Decision List No. 958

Personnel Security Hearings

Albuquerque Operations Office, 2/5/95, VSO-0063

An Office of Hearings and Appeals Hearing Officer issued an opinion in a personnel security case involving a contractor employee at Los Alamos National Laboratory. Based upon the record, the opinion recommends against granting the employee an access authorization. In particular, the opinion concludes that neither the testimony of lay witnesses nor generally applicable published material is sufficient to rebut the informed, first-hand medical testimony of two board certified DOE-consultant psychiatrists, i.e., that the individual is a habitual user of alcohol to excess without adequate evidence of rehabilitation or reformation.
