

ACTION: Board of visitors meeting.

SUMMARY: A meeting of The Defense Acquisition University (DAU) Board of Visitors (BoV) will be held at the Defense Systems Management College (DSMC), 9820 Belvoir Road, Fort Belvoir, Virginia on Thursday, March 7, 1996 from 0830 until 1600 and Friday March 8, 1996 from 0830 until 1500. The purpose of this meeting of the BoV is to consider the introduction of an acquisition research program and deliberate on topics of interest to the DAU.

The meeting is open to the public; however, because of space limitations, allocation of seating will be made on a first-come, first-served basis. Persons desiring to attend the meeting should call Mrs. Joyce Reniere at (703) 805-5134.

Dated: February 8, 1996.

L.M. Bynum,

Alternate, OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000-04-M

Privacy Act of 1974; Notice to Amend Systems of Records

AGENCY: Office of the Secretary, DoD.

ACTION: Notice to amend systems of records.

SUMMARY: The President signed Executive Order 12958 on April 17, 1995, replacing Executive Order 12356 effective October 14, 1995. Therefore, the Office of the Secretary of Defense is amending all DoD Privacy Act systems of records notices to reflect this change. Any DoD systems of records notices that cited E.O. 12356 will be amended to read E.O. 12958.

EFFECTIVE DATE: October 14, 1995.

FOR FURTHER INFORMATION CONTACT: Ms. Jody Sinkler at (703) 607-2943 or DSN 327-2943.

SUPPLEMENTARY INFORMATION: The President signed Executive Order 12958 on April 17, 1995, replacing Executive Order 12356 effective October 14, 1995. Therefore, the Office of the Secretary of Defense is amending all DoD Privacy Act systems of records notices to reflect this change. Any DoD systems of records notices that cited E.O. 12356 will be amended to read E.O. 12958.

Dated: February 8, 1996.

Patricia L. Toppings,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5000-04-F

Department of the Air Force

Notice of Intent To Prepare an Environmental Assessment for Realignment of Scott AFB, IL

The United States Air Force (Air Force) will prepare an Environmental Assessment (EA) to assess the potential environmental impacts of the realignment of an Illinois Air National Guard (ANG) unit to Scott Air Force Base (AFB) near Belleville, Illinois. The Mid-America civilian airport borders the site to the north. This action is required in connection with implementation of the recommendations of the 1993 and 1995 Defense Base Closure and Realignment Commissions.

The proposed realignment would relocate 10 KC-135 aircraft and associated personnel and equipment to Scott AFB and entails approximately \$80M in construction on the base. Under the No Action alternative, the ANG unit and its aircraft, personnel and equipment would not relocate. The purpose of the analysis is to determine the environmental impacts of the proposed realignment and if it requires the preparation of an Environmental Impact Statement (EIS).

The Air Force will conduct a public meeting to ensure the environmental assessment addresses the appropriate scope of issues. The public comments will be considered in the preparation of the EA. Notice of the date, time, and location of the meeting will be made available to public officials, the community, and the news media at a later date. Written comments on the scope of alternatives and impacts will also be accepted and considered. If the Air Force were to decide to propose an EIS, this process may also be substituted for the scoping process that would normally precede an EIS.

To ensure the Air Force will have sufficient time to consider all appropriate comments, please forward comments to the address listed below by 19 March 1996. The Air Force will accept appropriate input any time throughout this process.

Please direct any written comments or requests for further information concerning this action to: Ms. Jean Reynolds, HQ AMC/CEBP, 507 "A" Street, Scott AFB, IL 62225-5022, (618) 256-6128, ext. 394.

Patsy J. Conner,

Air Force Federal Register Liaison Officer.

BILLING CODE 3910-01-P

Department of the Army**Corps of Engineers**

[3710-AJ]

Jacksonville District, Jacksonville, FL; Intent To Prepare a Draft Environmental Impact Statement (DEIS) for the C-7, C-8, and C-9 (North Dade) Canals General Reevaluation Report (GRR)

AGENCY: U.S. Army Corps of Engineers, Department of Defense.

ACTION: Notice of intent.

SUMMARY: The Jacksonville District, U.S. Army Corps of Engineers (Corps), along with the South Florida Water Management District (SFWMD), intends to prepare a Draft Environmental Impact Statement (DEIS) for the feasibility phase of the C-7, C-8, and C-9 (North Dade) Canals General Reevaluation Report (GRR).

FOR FURTHER INFORMATION CONTACT: Questions about the proposed action and DEIS can be answered by: Mark Ziminske, Planning Division, U.S. Army Corps of Engineers, P.O. Box 4970, Jacksonville, Florida 32232-0019; Telephone 904-232-1786/Fax 904-232-3442.

