Circularly Permuted Ligands and Circularly Permuted Fusion Proteins

IH Pastan, RJ Kreitman (NCI)

Serial No. 08/255,224 filed 08 Apr 94

Licensing Contact: Larry Tiffany, 301/496-7056 ext 206

Circularly permuted proteins are ligands wherein the amino and carboxy ends have been joined together and new amino and carboxy ends are formed at a different location in the ligand. The modified ligands are as fully active as the original. The circularly permuted ligands are especially useful when employed as a component in a fusion protein of interest. Fusion proteins are polypeptide chains of two or more proteins fused together in a single polypeptide chain. A fusion protein may act as a potent cell-killing agent or as a linker to bind and enhance the interaction between cells or cellular components to which the protein binds, depending on the nature of the proteins being fused. Therefore, fusion proteins have functional utility as a specific targeting moiety to either kill or direct an immune response to cancer cells. While some targeting moieties have shown lower specificity and affinity for their targets when incorporated into fusion proteins, the use of circularly permuted ligands improves the binding affinity of certain fusion proteins. This invention provides novel ligands and ligand fusion proteins that have a binding specificity and affinity comparable to or greater than native ligand fusion proteins. BILLING CODE 4140-01-M

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR-4124-N-13]

Federal Property Suitable as Facilities To Assist the Homeless

AGENCY: Office of the Assistant Secretary for Community Planning and Development, HUD.

ACTION: Notice.

SUMMARY: This Notice identifies unutilized, underutilized, excess, and surplus Federal property reviewed by HUD for suitability for possible use to assist the homeless.

FOR FURTHER INFORMATION CONTACT: Mark Johnston, room 7256, Department of Housing and Urban Development, 451 Seventh Street SW, Washington, DC 20410; telephone (202) 708-1226; TDD Number for the hearing—and speech-impaired (202) 708-2565 (these telephone numbers are not toll-free), or call the toll-free Title V information line at 1-800-927-7588.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR Part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in *National Coalition for the Homeless v. Veterans Administration*, No. 88-2503-OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/unavailable, suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency's needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Homeless

assistance provider interested in any such property should send a written expression of interest to HHS, addressed to Brian Rooney, Division of Property Management, Program Support Center, HHS, room 5B-41, 5600 Fishers Lane, Rockville, MD 20857; (301) 443-2265. (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible. For complete details concerning the processing of applications, the reader is encouraged to refer to the interim, rule governing this program, 24 CFR Part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1-800-927-7588 for detailed instructions or write a letter to Mark Johnston at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the Federal Register, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (i.e., acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: Navy: Mr. John J. Kane, Deputy Division Director, Department of the Navy, Real Estate Operations, Naval Facilities Engineering Command, Code 241A, 200 Stoval Street, Alexandria, VA 22332-2300; (703) 325-0474; GSA: Mr. Brian K. Polly, Assistant Commissioner, General Services Administration, Office of Property Disposal, 18th and F Streets, NW, Washington, DC 20405; (202) 501-0052; (These are not toll-free numbers).

Dated: November 15, 1996.

Jacque M. Lawing,
Deputy Assistant Secretary for Economic
Development.

[FR Doc. 96–29710 Filed 11–21–96; 8:45 am]

BILLING CODE 4210–29–M

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

**Notice of Availability of a Final
Environmental Impact Statement for
the Proposed El Rancho Electric
Substation, Santa Fe County, New
Mexico**

AGENCY: Bureau of Indian Affairs,
Interior.

ACTION: Notice.

SUMMARY: The Final Environmental Impact Statement (FEIS) for the proposed approval by the Bureau of Indian Affairs (BIA) of a one acre easement on Indian trust land of the Pueblo of San Ildefonso for the Jemez Mountains Electric Cooperative, Inc. (Cooperative) is now available for public review. The FEIS also covers the proposed approval by the Rural Utilities Service (RUS), Department of Agriculture, for the advance of loan funds to the Cooperative for the construction of electrical distribution facilities on the site. The BIA as the lead agency, and the RUS as a cooperating agency are furnishing this notice in accordance with Council on Environmental Quality Regulations, 40 CFR 1503 and 1506.9.

DATES: The Record of Decision will be issued on or after December 16, 1996.

ADDRESSES: Comments may be addressed to Mr. Curtis Canard, Bureau of Indian Affairs, Albuquerque Area Office, Branch of Natural Resources, P.O. Box 26567, Albuquerque, New Mexico 87125–6567. Copies of the FEIS are also available at this address.

FOR FURTHER INFORMATION CONTACT: Mr. Curtis Canard at the above address, or at (505) 766–3374.

SUPPLEMENTARY INFORMATION: The Proposed Action would permit the Cooperative to construct a new 69/12.47 kV electric distribution substation and related facilities on 1.0 acre of land in the community of El Rancho, Santa Fe County, New Mexico. The substation includes terminal and switching equipment for a 69 kV transmission line. The related facilities consist of the 69 kV transmission line and four underground distribution tie lines.

The action is needed in order to meet the increasing demand for electrical power in the El Rancho service area. Service is now being supplied by a temporary substation, located approximately one and one-half miles from the proposed project site, whose capacity is no longer sufficient to deliver reliable electric power. Moreover, a higher capacity substation is needed in the El Rancho area to serve
