### Effluent Limitations Guidelines, Pretreatment Standards, and New Source Performance Standards: Centralized Waste Treatment Category: Reopening of Comment Period

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; reopening of comment period.

**SUMMARY:** The U.S. Environmental Protection Agency (EPA) is reopening the comment period for Effluent Limitations Guidelines, Pretreatment Standards, and New Source Performance Standards: Centralized Waste Treatment Category: Data Availability; Proposed Rule, which was published in the Federal Register on

September 16, 1996 (61 FR 48805). The public comment period for the Notice of Data Availability ended on October 16, 1996.

EPA has received several requests for an extension of time to comment on the Notice of Data Availability. These requests are from facilities that may be affected by the final rule. The additional time will provide the opportunity for more thorough review of new information and facility profiles and in turn, allow more informed public comment. The Agency has determined that an extension of time is in the public interest, and that an additional 20 days to comment on the Notice of Data Availability is reasonable.

**DATES:** Comments on this notice are solicited and will be accepted until November 25, 1996. Comments are to be submitted in triplicate, and also in electronic format (diskettes) if possible.

**ADDRESS:** Comments are to be submitted to Mr. Ed Terry at the following address: Engineering and Analysis Division (4303), U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460.

**FOR FURTHER INFORMATION CONTACT:** Mr. Ed Terry, Engineering and Analysis Division (4303), U.S. EPA, 401 M Street, S.W., Washington, D.C. 20460, telephone number (202) 260-7128 or via EMAIL at: terry.ed@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:** On September 16, 1996, EPA published a notice in the Federal Register which describes the new information the Agency has obtained since the proposed rulemaking (60 FR 5464, January 27, 1995) for the Centralized Waste Treatment (CWT) Industry. The notice also explains the Agency's revised estimates of the size and regulatory impact of the proposed rulemaking on the proposed oils treatment and recovery subcategory and presents preliminary results of EPA detailed analysis for the subcategory.

This extension of time for comment does not represent any modification of the notice of data availability. The extension of time for receipt of comments simply provides interested parties an additional 20 days to provide comments to the Agency on the Notice of Data Availability. All other requirements stipulated in the initial notice for receipt of comments still apply.

All written comments submitted in accordance with the instructions in the Notice of Data Availability and received by November 25, 1996, including those received between the close of the comment period on October 16, 1996, and the publication of this notice, will be entered into the public record and

considered by EPA before promulgation of the final rule.

Dated: October 28, 1996.
