### Environmental Impact Statements and Regulations; Availability of EPA Comments

Availability of EPA comments prepared October 28, 1996 Through November 1, 1996 pursuant to the Environmental Review Process (ERP), under Section 309 of the Clean Air Act and Section 102(2)(c) of the National Environmental Policy Act as amended. Requests for copies of EPA comments can be directed to the Office of Federal Activities at (202) 564-7167. An explanation of the ratings assigned to draft environmental impact statements (EISs) was published in FR dated April 5, 1996 (61 FR 15251).

#### Draft EISs

ERP No. D-AFS-G65065-AR Rating LO, Renewal of the Shortleaf Pine/Bluestem Grass Ecosystem and Recovery of the Red-cockaded Woodpecker, Amendment No. 22 to the Ouachita National Forest Land and Resource Management Plan, Scott and Polk Counties, AR.

*Summary:* EPA had no objection to the selection of the preferred alternative described in the draft EIS.

ERP No. D-COE-E30038-FL Rating EC2, Coast of Florida Erosion and Storm Effects Study Region III, Construction, Operation and Maintenance, Shore Protection Project, Palm Beach, Broward and Dade Counties, FL.

*Summary:* EPA expressed some environmental concerns regarding the long-term consequences of how these actions will affect the ecology of the Florida shoreline.

ERP No. D-COE-K36117-CA Rating EC2, Kaweah River Basin Investigation Feasibility Study, Flood Protection of Terminus Dam, Increase Storage Space in Lake Kaweah for Irrigation of Water Supply, Construction, Modification and Operation, San Joaquin Valley, Tulare and King Counties, CA.

*Summary:* EPA expressed environmental concern with proposed mitigation and recommended selection of the Locally Preferred Plan (LPP) alternative which would address these adverse impacts while meeting project purposes. EPA also expressed concern with the potential adverse impact to riparian and oak woodland/savannah habitat.

ERP No. D-COE-K39044-CA Rating EC2, Norco Bluffs Bank Stabilization Measures, Implementation, Riverside County Flood Control and Water Conservation District, National Economic Development, Santa Ana River, City of Norco, Riverside County, CA.

*Summary:* EPA expressed environmental concerns over potential impacts associated with herbicides, consistency with applicable water quality protection requirements.

ERP No. D-DOE-C06012-NY Rating EO2, West Valley Demonstration Project for Completion and Western New York Nuclear Service Center Closure or Long-Term Management, Appalachian Plateau, City of Buffalo, NY.

*Summary:* EPA had environmental objections to this project because of the limited information concerning site contamination, clean-up levels, waste disposal, ground and surface water radiation risk assessment, and institutional controls. Additional information is requested in the final EIS to address these items. A follow up meeting has also been requested.

#### Final EISs

ERP No. F-BLM-J65198-WY, Green River Resource Area Land and Resource Management Plan, Implementation, Rock Springs District, Sweetwater, Fremont, Uinta, Sublette and Lincoln Counties, WY.

*Summary:* EPA expressed no comments or concerns.

ERP No. F-COE-E01002-NC, Texasgulf Open Pit Mine Continuation, Construction and Operation, Permit Approval, Pamlico River, Aurora, Beaufort County, NC.

*Summary:* EPA supported mining configuration Alternatives D, E-1, and E-2 because these minimize impacts on wetlands of special concern. The up-front mitigation being provided is satisfactory pending resolution of some technical wetland issues. EPA would object to Alternatives a, B {the applicant's choice}, and C, as these would destroy most of the wetlands of special concern.

ERP No. F-COE-E32193-00, Savannah Harbor Navigation Project, Operation and Maintenance, Long Term Management Strategy Study, Chatham County, GA and Jasper County, SC.

*Summary:* Because operational changes to the Savannah Harbor are so comprehensive. EPA continued to have some concerns regarding the long-term consequences of how all of the proposed elements of the management plan will be coordinated and subsequently function.

ERP No. F-COE-G36146-LA, Amite River and Tributaries Flood Control Project, Implementation, East Baton Rouge Parish Watershed, Florida Parishes, LA.

*Summary:* EPA had no objections to the selection of the preferred alternative.

ERP No. F-FRC-L05213-WA, Rocky Reach Hydroelectric Project (FERC No. 2145) Operating License Amendment Issuance to Increase Lake Entiat Reservoir, Chelan and Douglas Counties, WA.

*Summary:* EPA concurs with the Final EIS's conclusion that amending the license for the Rocky Reach project under the applicant's proposal and the FERC staff's two alternatives would not adequately protect Mid-Columbia River salmon stocks. EPA supports FERC's selection of the no-action alternative as the preferred alternative.

ERP No. FB-COE-E36013-MS, Mississippi River and Tributaries Flood Control Plan, Big Sunflower River Maintenance Project, Yazoo Basin, Sunflower, Washington, Humphreys, Sharkey and Yazoo Counties, MS.

*Summary:* EPA expressed concern over the environmental consequences associated with channelizing over one hundred miles of streams in the Big Sunflower watershed. EPA also suggested that a non-structural approach may provide needed flood protection with minimal environmental impacts.
