

## Final Results of Review

As a result of our review of the comments received, we have

determined that the following margins exist:

Manufacturer/exporter	Time period	Margin (percent)
China National Chemical Construction Corporation .....	8/1/93-7/31/94	60.68
Hainan Garden Trading Company .....	8/1/93-7/31/94	67.05
Sinochem Hebei Import & Export Corporation .....	8/1/93-7/31/94	7.70
Yude Chemical Industry Company* .....	8/1/93-7/31/94	0.00
Zhenxing Chemical Industry Company* .....	8/1/93-7/31/94	0.00
PRC Rate .....	8/1/93-7/31/94	85.20

\* Yude and Zhenxing have been collapsed for the purposes of this administrative review. However, we have listed them separately on this chart for Customs purposes.

The Department will instruct the Customs Service to assess antidumping duties on all appropriate entries. The Department will issue appraisal instructions directly to the Customs Service.

Furthermore, the following deposit requirements will be effective upon publication of these final results for all shipments of sulfanilic acid from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided for by section 751(a)(1) of the Act: (1) the cash deposit rates for reviewed companies named above which have separate rates will be the rates for those firms listed above; (2) for the companies which were not found to have a separate rate, Baoding No. 3 Chemical Factory, China National Chemical Construction Corporation, Qingdao Branch, Jinxing Chemical Factory, Sinochem Qingdao, and Sinochem Shandong, as well as for all other PRC exporters, the cash deposit rate will be the highest margin ever in the LTFV investigation or in this or prior administrative reviews, the PRC-wide rate; and (3) the cash deposit rate for non-PRC exporters of subject merchandise from the PRC will be the rate applicable to the PRC supplier of that exporter. These deposit requirements shall remain in effect until publication of the final results of the next administrative review.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 353.26 to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their

responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CR 353.34(d)(1). Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

This administrative review and notice are in accordance with section 751(a)(1) of the Act (19 U.S.C. 1675(a)(1)) and 19 CFR 353.22.

Dated: October 7, 1996.

Robert S. LaRussa,

*Acting Assistant Secretary for Import Administration.*

[Docket No. 960909249-6276-02]

RIN 0693-XX23

## National Voluntary Conformity Assessment System Evaluation (NVCASE) Program

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice; request for public comment.

**SUMMARY:** This is to advise the public that the National Institute of Standards and Technology (NIST) received a letter dated July 25, 1996 from The National Board of Boiler and Pressure Vessel Inspectors requesting the development of a new program under the National Voluntary Conformity Assessment Systems Evaluation (NVCASE) Program. The letter requests NVCASE to evaluate and accredit that Board as an ISO-9000 registrar so that it, in turn, can conduct audits of manufacturers of pressure vessels according to ISO-9000, formally registering those which are in

compliance. The Board's goal is to achieve acceptance by Canada and other governments of ISO 9000 registrations performed in the United States on an equal basis with those performed in those other countries.

**DATES:** Comments on this request must be received by December 30, 1996.

**ADDRESSES:** Comments should be submitted in writing to Robert L. Gladhill, NVCASE Program Manager, NIST, Bldg. 820, Room 282, Gaithersburg, MD 20899, by fax at 301-963-2871, or email [rlglad@nist.gov](mailto:rlglad@nist.gov).

**FOR FURTHER INFORMATION CONTACT:** Robert L. Gladhill, NVCASE Program Manager, at NIST, Bldg. 820, Room 282, Gaithersburg, MD 20899, by telephone at 301-975-4029, by fax at 301-963-2871 or by email at [rlgad@nist.gov](mailto:rlgad@nist.gov).

**SUPPLEMENTARY INFORMATION:** The NVCASE procedures at 15 CFR Part 286 require NIST to seek public consultation when it receives such requests. This program involves a collection of information subject to the Paperwork Reduction Act. This collection is approved by the Office of Management and Budget under control No. 0693-0019.

The text of the request follows:

July 25, 1996.

Mr. Robert L. Gladhill, Program Manager,  
NVCASE Program, NIST, Bldg. 820,  
Room 282, Gaithersburg, MD 20899

Dear Mr. Gladhill: The National Board of Boiler and Pressure Vessel Inspectors is requesting NIST to accredit the National Board as an ISO-9000 registrar under the NVCASE program. We would like to coordinate our activities with NIST to achieve our goal in the most expeditious manner possible. Successful efforts from both our organizations will help boiler and pressure vessel manufacturers in the global marketplace.

The National Board is the central organization in the United States that coordinates certification and enforcement activities in the boiler and pressure vessel industry. The National Board is comprised of the chief inspectors of the states and certain cities of the United States. These chief

inspectors are responsible for the enforcement of regulation pertaining to the construction, installation, operation, repair, and alteration of boilers and pressure vessels. Certification by a government body is consistent with the founding principles of the National Board.

