# LIST OF CASES RECEIVED BY THE OFFICE OF HEARINGS AND APPEALS—Continued [Week of July 15 through July 19, 1996]

Date	Name and location of applicant	Case No.	Type of submission
7/16/96	Rocky Flats Field Office, Golden, Colorado	VSO-0105	Request for Hearing under 10 C.F.R. Part 710. If granted: An individual employed at Rocky Flats Field Office would receive a hearing under 10 C.F.R. Part 710.
7/17/96	Michael A. Grosche, Norwalk, Connecticut	VFA-0193	Appeal of an Information Request Denial. If granted: The June 7, 1996 Freedom of Information Request Denial issued by the Office of the Inspector General would be rescinded, and Michael A. Grosche would receive access to certain DOE information.
7/17/96	Paul McGinnis, Huntington Beach, California.	VFA-0194	Appeal of an Information Request Denial. If granted: The June 17, 1996 Freedom of Information Request Denial issued by the Nevada Operations Office would be rescinded, and Paul McGinnis would receive access to certain DOE information.
7/19/96	Lee Oil Company, Greensboro, North Carolina.	VEE-0030	Exception to the Reporting Requirements. If granted: Lee Oil Company would not be required to file Form EIA–782B, "Resellers'/Retailers' Monthly Petroleum Product Sales Report."

# REFUND APPLICATIONS RECEIVED [Week of July 15 through July 19, 1996]

Date received	Name of refund proceeding/name of refund applicant	Case No.
7/15/96 thru 7/19/96	MacMillan Oil Refund Applications	RF355–28 thru RF355–34
7/15/96 thru 7/19/96	Crude Oil Refund Applications	RG272–1026 thru RG272–1036
7/15/96 thru 7/19/96	Crude Oil Refund Applications	RK272–3833, RK272–3841

### ENVIRONMENTAL PROTECTION AGENCY

[FRL-5560-9]

Agency Information Collection Activities: Submission For OMB Review; Comment Request; Operating Permits Regulations

**AGENCY:** Environmental Protection

Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Part 70 Operating Permits Regulations, EPA ICR Number 1587.05, OMB Control Number 2060–0243, expiring September 30, 1996. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

**DATES:** Comments must be submitted on or before September 26, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260–2740, and refer to EPA ICR Number 1587.04.

#### SUPPLEMENTARY INFORMATION:

Title: Part 70 Operating Permits Regulations, EPA ICR Number 1587.04, OMB Control Number 2060–0243, expiring September 30, 1996. This is a request for a revision to an existing collection.

Abstract: The information found in this ICR is required for the submittal of a complete permit application, as well as for the periodic reporting and recordkeeping necessary to maintain that permit once it has been approved. Under a fully functional permit program, the permitting authority, primarily States and local authorities, collect this information from air pollution sources. This information allows the permitting authority and the Federal government to manage air resources. The EPA certifies that the information collection is necessary for the proper performance of EPA's functions, and that it has practical utility; is not unnecessarily duplicative of information EPA otherwise can reasonably access; and reduces, to the extent practicable and appropriate, the

burden on persons providing the information to or for EPA.

Within 12 months of the effective date of a part 70 program (i.e., the approval of that program by EPA), all sources subject to the part 70 operating permits program must submit complete permit applications to the permitting authority (section 503(c)). Permitting authorities must submit to EPA all proposed and final permits and any permit applications, or portions thereof, necessary to carry out EPA's responsibilities (section 505(a)(1)). No less often than every 6 months sources must submit to the permitting authority the results of any required monitoring or other information necessary to assure compliance with applicable requirements (section 504(b)).

In accordance with title V, the information submitted by sources as a part of their applications for revisions and renewals is a matter of public record. To the extent that the information required for the completeness of a permit is proprietary, confidential, or of a nature that it could impair the ability of the source to maintain its market position, that information is collected and handled subject to the requirements of section 503(e) and section 114(c) of the Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 13, 1996 (61 FR 30061); no comments were received.

