

Wisconsin Public Service Corporation, Docket No. 50-305, Kewaunee Nuclear Power Plant, Kewaunee County, Wisconsin

Date of application for amendment: June 10, 1996, as supplemented on August 27, and September 5, 1996.

Brief description of amendment: The amendment revises Kewaunee Nuclear Power Plant Technical Specification 4.2.b, "Steam Generator Tubes," and its associated basis, by allowing the use of Westinghouse laser-welded sleeves to repair defective steam generator tubes.

Date of issuance: September 24, 1996

Effective date: September 24, 1996, and is to be implemented within 30 days of the date of issuance.

Amendment No.: 127

Facility Operating License No. DPR-43: Amendment revised the Technical Specifications.

Date of initial notice in Federal Register: July 3, 1996 (61 FR 34902) The August 27, 1996, submittal increased the TS required sample size for in-service inspection of repaired tubes in both SGs. The September 5, 1996, submittal incorporated the EPRI guidelines for SG inspection scope expansion for repaired SG tubes into the TS. These submittals provided clarifying information and did not change the initial proposed no significant hazards consideration determination. The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated September 24, 1996. No significant hazards consideration comments received: No.

Local Public Document Room location: University of Wisconsin, Cofrin Library, 2420 Nicolet Drive, Green Bay, Wisconsin 54311-7001

Wisconsin Public Service Corporation, Docket No. 50-305, Kewaunee Nuclear Power Plant, Kewaunee County, Wisconsin

Date of application for amendment: May 1, 1996 as supplemented on May 31, August 14, August 26, and September 11, 1996.

Brief description of amendment: The amendment revises Kewaunee Nuclear Power Plant Technical Specification 4.2.b, "Steam Generator Tubes," its associated bases, and Figure TS 4.2-1 by redefining the pressure boundary for Westinghouse mechanical hybrid expansion joint (HEJ) steam generator (SG) tube sleeves.

Date of issuance: September 25, 1996

Effective date: September 25, 1996, and is to be implemented within 30 days of the date of issuance.

Amendment No.: 128

Facility Operating License No. DPR-43: Amendment revised the Technical Specifications.

Date of initial notice in Federal Register: May 22, 1996 (61 FR 25715) The May 31, August 14, August 26, and September 11, 1996, submittals provided clarifying information that did not change the initial proposed no significant hazards consideration determination. The Commission's related evaluation of the amendment is contained in a Safety Evaluation dated September 25, 1996. No significant hazards consideration comments received: No

Local Public Document Room location: University of Wisconsin, Cofrin Library, 2420 Nicolet Drive, Green Bay, Wisconsin 54311-7001

Dated at Rockville, Maryland, this 2nd day of October 1996.

Draft Regulatory Guide; Issuance, Availability

The Nuclear Regulatory Commission has issued for public comment a proposed revision of a guide in its Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques used by the staff in evaluating specific problems or postulated accidents, and data needed by the staff in its review of applications for permits and licenses.

The draft guide is a proposed Revision 3 to Regulatory Guide 1.8, and it is temporarily identified as DG-1012, "Qualification and Training of Personnel for Nuclear Power Plants." The guide will be in Division 1, "Power Reactors." This regulatory guide is being revised to provide current guidance acceptable to the NRC staff regarding qualifications and training for nuclear power plant personnel. This regulatory guide would endorse ANSI/ANS-3.1-1993, "Selection, Qualification and Training of Personnel for Nuclear Power Plants."

The draft guide has not received complete staff review and does not represent an official NRC staff position.

Public comments are being solicited on the guide. Comments should be accompanied by supporting data. Written comments may be submitted to the Rules Review and Directives Branch, Division of Freedom of Information and

Publications Services, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Copies of comments received may be examined at the NRC Public Document Room, 2120 L Street NW., Washington, DC. Comments will be most helpful if received by November 15, 1996.

Although a time limit is given for comments on this draft guide, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

Comments may be submitted electronically, in either ASCII text or Wordperfect format (version 5.1 or later), by calling the NRC Electronic Bulletin Board on FedWorld. The bulletin board may be accessed using a personal computer, a modem, and one of the commonly available communications software packages, or directly via Internet.

If using a personal computer and modem, the NRC subsystem on FedWorld can be accessed directly by dialing the toll free number: 1-800-303-9672. Communication software parameters should be set as follows: parity to none, data bits to 8, and stop bits to 1 (N,8,1). Using ANSI or VT-100 terminal emulation, the NRC NUREGs and RegGuides for Comment subsystem can then be accessed by selecting the "Rules Menu" option from the "NRC Main Menu." For further information about options available for NRC at FedWorld, consult the "Help/Information Center" from the "NRC Main Menu." Users will find the "FedWorld Online User's Guides" particularly helpful. Many NRC subsystems and data bases also have a "Help/Information Center" option that is tailored to the particular subsystem.

