

Evaluation by the NRC Office of Nuclear Reactor Regulation.

The Decommissioning Plan supplements the IP-1 Safety Analysis Report. Accordingly, a license condition has been added allowing the licensee to make changes to the Decommissioning Plan and Safety Analysis Report after performing a review based upon criteria similar to the criteria of Title 10 of the Code of Federal Regulations (10 CFR 50.59) to ensure that such changes do not involve an unreviewed safety question.

The Commission has prepared an Environmental Assessment and Finding of No Significant Impact for the proposed action. The Commission has determined that the proposed action will not result in any significant environmental impact and that an environmental impact statement need not be prepared. The Notice of Issuance of Environmental Assessment was published in the Federal Register on January 31, 1996.

Accordingly, pursuant to Sections 103, 161b, 161i, and 161o of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.82, the Commission approves the proposed Decommissioning Plan, dated October 17, 1980, as revised, and authorizes decommissioning of the IP-1 facility in accordance with the Decommissioning Plan and the Commission's rules and regulations, subject to the following conditions:

(a)(1) The approved Decommissioning Plan supplements the Final Safety Analysis Report (FSAR) and the licensee may (i) make changes in the facility or procedures as described in the FSAR or the Decommissioning Plan and (ii) conduct tests, or experiments not described in the FSAR or Decommissioning Plan, without prior Commission approval, unless the proposed changes, tests or experiments involve (a) a change in the Technical Specifications (TSs) incorporated in the license or (b) an unreviewed safety question, or (c) major dismantlement activities such as removal of the reactor pressure vessel or other major radioactive components.

(2) A proposed change, test, or experiment shall be deemed to involve an unreviewed safety question (i) if the probability of occurrence or the consequences of an accident or malfunction of equipment important to safety previously evaluated in the FSAR and/or the Decommissioning Plan may be increased or (ii) if the possibility of an accident or malfunction of a different type than evaluated previously in the FSAR and/or the Decommissioning Plan may be created; or (iii) if the margin of

safety as defined in the basis for any TS is reduced.

(b)(1) The licensee shall maintain records of changes in the facility and of changes in procedures made pursuant to this section if these changes constitute changes in the facility or procedures as described in the FSAR or Decommissioning Plan. The licensee shall also maintain records of tests and experiments carried out pursuant to paragraph (a) of this section. These records must include a written safety evaluation that provides the basis for determining that the changes, tests, or experiments do not involve an unreviewed safety question.

(2) The licensee shall annually submit, as specified in 10 CFR 50.4, a report containing a brief description of any changes, tests, and experiments, including summaries of the safety and environmental evaluation of each.

(3) The licensee shall maintain the records of changes in the facility until the date of termination of the license and shall maintain the records of changes in procedures and records of tests and experiments for 3 years.

(c) If the licensee desires (1) a change in the TSs, or (2) to (i) make a change in the facility or the procedures described in the FSAR or Decommissioning Plan, or (ii) conduct tests or experiments that are not described in the FSAR or Decommissioning Plan, and such changes, tests, or experiments involve an unreviewed safety question, a change in the TSs, or major dismantlement activities, the licensee shall submit an application to amend its license pursuant to 10 CFR 50.90.

For further details with respect to this action, see: (1) The licensee's application for authorization to decommission the facility, dated October 17, 1980, as revised; (2) Amendment No. to License No. DPR-5; (3) the related NRC Safety Evaluation; and (4) the NRC Environmental Assessment and Finding of No Significant Impact. These documents are available for public inspection at the NRC Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, and at the White Plains Public Library, 100 Martine Avenue, White Plains, New York.

Dated at Rockville, Maryland, this 31st day of January 1996.

BILLING CODE 7590-01-P

## **Documents Containing Reporting or Recordkeeping Requirements: Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review or continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: Grant/Cooperative Agreement Provisions.

2. Current OMB approval number: 3150-0107.

3. How often the collection is required: On occasion, one time.

4. Who is required or asked to report: Recipients of NRC grants or cooperative agreements.

5. The number of annual respondents: 216.

6. The number of hours needed annually to complete the requirement or request: 1068.5.

7. Abstract: The Division of Contracts uses provisions, required to obtain or retain a benefit in its awards and cooperative agreements to ensure: adherence to Public Laws, that the Government's rights are protected, that work proceeds on schedule, and that disputes between the Government and the recipient are settled.

Submit by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, 2120 L Street, NW, (lower level), Washington DC.

Members of the public who are in the Washington, DC, area can access this document via modem on the Public Document Room Bulletin Board (NRC's

Advanced Copy Document Library), NRC subsystem at FedWorld on 703-321-3339. Members of the public who are located outside the Washington, DC, area can dial FedWorld, 1-800-303-9672, or use the FedWorld Internet address: fedworld.gov (Telnet). The document will be available on the bulletin board for 30 days after the signature date of this notice. If assistance is needed in accessing the document, please contact the FedWorld help desk at 703-487-4608.

Comments and questions may be directed to the NRC Clearance Officer, Brenda Jo. Shelton, U.S. Nuclear Regulatory Commission, T-6 F33, Washington, D.C., 20555-0001, (301) 415-7233, or by Internet electronic mail at BJS1@NRC.GOV.

Dated at Rockville, Maryland, this 30th day of January, 1996.

#### **Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 33, "Specific Domestic Licenses of Broad Scope for Byproduct Material".

2. Current OMB Approval Number: 3150-0015.

3. How often the collection is required: There is a one-time submittal of information to receive a license. Once a specific license has been issued, there is a 5-year resubmittal of the information for renewal of the license.

4. Who is required or asked to report: All applicants requesting a license of broad scope for byproduct material and all current licensees requesting renewal of a broad scope license.

5. The number of annual respondents: 177 NRC broad scope licensees and 354 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 4,425 hours for NRC licensees and 8,850 hours for Agreement State licensees.

7. Abstract: 10 CFR Part 33 contains mandatory requirements for the issuance of a broad scope license authorizing the use of byproduct material. The subparts cover specific requirements for obtaining a license of broad scope. These requirements include equipment, facilities, personnel, and procedures adequate to protect health and minimize danger to life or property.

Submit, by April 8, 1996, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the burden estimate accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

#### **Documents Containing Reporting or Recordkeeping Requirements; Notice of Pending Submittal to the Office of Management and Budget (OMB) for Review**

**AGENCY:** U. S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

**SUMMARY:** The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 31, "General Domestic Licenses for Byproduct Material".

2. Current OMB Approval Number: 3150-0016.

3. How often the collection is required: Reports are submitted as events occur. Registration certificates may be submitted at any time. Changes to the information on the registration certificate are submitted as they occur.

4. Who is required or asked to report: Persons desiring to own byproduct material and persons desiring to possess and use byproduct material in certain items.

5. The number of annual respondents: 170 NRC licensees and 340 Agreement State licensees.

6. The number of hours needed annually to complete the requirement or request: 2,634 hours for NRC licensees and 5,265 hours for Agreement State licensees.

7. Abstract: 10 CFR Part 31 establishes general licenses for the possession and use of byproduct material in certain items and a general license for ownership of byproduct material. General licensees are required to keep records and submit reports identified in Part 31 in order for NRC to determine with reasonable assurance that devices are operated safely and without radiological hazard to users or the public. The revision reflects an overall increase in burden. There has been a decrease in burden for NRC licensees, due to a smaller number of general
