideration, as the Stakeholders' Focus Group will not strive for consensus. The State/EPA Steering Committee will also provide an opportunity for public comment on the draft guidance document.

"Industrial nonhazardous waste" under the federal Resource Conservation and Recovery Act (RCRA) means waste that is neither municipal solid waste under RCRA Subtitle D nor a hazardous waste under RCRA Subtitle C. Industrial nonhazardous waste consists primarily of manufacturing process wastes, including wastewaters and non-wastewater sludges and solids.

EPA estimates there are 7.6 billion tons of industrial nonhazardous waste generated annually in the U.S. and disposed on-site by approximately 12,000 industrial facilities in surface impoundments, landfills, land application units, or waste piles. Most of this waste is managed in surface impoundments, which are designed to hold wastewaters. These wastes, which include inert materials as well as materials which may be declared hazardous at some future date, present a broad range of risk.

Under RCRA Subtitle D, the states are responsible for regulating the management of industrial nonhazardous waste. State requirements vary widely, and may include standards for design and operation, location, monitoring, and record keeping. This guidance is intended to complement existing state programs.

EPA's role in the management of industrial nonhazardous waste is very limited. Under RCRA Subtitle D, EPA issued minimal criteria prohibiting "open dumps" (40 CFR 257) in 1979. The states, not EPA, are responsible for implementing the "open dumping criteria," and EPA has no back-up enforcement role.

Copies of the minutes of all Stakeholder Focus Group meetings will be made available through the docket at the RCRA Information Center, including minutes of the first Focus Group meeting, which was held on April 11-12, 1996.

**Participants**

The Stakeholders Focus Group consists of approximately 25 members, who represent public interest groups, affected industries, states, and federal officials. Following is a list of representatives from the interested parties:

Public interest groups—Michael Gregory, Sierra Club; John Harney, Citizens Round Table/Pennsylvanians United to Rescue the Environment; and Richard Lowerre, Henry, Lowerre, Johnson, Hess & Frederick.

Industry sectors—Tim Saylor, International Paper; Gary Robbins, Exxon Company USA; Walter Carey, New Milford Farms/Nestle USA; Robert Giraud, Dupont Company; Paul Bork, Dow Chemical Company; Bruce Steiner, American Iron and Steel Institute; James Meiers, Indianapolis Power and Light Company; Andrew Miles, The Dexter Corporation; Scott Murto, General Motors Corporation; Lisa Williams, The Aluminum Association; Jonathan Greenberg, Browning-Ferris Industries; and Ed Skernolis, WMX Technologies, Inc.

States—James Warner, Minnesota Pollution Control Agency; Anne Dobbs, Texas Natural Resources Conservation Commission; Gene Mitchell, Wisconsin Department of Natural Resources; and Bill Pounds, Pennsylvania Department of Environmental Resources.

Federal officials—Paul Cassidy, Deborah Dalton, Robert Dellinger, Richard Kinch, John Sager and Carol Weisner of the U.S. Environmental Protection Agency.

Dated: August 1, 1996.

Michael H. Shapiro,

*Director, Office of Solid Waste.*

**Final NPDES General Permit for New and Existing Sources in the Offshore Subcategory of the Oil and Gas Extraction Category for the Western Portion of the Outer Continental Shelf of the Gulf of Mexico (GMG290000)**

**AGENCY:** United States Environmental Protection Agency.

**ACTION:** Final issuance of NPDES general permit.

**SUMMARY:** Region 6 of the United States Environmental Protection Agency (EPA) today issues a National Pollutant Discharge Elimination System (NPDES) General Permit for the Oil and Gas Extraction Point Source Category in the Western Portion of the Outer Continental Shelf (OCS) of the Gulf of Mexico. The permit authorizes discharges from New Sources in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category (40 CFR Part 435, Subpart A) located in and discharging pollutants to federal waters in lease blocks located seaward of the outer boundary of the territorial seas of Louisiana and Texas as well as produced water discharges to federal waters from New Source facilities located in the territorial seas offshore of Louisiana and Texas.

The New Source General Permit (GMG390000) is also being combined with the existing NPDES general permit for the Western Gulf of Mexico OCS general permit (GMG290000) since the conditions of the New Source permit are essentially the same as those of the existing Western Gulf of Mexico OCS general permit. The NPDES permit number of this combined permit is hereby designated as GMG290000. The existing permit (58 FR 63964, December 3, 1993) authorizes discharges in the Offshore Subcategory of the Oil and Gas Extraction Point Source Category (40 CFR Part 435, Subpart A) from new dischargers and existing dischargers to the Western Portion of the Outer Continental Shelf (OCS) of the Gulf of Mexico. The effect of this action will be to expand the coverage of GMG290000 to cover both New Sources and existing dischargers. The combined permit's expiration date will be November 18, 1997, since that is the expiration date of the existing General Permit for the Western Gulf of Mexico OCS.
