

following characteristics except entries which the Department determined through its end-use certification procedure were not used in OCTG applications: Length of at least 16 feet; outside diameter of standard sizes published in the ALI or proprietary specifications for OCTG with tolerances of plus $\frac{1}{8}$ inch for diameters less than or equal to $8\frac{5}{8}$ inches and plus $\frac{1}{4}$ inch for diameters greater than $8\frac{5}{8}$ inches, minimum wall thickness as identified for a given outer diameter as published in the ALI or proprietary specifications for OCTG; a minimum of 40,000 PSI yield strength and a minimum 60,000 PSI tensile strength; and if with seams, must be electric resistance welded. Furthermore, imports covered by this review include OCTG with non-standard size wall thickness greater than the minimum identified for a given outer diameter as published in the ALI or proprietary specifications for OCTG, with surface scabs or slivers, irregularly cut ends, ID or OD weld flash, or open seams; OCTG may be bent, flattened or oval, and may lack certification because the pipe has not been mechanically tested or has failed those tests.

This merchandise is currently classifiable under the Harmonized Tariff Schedules (HTS) item numbers 7304.20, 7305.20, and 7306.20. The HTS item numbers are provided for convenience and Customs purposes. The written description remains dispositive.

Final Results of Review

We gave interested parties an opportunity to comment on the preliminary results. The Department received no comments. Accordingly, we have determined that a margin of zero percent exists for IPSCO for the period June 1, 1994 through May 31, 1995.

Based on information submitted by IPSCO during this and the two previous reviews (see Final Results of Antidumping Duty Administrative Review on Oil Country Tubular Goods from Canada, ((60 FR 35898; July 12, 1995) and (59 FR 34409; July 5, 1994)), we determine that IPSCO has met the requirements for revocation set forth in sections 353.25(a)(2) and 353.25(b) of the Department's regulations. IPSCO has demonstrated three consecutive years of sales at not less than normal value and has submitted the required certifications stating that it will not in the future sell OCTG at less than normal value and it agrees to its immediate reinstatement in the antidumping duty order if the Department concludes that IPSCO sold OCTG at less than normal value subsequent to revocation. Moreover, on the basis of no sales at less than normal value for a period of three consecutive

years and the lack of any indication that IPSCO will make sales below normal value in the future, the Department concludes that IPSCO is not likely to sell subject merchandise at less than normal value in the future. Therefore, the Department is revoking the order with respect to IPSCO.

The Department will instruct the U.S. Customs Service to liquidate, without regard to antidumping duties, all shipments of subject merchandise produced by IPSCO and entered on or after June 1, 1994.

Furthermore, the following deposit requirements will be effective for all shipments of the subject merchandise, entered or withdrawn from warehouse, for consumption on or after the publication date of these final results of review, other than shipments of subject merchandise produced by IPSCO, as provided by section 751(a)(1) of the Act: (1) For merchandise exported by manufacturers or exporters not covered in this review but covered in a previous review or the original less-than-fair-value (LTFV) investigation, the cash deposit rate will continue to be the rate published in the most recent final results or determination for which the manufacturer or exporter received a company-specific rate; (2) if the exporter is not a firm covered in this review, earlier reviews, or the original investigation, but the manufacturer is, the cash deposit rate will be that rate established for the manufacturer of the merchandise in these final results of review, earlier reviews, or the original investigation, whichever is the most recent; and (3) the "all others" rate will be 16.65 percent.

These deposit requirements, when imposed, shall remain in effect until publication of the final results of the next administrative review.

This notice serves as a reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective orders (APOs) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 353.34(d). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested.

Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act and 19 CFR 353.22.

Dated: September 16, 1996.

Robert S. LaRussa,

Acting Assistant Secretary for Import Administration.