Since its founding in 1919, the National Board has been assisting the states in the enforcement of boiler and pressure vessel safety legislation. Currently, most of the audits of boiler and pressure vessel manufacturers, installers, and assemblers in the United States are conducted by the National Board and its members. Also, all audits of manufacturers and assemblers of safety valves are conducted by the National Board. These audits are conducted to assure compliance with the requirements of the quality and construction standards, and to ensure compliance with the regulations of the states and cities. The ability to certify to ISO-9000 will allow manufacturers the option to expand their markets internationally.

The National Board has conducted audits at nuclear generating stations. The Nuclear Regulatory Commission in their deliberations has used results of the audits in its decisions on the licensing of stations. These audits are conducted on programs complying with 10 CFR 50 that are identical to ISO-9000.

Currently, requirements are in place by Canadian authorities requiring an accepted quality program for import into Canada. The U.S. fitting/flange manufacturers may have their quality program reviewed by provincial authorities or be in possession of a Certificate issued by an accredited registrar. The National Board is among organizations recognized by these authorities as a body that can certify manufacturers. Lacking accreditation, we are unable to assist U.S. manufacturers in their attempts to enter this market.

The National Board has been in discussions with the Registrar Accreditation Board (RAB) on the issue of certification of personnel. Their policy is that in order for an applicant for accreditation to be considered by them, RAB must certify the applicant's personnel. Other accreditors of ISO-9000 registrars recognize a registrar's ability to certify their own personnel in accordance with ISO-10011. This issue has caused a stalemate in our relationship with RAB preventing the National Board from becoming accredited by RAB.

On behalf of the members of the National Board, I look forward to working with NIST on the NVCASE program.

Yours truly,  
Albert J. Justin,  
*Executive Director.*

## National Oceanic and Atmospheric Administration

### Coastal Zone Management; Federal Consistency Appeal

**AGENCY:** National Oceanic and Atmospheric Administration, Commerce.

**ACTION:** Notice of appeal and request for comments.

Jessie W. Taylor (Appellant), filed with the Secretary of Commerce (Secretary) a notice of appeal pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972 (CZMA), as amended, 16 U.S.C. §§ 1451 *et seq.*, and the Department of Commerce's implementing regulations, 15 CFR Part 930, Subpart H. The appeal is taken from an objection by the South Carolina Office of Ocean and Coastal Resource Management (State) to the Appellant's project which involves placing fill material in approximately 0.6 acres of wetlands for the purpose of commercial development. The site of the proposed project consists of two undeveloped lots, which are located in a commercial area adjacent to Highway 17, in Surfside Beach, Horry County, South Carolina. The Appellant has certified that the project, for which a U.S. Army Corps of Engineers permit must be obtained, is consistent with the State's coastal management program (CMP).

The CZMA provides that a timely objection by a state precludes any federal agency from issuing licenses or permits for the activity unless the Secretary finds that the activity is either "consistent with the objectives" of the CZMA (Ground I) or "necessary in the interest of national security" (Ground II). Section 307(c)(3)(A). To make such a determination, the Secretary must find that the proposed project satisfies the requirements of 15 CFR 930.121 or 930.122.

The Appellant requests that the Secretary override the State's consistency objections based on Ground I. To make the determination that the proposed activity is "consistent with the objectives" of the CZMA, the Secretary must find that: (1) the proposed activity furthers one or more of the national objectives or purposes contained in section 302 or section 303 of the CZMA,

(2) the adverse effects of the proposed activity do not outweigh its contribution to the national interest, (3) the proposed activity will not violate the Clean Air Act or the Federal Water Pollution Control Act, and (4) no reasonable alternative is available that would permit the activity to be conducted in a manner consistent with the State's CMP. 15 CFR 930.121.

Public comments are invited on the findings that the Secretary must make as set forth in the regulations at 15 CFR 930.121. Comments are due within 30 days of the publication of this notice and should be sent to Mr. Roger B. Eckert, Attorney-Adviser, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910. Copies of comments will also be forwarded to the Appellant and the State.

All nonconfidential documents submitted in this appeal are available for public inspection during business hours at the offices of the State and the Office of the Assistant General Counsel for Ocean Services.

**FOR ADDITIONAL INFORMATION CONTACT:** Mr. Roger B. Eckert, Attorney-Adviser, Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, 1305 East-West Highway, Room 6111, Silver Spring, MD 20910, (301) 713-2967. (Federal Domestic Assistance Catalog No. 11.419 Coastal Zone Management Program Assistance)
