## International Trade Administration

[A-301-602]

### Certain Fresh Cut Flowers from Colombia: Extension of Time Limit of Antidumping Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce (the Department) is extending the time limit for the preliminary results in the administrative review of the antidumping duty order on certain fresh cut flowers (flowers) from Colombia, covering the period March 1, 1995, through February 29, 1996, since it is not practicable to complete the review within the time limits mandated by the Tariff Act of 1930 (the Act), as amended, 19 U.S.C. 1675(a)(3)(A).

**EFFECTIVE DATE:** August 21, 1996.

**FOR FURTHER INFORMATION CONTACT:** Elizabeth Graham or Carole Showers, Import Administration, U.S. Department of Commerce, Room 3099, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482-4105 or 482-3217, respectively.

### Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended (the Act), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations are to the current regulations, as amended by the interim regulations published in the Federal Register on May 11, 1995 (60 FR 25130).

### SUPPLEMENTARY INFORMATION:

#### Background

On April 22, 1996, the Department initiated an administrative review of the antidumping duty order on flowers from Colombia, covering the period March 1, 1995, through February 29, 1996 (61 FR 17685). In our notice of initiation, we stated that we intended to issue the final results of this review no later than March 31, 1997.

#### Postponement of Preliminary Results of Review

Section 751(a)(3)(A) of the Act requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not

practicable to issue the preliminary results in 245 days, section 751(a)(3)(A) allows the Department to extend this time period to 365 days.

We determine that it is not practicable to issue the preliminary results within 245 days because the review involves collecting and analyzing information from a large number of companies. Further, there are new legal issues to address because this is the first review of this antidumping duty order under the new law.

Accordingly, the deadline for issuing the preliminary results of this review is now no later than March 31, 1997. The deadline for issuing the final results of this review will be 120 days from the publication of the preliminary results.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: August 15, 1996.

Susan H. Kuhbach,

*Acting Deputy Assistant Secretary, Import Administration.*

**Title:** Interferometric Thickness Variation Test Method For Windows and Silicon Wafers Using a Diverging Wavefront

**Description:** A non-contact method of using an infrared interferometer for determining a full aperture map of thickness variation and central thickness of silicon wafers and windows. The IR interferometer maps the thickness variation over the entire wafer surface in one rapid measurement. A second measurement with the same device determines the central thickness of the wafer. If the wafer has substantial bow, a third measurement with the wafer reversed permits determination of the bow and separation of its effect from the thickness variation measurement.
