**Public Land Order No. 7214; Partial
Revocation and Modification of Public
Land Order No. 5279; Arizona**

AGENCY: Bureau of Land Management,
Interior.

ACTION: Public land order.

SUMMARY: This order revokes a public land order insofar as it affects 103.81 acres of National Forest System lands withdrawn for the Payson Administrative Site and the Cline Cabin Wildlife Enclosure. The revocation is needed to accommodate a proposed land exchange. Of the 103.81 acres being revoked, 63.81 acres are temporarily closed to mining by a Forest Service land exchange proposal, and 40 acres will be opened to mining. This order also modifies the withdrawal on the remaining 296.41 acres to establish a 20-year term under which these lands would remain closed to mining. All of the lands have been and will remain open to mineral leasing.

EFFECTIVE DATE: September 16, 1996.

FOR FURTHER INFORMATION CONTACT: Cliff Yardley, BLM Arizona State Office, P.O. Box 16563, Phoenix, Arizona 85011, 602-650-0509.

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714 (1988), it is ordered as follows:

1. Public Land Order No. 5279, which withdrew lands for an administrative site and a wildlife enclosure, is hereby revoked insofar as it affects the following described lands:

2. The land described under Paragraph 1a above is temporarily segregated by a pending land exchange and will not be opened at this time.

3. At 10 a.m. on October 7, 1996 the land described under Paragraph 1b above will be opened to location and entry under the United States mining laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law.

Appropriation of any of the land described under Paragraph 1b of this order under the general mining laws prior to the date and time of restoration is unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38 (1988), shall vest no rights against the United States. Acts required to establish a location and to initiate a right of possession are governed by State law where not in conflict with Federal law. The Bureau of Land Management will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

4. Public Land Order No. 5279 is hereby modified to expire 20 years from the effective date of this order unless, as a result of a review conducted before the expiration date pursuant to Section 204(f) of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714(f) (1988), the Secretary determines that the withdrawal shall be extended insofar as it affects the following described land:

National Park Service

Niobrara/Missouri National Scenic Riverways

AGENCY: National Park Service, Interior.

ACTION: Availability of final environmental impact statement for Niobrara National Scenic River in Brown, Cherry, Keya Paha, and Rock counties, Nebraska.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, the National Park Service (NPS) announces the availability of a final environmental impact statement (FEIS) for the Niobrara National Scenic River. The draft environmental impact statement for the scenic river was on 45-day public review from April 5 to May 20, 1996.

The NPS will manage a 76-mile section of the Niobrara River. The action is in response to a mandate by Congress in P.L. 102-50, an amendment to the Wild and Scenic Rivers Act (16 U.S.C. 1271-1287) designating 40 miles of the river from Borman Bridge downstream to Chimney Creek, and a 30 mile section from Rock Creek to the Highway 137 bridge as a National Scenic River. A 6-mile segment from Chimney Creek to Rock Creek could be added after May 24, 1996 if no water resources projects were proposed within that section. The plan recommends the 6-mile addition. The FEIS was prepared by the NPS.

The NPS's preferred alternative for the Niobrara National Scenic River is identified in the FEIS as Alternative B: Local Council Management with Federal Funding. Under the preferred alternative a local council would be developed by the county commissions of Brown, Cherry, Keya Paha, and Rock counties. The local council and the National Park Service would sign a cooperative agreement giving the council certain management responsibilities along the scenic river. Three other alternatives were also considered: The no action alternative; an alternative under which the National Park Service would coordinate management of the river through cooperative agreements with private landowners and public agencies; and an

alternative calling for direct National Park Service management.

DATES: The 30-day no action period for review of the FEIS will end on October 7, 1996. A record of decision will follow the no action period.