SUPPLEMENTARY INFORMATION:

a. Authorization

Construction of the C-7 (Little River), C-8 (Biscayne), and C-9 (Snake Creek) canals, and associated water control structures, S-27, S-28, and S-29 was authorized by the Flood Control Act of 1948, which provided for construction of the first phase of a comprehensive plan for flood control, fish and wildlife preservation, regional groundwater control, salinity control, and navigation. The Energy and Water Development Act of 1955 authorized preparation of a GRR to review conveyance capacity of existing canals, document the quality of local maintenance, and to make recommendations for implementable solutions to flooding problems in the C-7, C-8, and C-9 drainage basins.

b. Study Area

The C-7, C-8, and C-9 basins are located in northeastern Dade County, Florida; all three canals as well as control structures S-27, S-28, and S-29 are previously constructed Corps' projects. The C-7 basin comprises 35 square miles, and is approximately 11 miles long. The western portion of the basin lies in Area B, an area of relatively poor drainage, west of the coastal ridge, eastern Dade County. S-27 is a double grouted concrete spillway located in C-7,

which permits release of flood runoff and prevents over-drainage and saltwater intrusion through C-7.

The C-8 basin comprises about 31 square miles, is approximately 12 miles long, and its western portion is also located in Area B. S-28, located in C-8, is a double-gated spillway, which permits release of flood runoff from the C-8 basin and prevents saltwater intrusion through C-8.

The C-9 basin comprises an area of 98 square miles, 39 square miles in Dade County and 59 square miles in Broward County. The total canal length is approximately 11 miles. S-29 and S-30 are control structures located in the C-9 drainage basin. S-29 is a four-gated spillway which conveys flood runoff and prevents over-drainage and saltwater intrusion through C-9. S-30 is a gated concrete culvert which prevents excessive seepage losses from Water Conservation Area (WCA)-3A by permitting higher stages in the L-33 borrow canal and supplies water from L-33 borrow canal during dry periods to maintain stages and satisfy irrigation demands in the C-7, C-8, and C-9 drainage basins. All three canals discharge into northern Biscayne Bay, at Miami.

c. Project Scope and Preliminary Alternatives

The primary objective of this project is to develop a total watershed plan which identifies structural and/or operational modifications to the C-7, C-8, and C-9 canals and the associated water management facilities. While the project emphasis is to enhance flood control benefits in the project area, the GRR will also document the status and quality of maintenance on the existing project and identify environmental restoration opportunities in conjunction with proposed project modifications.

Alternatives will be developed and evaluated based on the project objectives, environmental studies, flood control feasibility, and economics. Standard Corps' programs HEC-2 and UNET will be used to develop hydraulic models of the existing and any proposed flood control features.

In addition to the without project and future conditions, four preliminary alternatives have been drafted which may be revised pending model results and public feedback. They include: (1) Modifications to existing canals to increase conveyance where appropriate and possible; (2) construction of levees adjacent to existing canals in areas identified as being susceptible to flooding, possibly in conjunction with canal cross-section modifications; (3) use of retention storage basins for peak

discharge attenuation, possibly in conjunction with channel modifications and construction of levees; and (4) operational changes of existing control structures for the respective canals.

d. Scoping

The scoping process as outlined by the Council on Environmental Quality will be utilized to involve Federal, State, and local agencies, affected Indian Tribes, and other interested private organizations and parties.

A Scoping letter will be sent to interested Federal, State and local agencies, interested organizations and the public, requesting their comments and concerns regarding issues they feel should be addressed in the DEIS. Interested persons and organizations wishing to participate in the scoping process should contact the U.S. Army Corps of Engineers at the address above. Significant issues anticipated include concern for: maintenance of flood protection for the project area; water quality, particularly in the receiving waters of Biscayne Bay; wetlands; fish and wildlife; saltwater intrusion into project canals and the groundwater and threatened and endangered plant and animal species. Public meetings will be held over the course of the study, the exact location, dates, and times will be announced in public notices and local newspapers.

e. It is estimated that the DEIS will be available to the public about July 1998.

A.J. Salem,

Chief, Planning Division.

BILLING CODE 3710-AJ-M

DEPARTMENT OF EDUCATION

Notice of Proposed Information Collection Requests

AGENCY: Department of Education.

ACTION: Proposed collection; comment request.

SUMMARY: The Director, Information Resources Group, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

DATES: Interested persons are invited to submit comments on or before April 15, 1996.

ADDRESSES: Written comments should be addressed to the Office of Information and Regulatory Affairs, Attention: Wendy Taylor, Desk Officer, Department of Education, Office of Management and Budget, 725 17th Street, NW., Room 10235, New

Executive Office Building, Washington, DC 20503. Requests for copies of the proposed information collection requests should be addressed to Patrick J. Sherrill, Department of Education, 600 Independence Avenue, SW., Room 5624, Regional Office Building 3, Washington, DC 20202-4651.

FOR FURTHER INFORMATION CONTACT:

Patrick J. Sherrill (202) 708-8196.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director of the Information Resources Group publishes this notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment at the address specified above. Copies of the requests are available from Patrick J. Sherrill at the address specified above.

Dated: February 9, 1996.

Gloria Parker,

Director, Information Resources Group.
