

NRCS may also place higher priority on certain geographic regions or other factors where enrollment of particular lands may better achieve NRCS State and regional goals and objectives, or where participation would further existing governmental or private conservation projects. NRCS will give preference to acquisition of easements or interests in land where the cooperating entity shares the greater costs of enrolling such land.

#### Cooperative Agreements

The CCC will use a cooperative agreement with a State, Tribe, or unit of local government as the mechanism for participation in the FPP. The cooperative agreement will address: (1) The interests in land to be acquired; (2) the management and enforcement of rights; (3) the technical assistance that may be provided by the NRCS; (4) the holder of the easement or other interests in the land enrolled in the FPP; and (5) other requirements deemed necessary by CCC to protect the interests of the United States.

**Type of Request:** New collection.

**Burden:** 805,067 hours.

**Number of Respondents:** 100,000.

**Needs and Uses:** The economic census is the primary source of facts about the structure and functioning of the Nation's economy and features unique industry and geographic detail. The 1997 Commodity Flow Survey, a component of the Economic Census, will produce key statistics on the movement of freight in the United States. In the past, these types of data were used primarily by governmental agencies in planning for transportation infrastructure. Now these types of data are becoming increasingly important to the business sector for making decisions related to marketing and transportation strategies. The Commodity Flow Survey will be conducted with the guidance and co-sponsorship of the Bureau of Transportation Statistics, Department of Transportation. A sample of business establishments in mining, manufacturing, wholesale, and selected retail industries will receive, by mail, four questionnaires—one during each quarter of 1997. On each form, an establishment will be asked to report data for an average of 25 shipments selected during a designated one-week reporting period. This survey will provide a range of transportation

statistics including value of shipments, weight of shipments, commodities shipped, mode(s) of transportation used, origin and destination of shipments, ton-miles and average miles per shipment. The Census Bureau will publish shipment characteristics at the national, state, and National Transportation Analysis Region levels.

*Affected Public:* Businesses or other for profit institutions.

*Frequency:* Quarterly during 1997.

*Respondent's Obligation:* Mandatory.