Burden Statement: There are an estimated 25,547 sources subject to the operating permits program. The annual public reporting and recordkeeping burden for this collection of information is estimated to average 211 hours per source. This reflects all the information reporting activities associated with this collection. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:
Sources subject to the operating permits program.

Estimated Number of Respondents: 25,659.

Frequency of Response: One-time and semiannual.

Estimated Total Annual Hour Burden: 5.3 million hours.

Estimated Total Annualized Cost Burden: \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR Number 1587.05 and OMB Control Number 2060–0243 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW., Washington, DC 20460 and

Office of Information and Regulatory Affairs, Office of Management and Budget; Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

Dated: August 22, 1996.

Richard Westlund,

Acting Director, Regulatory Information Division.

### Control Techniques Guidelines for Shipbuilding and Ship Repair Operations (Surface Coating)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of release of control techniques guidelines (CTG).

SUMMARY: The CTG for control of volatile organic compound (VOC) emissions from surface coating operations in the shipbuilding and ship repair industry is available to assist States in analyzing and determining reasonably available control technology (RACT) for shipbuilding and ship repair operations located within ozone national ambient air quality standards (NAAQS) nonattainment areas. The CTG also sets forth the adoption and implementation dates for RACT. The CTG for Shipbuilding and Ship Repair Operations (Surface Coating) is not being issued as a stand-alone document. Rather, it is a combination of the information contained in this notice and in the EPA's previously published alternative control techniques (ACT) document for this emission source category.

EFFECTIVE DATE: Any State that has not adopted an approvable RACT regulation for the source category addressed by this CTG must submit a RACT regulation for these sources within one year from the date of publication of this action in the Federal Register. For any State that has adopted an approvable RACT regulation for the source category addressed by this CTG, Section 182(b)(2) of the Clean Air Act (CAA) requires these States to

submit a revision to the applicable implementation plan, to include provisions that require the implementation of RACT. This revision shall be submitted to the EPA not later than August 27, 1997. Furthermore, all States must require sources to implement the required limitations and work practices under these adopted RACT regulations not later than August 27, 1998.

ADDRESSES: Alternative Control Techniques (ACT) Document. The EPA published the ACT document for surface coating operations at shipbuilding and ship repair facilities in April 1994. A copy of the ACT document may be obtained from the National Technical Information Services (NTIS), 5285 Port Royal Road Springfield, Virginia 22161, telephone number (800) 553-NTIS. Specify the following title when ordering: "Alternative Control Techniques **Document: Surface Coating Operations** at Shipbuilding and Ship Repair Facilities" (EPA 453/R-94-032).

Docket: Following publication of the ACT document, the recommended RACT was developed concurrently with maximum achievable control technology (MACT), on which standards issued under Section 112 of the CAA were based. The rulemaking docket, No. A-92-11, is available for inspection and copying from 8 a.m. to 5:30 p.m., Monday through Friday, at the EPA's Air and Radiation Docket and Information Center, Waterside Mall, Room M-1500, Ground Floor, 401 M Street, SW, Washington, DC 20460; telephone number (202) 260-7548, FAX (202) 260-4400. A reasonable fee may be charged for copying.

FOR FURTHER INFORMATION CONTACT: Dr. Mohamed Serageldin at (919) 541–2379, Coatings and Consumer Products Group, Emission Standards Division (MD–13), U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711.

SUPPLEMENTARY INFORMATION: Potentially Affected Entities. Entities potentially affected by this action are those shipbuilding and ship repair operations which are (or have the potential to become) "major" sources of VOC emissions and are located in nonattainment areas of ozone.

Category	Examples of potentially affected entities
Industry	Any building or repairing, repainting, converting, or alteration of ships. The term ship means any marine or fresh-water vessel, including self-propelled by other craft (barges), and navigational aids (buoys).  Note: Offshore oil and gas drilling platforms and vessels used by individuals for noncommercial, non-military, and recreational purposes that are less than 20 meters in length are not considered ships.
