Proposed Data Collection: Comment Request

Title of Proposed Collection: Evaluation of the Instructional Materials Development Program.

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the National Science Foundation (NSF) will publish periodic summaries of proposed projects. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, call the NSF Clearance Officer on (703) 306-1243.

Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology.

Abstract: Evaluation of the Instructional Materials Development Program classroom practice in elementary and secondary schools is closely linked with curriculum and instructional materials. Consequently, those who seek to improve educational opportunities and attainment appropriately include a focus on instructional materials development. The national science Foundation (NSF) has long recognized the importance of instructional materials through its support for curriculum development. Recent attention to standards-based systemic reform raises new questions about instructional materials, including attention to development, marketing

and distribution, adoption and implementation, and impact. The purpose of this study is to provide answers to questions related to these topics by gathering information from developers, marketers, school and district decision makers, and teachers.

Respondents and burden hours;

	Number of respondents	Number of responses/ respondents	Average burden/ responses (in hours)
Developers	180	1	1
Marketers	90	1	1
Customers	135	1	1.5
Teachers	200	1	2

Send written comment to Herman Fleming, Clearance Office, National Science Foundation, 4201 Wilson Boulevard, Arlington, VA 22230. Written comments should be received by November 4, 1996.

Dated: November 5, 1996.
