

Kennecott Corporation, Kennecott Holdings Corporation, and Kennecott Utah Copper Corporation .....\$30,285.75  
 Lockheed Corporation .....\$554.20

By the terms of the proposed AOC, these parties will together pay \$215,640.36 to the Hazardous Substance Superfund. This payment represents approximately 0.035% of the total anticipated response costs for the Site upon which this settlement is based. In exchange for payment, EPA will provide the settling parties with a limited covenant not to sue for liability under sections 106 and 107(a) of CERCLA, including liability for EPA's past costs, the cost of the remedy, and future EPA oversight costs, and under section 7003 of the Solid Waste Disposal Act, as amended (also known as the Resource Conservation and Recovery Act). The settlement amount that each PRP will pay, as shown above, depends upon whether they contributed radioactive hazardous substances or non-radioactive hazardous substances to the Site. The per pound cost for non-radioactive hazardous substances is \$1.54. The per pound cost for radioactive hazardous substances is \$3.08. Settlement amounts are calculated by multiplying these per pound costs by the number of pounds of hazardous substances a party sent to the Site (Base Amount), adding a premium of either 30% or 130% of the Base Amount, as specified by each PRP in the AOC, and adding a \$200 administrative fee. For parties paying a 30% premium (Energy Fuels Nuclear, Inc.), there is an exception to the covenant not to sue if total response costs at the Site exceed \$6,000,000. For parties paying a 130% premium (the Kennecott entities and Lockheed Corporation), there is an exception to the covenant not to sue if total response costs at the Site exceed \$20,000,000. For a period of thirty (30) days from the date of this publication, the public may submit comments to EPA relating to this proposed de minimis settlement. A copy of the proposed AOC may be obtained from Kelcey Land (8ENF-T), U.S. Environmental Protection Agency, Region VIII, 999 18th Street, Suite 500, Denver, Colorado 80202-2405, (303) 312-6393. Additional background information relating to the de minimis settlement is available for review at the Superfund Records Center at the above address.

**Correction of Typographical Error in Final Settlement Payment Amount for One Settling De Minimis Party and Correction of Calculation of Final De Minimis Settlement Payment Amounts for Two Settling De Minimis Parties; In the Matter of Conservation Chemical Company of Illinois, Inc., Gary, Indiana; Docket No. V-W-96-C-337**

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice.

**SUMMARY:** On August 30, 1996, EPA entered into a final de minimis settlement with 153 de minimis potentially responsible parties (PRPs), pursuant to Section 122(g) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended ("CERCLA"), for past and estimated future response costs at the Conservation Chemical Company of Illinois Site in Gary, Indiana ("the CCCI Site"). Subsequently, EPA discovered a typographical error with regard to the final settlement amount stated for Jones Chemical, Inc., one of the settling de minimis PRPs listed in Appendix D to the Administrative Order on Consent, Docket Number: V-W-96-C-337 ("the de minimis Consent Order"). In addition, EPA received information that verified that Appleton Electric Company and Doehler-Jarvis, two settling PRPs, were entitled to credits under the terms of the de minimis Consent Order that reduced the amount of their initial calculated settlement payment amounts. EPA is giving notice that it intends to correct the typographical error in Appendix D with regard to Jones Chemical and correct the calculation of the final settlement amounts for Appleton Electric Company and Doehler-Jarvis to account for the verified credits. These corrections do not impact the interests of the other settling de minimis PRPs.

**DATES:** Comments on EPA's correction of the typographical error regarding the final settlement payment amount for Jones Chemical Inc., and the correction of the calculation of the final settlement payment amounts for Appleton Electric Company and Doehler-Jarvis, must be received on or before January 17, 1997.

**ADDRESSES:** Written comments relating to EPA's above-described corrections of the settlement amounts in Appendix D to the Administrative Order on Consent, Docket Number V-W-96-C-337, should be sent to Cynthia N. Kawakami, Associate Regional Counsel, U.S. Environmental Protection Agency, Region 5, Mail Code: C-29A, 77 West Jackson Boulevard, Chicago, Illinois 60604-3590.

**ADDITIONAL INFORMATION:** Copies of the revised Appendix D to the Administrative Order on Consent and the Administrative Record for this Site are available at the following address for review. It is strongly recommended that you telephone Ms. Beth Guria at (312) 886-5892 before visiting the Region 5 Office; U.S. Environmental Protection Agency, Region 5, Superfund Division, Emergency Response Branch; 77 West Jackson Boulevard, Chicago, Illinois 60604-3590.

However, provisions have been made for exclusion and waiver from these requirements if an appropriate application is submitted to EPA and is approved. EPA has received and will accept comments on a request from Rhone-Poulenc for a waiver to import 2,4-dichlorophenol. EPA will publish

another Federal Register notice announcing its decisions on this request.

**SUPPLEMENTARY INFORMATION:** Under 40 CFR part 766 (52 FR 2112, June 5, 1987), EPA requires testing of certain chemical substances to determine whether they may be contaminated with HDDs and HDFs. Under 40 CFR 766.32(a)(2)(i), a waiver may be granted if a responsible company official certifies that the chemical substance is produced only in quantities of 100 kilograms or less per year, and only for research and development purposes. Under 40 CFR 766.32(b), a request for a waiver must be made 60 days before resumption of manufacture or importation of a chemical substance produced by a specific process if the chemical substance is not being manufactured, imported, or processed as of June 5, 1987.

Rhone-Poulenc requested a waiver under 40 CFR 766.32(a)(2)(i), in a letter

to EPA dated October 29, 1996. Rhone-Poulenc plans to import 2,4-dichlorophenol (CAS No. 120-83-2), a substance subject to testing under 40 CFR part 766, solely for research and development purposes. Rhone-Poulenc will limit its import of 2,4-dichlorophenol to 100 kilograms (or less) per year.