The NRC subsystem on FedWorld can also be accessed by a direct dial phone number for the main FedWorld BBS, 703-321-3339, or by using Telnet via Internet, fedworld.gov. If using 703-321-3339 to contact FedWorld, the NRC subsystem will be accessed from the main FedWorld menu by selecting the "Regulatory, Government Administration and State Systems," then selecting "Regulatory Information Mall." At that point, a menu will be displayed that has an option "U.S. Nuclear Regulatory Commission" that will take you to the NRC Online main menu. The NRC Online area also can be accessed directly by typing "/go nrc" at a FedWorld command line. If you access NRC from FedWorld's main menu, you may return to FedWorld by selecting the "Return to FedWorld" option from the NRC Online Main Menu. However, if

you access NRC at FedWorld by using NRC's toll-free number, you will have full access to all NRC systems but you will not have access to the main FedWorld system.

If you contact FedWorld using Telnet, you will see the NRC area and menus, including the Rules menu. Although you will be able to download documents and leave messages, you will not be able to write comments or upload files (comments). If you contact FedWorld using FTP, all files can be accessed and downloaded but uploads are not allowed; all you will see is a list of files without descriptions (normal Gopher look). An index file listing all files within a subdirectory, with descriptions, is included. There is a 15-minute time limit for FTP access.

Although FedWorld can be accessed through the World Wide Web, like FTP that mode only provides access for downloading files and does not display the NRC Rules menu.

For more information on NRC bulletin boards call Mr. Arthur Davis, Systems Integration and Development Branch, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301)415-5780; e-mail AXD3@nrc.gov. For more information on this draft regulatory guide, contact I. Schoenfeld at the NRC, telephone (301)415-6778; e-mail ISS@nrc.gov.

Regulatory guides are available for inspection at the Commission's Public Document Room, 2120 L Street NW., Washington, DC. Requests for single copies of draft or final guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Distribution and Mail Services Section; or by fax at (301)415-2260. Telephone requests cannot be accommodated. Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland, this 23rd day of September 1996.

For the Nuclear Regulatory Commission.
M. Wayne Hodges,

*Director, Division of Systems Technology,
Office of Nuclear Regulatory Research.*

BILLING CODE 7590-01-P

[NUREG-0700, Rev. 1]

Notice of Issuance and Availability; Correction

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of issuance and availability; Correction.

SUMMARY: This document corrects a notice appearing in the Federal Register on September 13, 1996 (61 FR 48513), that announces the availability of Revision 1 to NUREG-0700, "Human-System Interface Design Review Guideline." This action is necessary to reflect the appropriate information concerning the availability of a final NUREG publication.

SUPPLEMENTARY INFORMATION: In the Federal Register of September 13, 1996, in the tenth line of the third column, remove the language, "Requests for single copies of NUREGs (which may be reproduced) should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Distribution and Mail Services Section. Telephone requests cannot be accommodated.", and insert in its place the following language: "Copies of NUREGS may be purchased from the Superintendent of Documents, U.S. Government Printing Office, P.O. Box 37082, Washington, DC 20402-9328. Copies are also available from the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. A copy is available for inspection and/or copying in the NRC Public Document Room, 2120 L Street, NW. (Lower Level), Washington, DC."

Dated at Rockville, Maryland, this 4th day of October 1996.

For the Nuclear Regulatory Commission.
Michael T. Lesar,
Chief, Rules Review Section, Rules Review and Directives Branch, Division of Freedom of Information and Publications Services, Office of Administration.

OFFICE OF PERSONNEL MANAGEMENT

The National Partnership Council; Notice of Meeting

AGENCY: Office of Personnel Management.

ACTION: Notice of meeting.

TIME AND DATE: 10:00 a.m., October 9, 1996.

PLACE: Lincoln Room, Kellogg Conference Center, Michigan State

University, East Lansing, Michigan 48824.

STATUS: This meeting will be open to the public. Seating will be available on a first-come, first-served basis. Individuals with special access needs wishing to attend should contact OPM at the number shown below to obtain appropriate accommodations.

MATTERS TO BE CONSIDERED: The National Partnership Council (NPC) will receive presentations by representatives of Michigan State University's School of Labor and Industrial Relations, and labor and management representatives of the Michigan National Guard.

CONTACT PERSON FOR MORE INFORMATION: Michael Cushing, Director, Center for Partnership and Labor-Management Relations, Office of Personnel Management, Theodore Roosevelt Building, 1900 E Street, NW., Room 7H28, Washington, DC 20415-0001, (202) 606-0010.

SUPPLEMENTARY INFORMATION: We invite interested persons and organizations to submit written comments. Mail or deliver your comments to Michael Cushing at the address shown above.

Office of Personnel Management.

James B. King,

Director.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, D.C. 20549

Existing Collection of Information:
Rule 10a-1, SEC File No. 270-413, OMB Control No. 3235-new

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget a request for approval of a collection currently in use on the following rule.

Rule 10a-1 (17 CFR 240.10a-1) under the Securities Exchange Act of 1934 ("Exchange Act") is intended to limit short selling of a security in a declining market, by requiring, in effect, that each successive lower price be established by a long seller. The price at which short sales may be effected is established by reference to the last sale price reported in the consolidated system or on a
