

*Purpose of the Meeting*

At this meeting, the Committee will conduct a review, hold a consultation, hear the report of the SITE Subcommittee, and consider potential FY96 activities.

The Office of Research and Development (ORD) has asked the Committee to review the strategic directions and approach to research of the National Risk Management Research Laboratory (NRMRL) in the context of both the 1995 realignment of ORD's organizational structure, which used risk assessment and risk management as organizing principles for a nationwide laboratory system and the Strategic Plan for the Office of Research and Development (EPA, 1996). The Strategic Plan describes the relationship of risk assessment to the risk management process and highlights the need for scientific and engineering research to enable sound risk management decisions and actions. NRMRL's mission is to conduct research to reduce uncertainties and costs associated with making and implementing environmental risk management decisions. An abbreviated form of the current draft charge for this review follows.

1. Examine and critique the research programmatic directions being taken by NRMRL.

2. Review and comment on NRMRL's strategic directions as a research laboratory organization.

3. Review and comment on the effectiveness of NRMRL's approach to science management.

4. Examine and critique the relationship of NRMRL's risk management research to the intended role of risk management in the risk assessment/risk management paradigm.

5. Review and comment on the strategic balance needed in NRMRL for the next decade among pollution prevention, technology development, remediation, and risk management assessment activities.

The EEC will provide a consultation to the Office of Solid Waste (OSW) on a proposed surface impoundment study. The OSW is also soliciting public comments on the study through an announcement entitled "Land Disposal Program Flexibility Act of 1996—Surface Impoundment Study" in the July 25, 1996 Federal Register, Vol. 61, No. 144, pages 38684–38687. An SAB

consultation is a public encounter between the SAB and the Agency early in the process, before the Agency has committed itself to a position. The intent of a consultation is to leaven the Agency's thinking by amassing an eclectic collection of ideas about how the Agency might proceed on a particularly vexing problem. The product of a consultation is a very short letter to the Administrator, simply alerting him/her to the fact that the members of an SAB panel had met with the Agency to discuss the issue. There will be no "report" per se.

The SITE Subcommittee will report to the EEC on its review of the technical aspects of how EPA's Superfund Innovative Technology Evaluation (SITE) program is carried out.

*For Further Information*

A draft meeting agenda and a Committee roster can be obtained from Mrs. Dorothy Clark, as described above for the RROS meeting. Other information can be obtained from Mrs. Kathleen Conway, as described above. Members of the public who wish to make a brief oral presentation to the Committee must contact Mrs. Conway in writing (by letter or by fax—see previously stated information) no later than 12 noon Eastern Time, Thursday, September 22, 1996 in order to be included on the Agenda. Except for this date, the requirements for public comments are the same as those for the RROS meeting, described above.

*Providing Oral or Written Comments at SAB Meetings*

The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements. In general, each individual or group making an oral presentation will be limited to a total time of ten minutes. Written comments (at least 35 copies) received in the SAB Staff Office sufficiently prior to a meeting date, may be mailed to the relevant SAB committee or subcommittee prior to its meeting; comments received too close to the meeting date will normally be provided to the committee at its meeting. Written comments may be provided to the relevant committee or subcommittee up until the time of the meeting.

Dated: August 9, 1996.

Donald G. Barnes,

*Staff Director, Science Advisory Board.*

**Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

**DATES:** Unless a request is withdrawn by November 19, 1996 orders will be issued cancelling all of these registrations.

**FOR FURTHER INFORMATION CONTACT:** By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5761; e-mail: hollins.james@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:****I. Introduction**

Section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, provides that a pesticide registrant may, at any time, request that any of its pesticide registrations be cancelled. The Act further provides that EPA must publish a notice of receipt of any such request in the Federal Register before acting on the request.

**II. Intent to Cancel**

This notice announces receipt by the Agency of requests to cancel some 43 pesticide products registered under section 3 or 24(c) of FIFRA. These registrations are listed in sequence by registration number (or company number and 24(c) number) in the following Table 1.

### III. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before November 19, 1996. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

### IV. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in Federal Register (56 FR 29362) June 26, 1991; [FRL 3846-4]. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-

specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

### Notice of Receipt of Requests for Amendments to Delete Uses in Certain Pesticide Registrations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request for amendment by registrants to delete uses in certain pesticide registrations.

**DATES:** Unless a request is withdrawn, the Agency will approve these use deletions and the deletions will become effective on November 19, 1996.

**FOR FURTHER INFORMATION CONTACT:** By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5761.

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further
