III. Procedures for Withdrawal of Request

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to James A. Hollins, at the address given above, postmarked before November 19, 1996. This written withdrawal of the request for cancellation will apply only to the applicable 6(f)(1) request listed in this notice. If the product(s) have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling. The withdrawal request must also include a commitment to pay any reregistration fees due, and to fulfill any applicable unsatisfied data requirements.

IV. Provisions for Disposition of Existing Stocks

The effective date of cancellation will be the date of the cancellation order. The orders effecting these requested cancellations will generally permit a registrant to sell or distribute existing stocks for 1 year after the date the cancellation request was received. This policy is in accordance with the Agency's statement of policy as prescribed in Federal Register (56 FR 29362) June 26, 1991; [FRL 3846-4]. Exceptions to this general rule will be made if a product poses a risk concern, or is in noncompliance with reregistration requirements, or is subject to a data call-in. In all cases, product-

specific disposition dates will be given in the cancellation orders.

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which have been packaged, labeled, and released for shipment prior to the effective date of the cancellation action. Unless the provisions of an earlier order apply, existing stocks already in the hands of dealers or users can be distributed, sold or used legally until they are exhausted, provided that such further sale and use comply with the EPA-approved label and labeling of the affected product(s). Exceptions to these general rules will be made in specific cases when more stringent restrictions on sale, distribution, or use of the products or their ingredients have already been imposed, as in Special Review actions, or where the Agency has identified significant potential risk concerns associated with a particular chemical.

Notice of Receipt of Requests for Amendments to Delete Uses in Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of request for amendment by registrants to delete uses in certain pesticide registrations.

DATES: Unless a request is withdrawn, the Agency will approve these use deletions and the deletions will become effective on November 19, 1996.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5761.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be amended to delete one or more uses. The Act further

provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the Federal Register. Thereafter, the Administrator may approve such a request.

II. Intent to Delete Uses

This notice announces receipt by the Agency of applications from registrants to delete uses in the 17 pesticide registrations listed in the following Table 1. These registrations are listed by registration number, product names, active ingredients and the specific uses deleted. Users of these products who

desire continued use on crops or sites being deleted should contact the applicable registrant before November 19, 1996 to discuss withdrawal of the applications for amendment. This 90-day period will also permit interested members of the public to intercede with registrants prior to the Agency approval of the deletion.

Proposed De Minimis Settlement Under Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as Amended, Bonifield Brothers Superfund Site, St. Louis, Missouri

AGENCY: Environmental Protection Agency.

ACTION: Notice of proposed *de minimis* settlement under Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as amended, Bonifield Brothers Superfund Site, St. Louis, Missouri.

SUMMARY: The United States Environmental Protection Agency (EPA) is proposing to enter into a *de minimis* administrative settlement to resolve claims under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), as amended, 42 U.S.C. 9622(g). This settlement is intended to resolve the potential liability of 3529 Hickory, Inc. and Gateway Airgas, Inc. for the response costs incurred in connection with the Bonifield Brothers Superfund Site, St. Louis, Missouri (the "Site").

DATES: Written comments must be provided on or before September 20, 1996.

ADDRESSES: Comments should be addressed to the Regional Administrator, United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101 and should refer to: In the Matter of the Bonifield Brothers Site, St. Louis, Missouri, EPA Docket No. 96-F-0024.

FOR FURTHER INFORMATION CONTACT: J. Scott Pemberton, Senior Assistant Regional Counsel, United States Environmental Protection Agency, Region VII, 726 Minnesota Avenue, Kansas City, Kansas 66101, (913) 551-7276.

SUPPLEMENTARY INFORMATION: The proposed settling parties are 3529 Hickory, Inc., the current owner of the property that constitutes the Bonifield Brothers Dioxin Site located at 3529 Hickory Street, St. Louis, Missouri, and Gateway Airgas, Inc., a successor corporation to the Acetylene Gas Company (AGC). Sometime during the period from 1971 to 1973, the Site was sprayed for dust control with waste oil contaminated with 2,3,7,8 tetrachlorodibenzo-p-dioxin ("dioxin"), when it was owned and operated by Bonifield Brothers Company as a truck terminal. In April 1976, AGC acquired the Site property from the Bonifield Brothers Company for use as a manufacturing and storage facility as part of its gas operation. Based upon current information, AGC purchased the property without knowledge that it was contaminated with dioxin. On January 16, 1996, the sole owners of the stock of AGC formed 3529 Hickory, Inc., a wholly-owned subsidiary of AGC. On January 19, 1996, AGC transferred ownership of the Site property to 3529 Hickory, Inc., whose sole asset is the Site property. Also on January 19, 1996, AGC merged with and into Gateway Airgas, Inc., whereupon the corporate existence of AGC ceased.

AGC paved the Site property with asphalt in 1977. AGC utilized the Site

property until 1982 when it became aware of the dioxin contamination. Since 1982, the property has been used only for parking and heliport purposes.

Analytical results from sampling at the Site by the City of St. Louis on April of 1984 revealed dioxin contamination ranging from 12.9 parts per billion (ppb) to 55.8 ppb. Analytical results from samples collected in May 1990 revealed wide variations in dioxin concentrations, up to 1445 ppb.

On September 20, 1995, the Regional Administrator, EPA Region VII, issued an Action Memorandum approving a removal action at the Site. Following the excavation of the asphalt cap and gravel layer, the Site soils were sampled. All soils contaminated above 1 ppb were excavated and transported to Times Beach, Missouri for incineration. Excavation and transportation of contaminated soils from the Site was completed on December 20, 1995.

The proposed settlement provides access to 3529 Hickory, Inc.'s property to EPA, its employees or any other duly authorized representatives to enter and perform environmental response actions upon the property pursuant to the provisions of CERCLA Section 104. In addition, 3529 Hickory, Inc. has agreed to require any lessee or transferee of its property, as a term of any sale, lease or other transfer, to grant access as set forth above.

The proposed settlement involves no financial terms; the proposed settling parties are required only to provide access. The proposed *de minimis* settlement provides that EPA will covenant not to sue 3529 Hickory, Inc. and Gateway Airgas, Inc. for response costs at the Site or for injunctive relief pursuant to Sections 106 and 107 of CERCLA and Section 7003 of the Resource Conservation and Recovery Act of 1980, as amended (RCRA), 42 U.S.C. 6973. The proposed settlement contains a reopener clause which nullifies the covenant not to sue if any information becomes known to EPA that indicates that 3529 Hickory, Inc. or Gateway Airgas, Inc. (1) conducted or
