

On December 5, 1995, OZ Technology, Inc. petitioned EPA to remove Hydrocarbon Blend B from the unacceptable list and add it to the acceptable list, and to remove HFC-134a from the acceptable list and add it to the unacceptable list. The petition is in Air Docket A-91-42, file number VI-D-135. On August 30, 1996, EPA denied the first request in the petition on the basis that the information included in the petition did not include a scientifically valid, comprehensive risk assessment for the requested CFC-12 end-uses, and the second request on the basis that the petition did not contain sufficient evidence of a safety hazard posed by the use HFC-134a as a CFC-12 substitute in any end-use. The denial and the accompanying documentation are in Air Docket A-91-42, file number VI-C-20.
