Notice of Intent To Prepare An Environmental Impact Statement for Construction of Flood Protection Facilities Along the Santa Margarita River and Replacement of the Basilone Road Bridge at Marine Corps Base Camp Pendleton, CA

Pursuant to the National Environmental Policy Act as implemented by the Council on Environmental Quality regulations (40 CFR Parts 1500-1508), the U.S. Marine Corps intends to prepare an Environmental Impact Statement (EIS) to evaluate the environmental effects of construction of flood protection facilities and replacement of the Basilone Road Bridge at Marine Corps Base (MCB) Camp Pendleton. During the winter of 1993, heavy rains and stormwater runoff resulted in the Santa Margarita River flooding facilities at MCB Camp Pendleton, including Marine Corps Air Station (MCAS) Camp Pendleton. The flood also destroyed the Basilone Road Bridge, a transportation corridor which spans the Santa Margarita River.

The proposed action involves construction of a levee and stormwater control measures to prevent flooding from the Santa Margarita River damaging facilities at MCB/MCAS Camp Pendleton, and construction of a new two-lane bridge to replace the bridge destroyed by the flood.

Alternatives to be addressed in the EIS will focus on methods of implementing flood protection measures, including different levee alignments; alternative stormwater

control facilities, including a detention basin location and a concrete lined flood control channel; and alternative alignments of the Basilone Road Bridge.

Major environmental issues that will be addressed in the EIS include air quality, water quality, traffic, utilities, endangered species and cultural resources.

The Marine Corps will initiate a scoping process for the purpose of determining the extent of issues to be addressed and identifying the significant issues related to this action. The Marine Corps will hold a public scoping meeting on January 25, 1996, beginning at 4:00 pm, at the San Rafael Elementary School, 1616 San Rafael Drive, Oceanside, CA. This meeting will be advertised in area newspapers.

A brief presentation will precede request for public comment. Marine Corps representatives will be available at this meeting to receive comments from the public regarding issues of concern to the public. It is important that federal, state, and local agencies and interested individuals take this opportunity to identify environmental concerns that should be addressed during the preparation of the EIS. In the interest of available time, each speaker will be asked to limit their oral comments to five minutes.

Agencies and the public are also invited and encouraged to provide written comment on scoping issues in addition to, or in lieu of, oral comments at the public meeting. To be most helpful, scoping comments should clearly describe specific issues or topics which the commentator believes the EIS should address. Written statements and or questions regarding the scoping process should be mailed to: Commanding Officer, Southwest Division, Naval Facilities Engineering Command, 1220 Pacific Coast Highway, San Diego, CA 92132-5187, (Attn: Ms. Melanie Ault, Code 232MA), phone number (619) 532-3355. All comments must be received no later than February 12, 1996.

Dated: January 3, 1996.

By direction of the Commandant of the Marine Corps.

Kim G. Weirick,

Acting Head, Land Use and Military Construction Branch, Facilities and Services Division, Installations and Logistics Department.
