ENVIRONMENTAL PROTECTION AGENCY

[FRL-5619-3]

Agency Information Collection Activities Under OMB Review; NSPS for Grain Elevators (OMB No. 2060-0082; EPA ICR No. 1130.05); NSPS for Petroleum Dry Cleaning Facilities (OMB No. 2060-0079; EPA No. 0997.05)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3507 (a)(1)(D), *et seq.*), this notice announces that the following Information Collection Requests (ICRs) have been forwarded to the Office of Management and Budget (OMB) for review and approval: NSPS for Grain Elevators, Subpart DD, EPA ICR Number 1130.05, OMB Control Number 2060-0082; and NSPS for Petroleum Dry Cleaning Facilities, Subpart III, OMB NO. 2060-0079, EPA NO. 0997.05, both expiring November 30, 1996. The ICRs describe the nature of the information collection and their expected burdens and costs.

DATES: Comments must be submitted on or before November 1, 1996.

FOR FURTHER INFORMATION OR A COPY CALL: Sandy Farmer at EPA, (202) 260-2740, and refer to the appropriate EPA ICR No. 1130.05, or 997.05.

SUPPLEMENTARY INFORMATION:

Title: New Source Performance Standards (NSPS) for grain elevators, Subpart DD, OMB Control Number 2060-0082, EPA ICR Number 1130.05,

expiring November 30, 1996. This is a request for an extension of a currently approved collection.

Abstract: Owners or operators to NSPS Subpart DD must make the following one time-only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility that may increase the rate of emission of the regulated pollutant; notification of the date of the initial performance test; and the results of the initial performance test, including information necessary to determine the conditions of the performance test and performance test measurements and results, including particulate matter concentration and opacity.

Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, as well as the nature and cause of the malfunction (if known) and corrective measures taken. These notifications, reports and records are required, in general, of all sources subject to NSPS. Without such information, enforcement personnel would be unable to determine if the standards are being met on a continuous basis, as required by the Clean Air Act.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15. The Federal Register Notice required under 5 CFR 1320.8(d),

soliciting comments on this collection of information was published on June 11, 1996 (61 FR 29551). One commentor telephoned to say he thought EPA's estimate of one new source annually was low. After consulting with Regions and AIRS, EPA has decided not to adjust its estimate. The available data do not indicate the startup of more than one Subpart DD source in the average year.

The required information consists of emissions data and other information that have been determined not to be private. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (see 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 40000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 1764, March 23, 1979).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average one hour for each of the estimated 63 established sources, and 42.6 hours for the estimated one new source every year. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the

existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected Entities: Grain elevators.

Estimated Number of Respondents: 64.5.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 107.1 hours.

Title: NSPS for Petroleum Dry Cleaning Facilities Subpart JJJ (OMB Control No. 2060-0079; EPA ICR No. 0997.05); expiring November 30, 1996. This is a request for renewal of a currently approved information collection request.

Abstract: Owners or operators of petroleum dry cleaning facilities must make the following one-time only reports: notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility which may increase the regulated pollutant emission rate; and the notification of the date of the initial performance test. Owners or operators are also required to maintain records for two years of the occurrence and duration of any startup, shutdown, or malfunction in the operation of the affected facility. The notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. Performance test records are needed to ensure the source's initial capability to comply with the emission standards.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR Part 9 and 48 CFR Chapter 15.

The Federal Register Notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on June 11, 1996 (61 FR 29551). No comments were received.

Burden Statement: The annual public recordkeeping and reporting burden for this collection of information is estimated to average 82 hours per response for new dry cleaning facilities. This is a one-time requirement. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information, adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Affected Entities: Petroleum dry cleaners.

Estimated Number of Respondents: 216.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 1483 hours.

Send comments on the Agency's need for the information in these collections, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to the appropriate EPA ICR Number and OMB Control Number in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, OPPE Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460.

and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.

Dated: September 25, 1996.

Joseph Retzer,

Director, Regulatory Information Division.

Notice of Receipt of Requests to Voluntarily Cancel Certain Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In accordance with section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, EPA is issuing a notice of receipt of requests by registrants to voluntarily cancel certain pesticide registrations.

DATES: Unless a request is withdrawn by December 31, 1996 orders will be issued cancelling all of these registrations.

FOR FURTHER INFORMATION CONTACT: By mail: James A. Hollins, Office of Pesticide Programs (7502C), Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location for commercial courier delivery and telephone number: Room 216, Crystal Mall No. 2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-5761; e-mail: hollins.james@epamail.epa.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

Section 6(f)(1) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, provides that a pesticide registrant may, at any time, request that any of its pesticide registrations be cancelled. The Act further provides that EPA must publish a notice of receipt of any such request in the Federal Register before acting on the request.

II. Intent to Cancel

This Notice announces receipt by the Agency of requests to cancel some 42 pesticide products registered under section 3 or 24(c) of FIFRA. These registrations are listed in sequence by registration number (or company number and 24(c) number) in the following Table 1.

TABLE 1. — REGISTRATIONS WITH PENDING REQUESTS FOR CANCELLATION

Registration No.	Product Name	Chemical Name
000100 OR-95-0029	Dividend Fungicide	1H-1,2,4-Triazole, 1-((2-(2-chloro-4-(4-chlorophenoxy)phenyl)-4-methyl-1,3-
000100 TX-94-0009	Tilt Fungicide	1-((2-(2,4-Dichlorophenyl)-4-propyl-1,3-dioxolan-2-yl)methyl)-1H-1,2,4-triazole
